NARRATIVE

Page 1

15-598

On August 17, 2015 at approximately 1530 hours, I was dispatched to 1 Electric Avenue, located in Storey County, Nevada in regards to people trespassing and taking pictures on posted private property. The private property belongs to Tesla.

Upon my arrival I met with foreman Michael Ochs and security Director Randy Riley. Ochs told me he observed two male subjects on the north ridge hill by their security cameras. Ochs stated he made contact with the subjects who were taking pictures of their giga-factory. Ochs told them to delete all photos and the male subjects left the property. Riley told me he would like the subjects cited for trespassing onto Tesla property.

I made contact with the two male subjects who I identified as [REDACTED] and [REDACTED]. [REDACTED] had a California driver's license and [REDACTED] had a valid France passport. [REDACTED] said they were taking photographs and video because they were making a science fiction movie. [REDACTED] stated Tesla is advanced technology so they wanted Tesla to be in their movie. [REDACTED] stated they did not realize they were on private property. [REDACTED] showed me his camera and it appeared he erased all photographs and video.

[REDACTED] spoke broken English and due to [REDACTED] being from France and visiting the United States I cited [REDACTED] only, Cite #, 27631. Riley said that was sufficient and Riley signed the citation next to my signature.

Nothing Further.

NARRATIVE

Page 1

15-675

On September 9, 2015 at 0843 hours, I was dispatched to the Tesla gigafactory located at 1 Electric Avenue, Storey County Nevada, in regards to a reported pass tense trespassing.

Upon arriving I met with the head of security identified by his personal information as Randy Riley. Riley indicated that he viewed a Youtube video showing a drone flying over the Tesla construction sight. Riley stated that per the posting and the time of day when the video was recorded the event must have occurred on Labor Day September 8, 2015. Riley stated that the video was posted by a male subject whom identified himself on Youtube as [REDACTED]. Riley advised upon researching the subject he found the subjects name is [REDACTED]. Riley completed a written statement and provided several emails, photos and other documents showing the subjects internet posts, as well as the video recorded by the drone which captured the male subject flying the drone as it landed. The video clearly shows the subject is standing on a hill top near the Tesla site.

Based off of the video and photos, Riley was able to determine that the subject was trespassing on posted Tesla property. Riley indicated he had concerns about the use of drones in the area above and around the Tesla facility. I informed Riley that law makers have approved a bill to create guidelines for the use of drones in Nevada, but this law will not take effect until October 2015.

Upon further research I was able to identify the subject as [REDACTED] whom resides in Reno Nevada. I sent Ross and email advising him to contact me in regards to the incident.

Nothing Further at this time under investigation.

SUPPLEMENT 1

Page 1

15-675

On September 18, 2015 at 1316 hours, I have still not been contacted by [REDACTED]. Based off of my investigation I found that [REDACTED] did not enter the fenced area and if he did pass a no trespassing sign it is reasonable due to sign spacing, he did not see it.

Also generally a first offense of trespassing with no other related crime would constitute a verbal warning and a formal notification of trespassing.

I have determined to close this Case as all leads exhausted.

If Black is observed on the property again I will reopen this Case and forward it to the Storey County District Attorney for review.

Nothing Further

Narrative:

On September 29, 2015 at approximately 0940 hours, I was conducting a property check at the Tesla site in the Tahoe/Reno Industrial Center of Storey County. As I was driving through the employee parking lot, I observed a medium sized coyote walking through the parking lot. Approximately 10 feet behind the coyote was a white male adult attempting to flag me down.

The subject stated that the coyote had attempted to attack 3 employees prior to my arrival. We have had numerous complaints of a coyote matching the description in the area for the past few months trying to bite people. I then asked dispatch to contact Nevada Department of Wildlife to respond to the location to possibly dispatch the animal. I then gathered volunteer employees from Tesla to assist in "herding" the coyote to a suitable area in which to take its life.

I obtained my department issued shotgun from patrol unit #56311 and ejected all slug type projectiles, and reinserted two .00 Buck shells in the event that I would need to protect myself or others from an impending attack. As we were herding the animal to a suitable location, I observed him look back at me numerous times and growl to voice his displeasure, however, he continued forward.

At one point, the coyote stopped moving forward and turned around to face me. He then hunched down on his front legs as if getting into a position to pounce and began showing his teeth and growling. At this time, I felt as though the coyote was in a position to attack me. I immediately scanned the area to make sure that there would be minimal risk of injury or property damage of a stray round. I then discharged my shotgun and observed the round enter the stomach area of the coyote. The coyote then jumped into the air, twisting around. It then collapsed into a heap onto the ground. No signs of life were observed.

Employees from Tesla then covered the coyote with a black garbage bag and secured it with rocks. I immediately notified command staff of the situation and requested that NDOW continue in to retrieve the body of the now dead nuisance. Upon arrival, NDOW took custody of the coyote and transported it to an unknown location for disposal.

Statement from Randy Riley

Narrative:

On November 20, 2015 at approximately 1510 hours, I was dispatched to Milan Drive on the north side of the Tesla property in reference to a trespasser. Upon arrival, I met with Tesla's Director of Security, Randy Riley. I also observed a security officer speaking with a white male adult, later identified as [REDACTED].

Riley advised that he was notified of a trespasser on the property with a drone. Riley further advised that when he first observed the subject, he was well inside the fence on Tesla property hiking up a hill. Riley later contacted the subject where we were located.

I then made contact with the subject. I identified the subject as [REDACTED] by his Nevada Drivers License. Black admitted to being on Tesla property with his drone and has done so in the past. He stated that he does take video of the building for his YouTube channel.

I then spoke with Sgt Quirk via telephone. Sgt Quirk advised that he was currently working a separate trespassing case at Tesla and believed that [REDACTED] was the perpetrator. He then sent me a photograph of the suspect in his case and I identified the subject as [REDACTED]. [REDACTED] admitted that he had been on the property in the past.

I then concluded my investigation by determining that the crime of trespassing had been committed on Tesla property in the past and on today's date, and that [REDACTED] was the perpetrator thereof. I issued [REDACTED] a citation for two counts of trespassing. At Riley's request, the images collected by the drone were deleted voluntarily by [REDACTED]. Riley also completed a written statement.

I then advised [REDACTED] that he has been trespassed from the property and if he was to return, he would be arrested for trespassing.

16-261

Narrative:

On 04-07-16 at 1500 hrs, I responded to 1 Electric Avenue, located in the TRI area of Storey County, Nevada, to investigate the report of a person trespassing on Tesla property via an airborne, unmanned, drone.

Upon arrival, I met with Tesla Security Director, identified as Randy Riley, and was informed of a video posted on-line wherein a male adult had flown a drone over Tesla property for the purpose of video recording the property and the buildings. Riley stated that his security staff located an on-line video posted by a website called "Jalopnik" which depicted a video of the Tesla property that was recorded on 03-28-16 at approximately 0915 hrs. The video was purportedly recorded by a male subject, identified as [REDACTED], who is the owner of a company called "Above Reno." Riley showed me several copies of [REDACTED]'s website which depict his image and his white colored drone. Riley stated that he checked his surveillance footage from 03-28-16 and located a white colored Chevrolet van, bearing license [REDACTED], parking on the edge of Tesla property on Electric Avenue and flew a drone over Tesla property. Riley stated that [REDACTED] was flying the drone for approximately 15 minutes wherein the drone landed and [REDACTED] drove away. Riley stated that he contacted [REDACTED] from the contact information on the Above Reno website. Riley stated he spoke to [REDACTED] about his drone flying at the Tesla factory on 03-28-16. Riley stated [REDACTED] admitted to flying the drone and capturing video images of the Tesla factory. Riley stated he asked [REDACTED] to remove the video from the website wherein [REDACTED] claimed he received a payment for his video and declined to remove the video. Riley stated that [REDACTED] claimed to have a commercial license to fly drones and claimed he can fly a drone over private property so as long as the drone took off and landed from public property. Riley stated he had extensive communications with the FAA and discovered from Federal Aviation Administration representative Dave Butler, that a drone can not fly over private property without the property owners permission. Riley stated Tesla wanted [REDACTED] to be charged with trespassing.

At approximately 1800 hrs, I met and interviewed [REDACTED] at [REDACTED], [REDACTED]. I asked [REDACTED] about his drone flying at the Tesla factory in Storey County, Nevada. [REDACTED] stated he was informed by Riley that he was in violation of FAA regulations when he flew his drone over the Tesla factory on 03-28-16. [REDACTED] stated he was sorry for what he did and will plan to gain permission in the future.

I completed my investigation and determined that [REDACTED] violated NRS 207.200 (Trespassing) when he flew an unmanned drone over Tesla property on 03-28-16 at 0915 hrs, without expressed permission from Tesla management and video recorded the property for the purpose of a commercial sale.

No further information.

16-55

On January 19, 2016 at approximately 2010 hours, I was on routine patrol in the Tahoe Reno Industrial Park area of Storey County, Nevada. I was dispatched to a report of a single vehicle accident involving an animal.

I arrived on scene and observed a 2007 Mercedes 4 door Wagon bearing Nevada license # [REDACTED] facing west bound on Electric Avenue near the main entrance to Tesla located at the end of Electric Avenue and Milan.

The vehicle had severe damage located at the front of the vehicle. Paramedics were on scene and cleared the driver of any injuries. Utilizing his Nevada Class C Drivers license, I identified the driver to be [REDACTED]. [REDACTED] stated that as he was traveling in the number two travel lane on Electric Avenue, a horse had run from the left side of the roadway crossing the number one travel lane. [REDACTED] applied his brakes which lead to wheel lock. [REDACTED]'s vehicle struck the horse head on causing severe damage to his vehicle. The weather conditions were clear and dry but extremely dark due to the lack of street lighting in the area.

[REDACTED]'s vehicle came to rest 119' from where the initial impact had occurred and was in the number two travel lane. There was a set of two skid marks, left wheel skid lock and right wheel skid lock, leading straight from the sight of initial impact to the location where the vehicle came to rest. Both skid marks measured 119' in length.

[REDACTED] was able to provide proof of current insurance ([REDACTED])
[REDACTED] also filled out a voluntary statement form.

The horse that was struck was located on scene in the number one travel lane directly to the left of the vehicle. The horse was deceased upon arrival.

I took photographs of the scene and collected the statement from [REDACTED]. [REDACTED] had contacted a tow company through his insurance.

At approximately 2140, City Auto Towing had arrived on scene and all forms were completed by [REDACTED]. The case number was given to [REDACTED] as well as the tow operator.

Nothing further.

NARRATIVE

Page 1

16-571

Narrative:

On 07-29-2016 at approximately 1615 hrs, I responded to the private driveway on the Tesla property, located at #1 Electric Avenue in Storey County, Nevada, to investigate the report of a traffic collision involving a single motor vehicle. While en route, I was informed by Storey County Central Communications that the accident was on private property of Tesla in Storey County, 1/2 mile east of the Tesla West Gate, located off of East Sydney Drive.

Upon arrival, I noted that members of Storey County Fire Department were already on-scene with an overturned vehicle. I was advised the driver had already been transported to Renown Hospital in Reno, Nevada, and the passenger was being driven back to the accident location by Tesla Security personnel. I observed a vehicle, bearing Nevada license [REDACTED], parked upside down on the north shoulder of the roadway facing in a northerly direction. I noted multiple tire marks on the hard-packed gravel surface which indicated the vehicle had slid on the gravel surface causing locked wheel marks on the roadway and deep gouges on the soft shoulder of the roadway.

Tesla Security transported the passenger back to the scene, who was identified as [REDACTED]. I spoke to [REDACTED] who stated that he was a passenger in a vehicle traveling eastbound on the Tesla private driveway in the 2002 Honda. [REDACTED] stated the vehicle he was riding in was being driven by [REDACTED], began sliding and left the roadway. [REDACTED] stated the vehicle rotated counter-clockwise 90 degrees, struck the dirt embankment and overturned, before coming to rest against an earthen berm. [REDACTED]. I asked [REDACTED] for identification to which he produced an Arizona drivers license. [REDACTED] he did not complain of any injuries and claimed he was wearing a seat belt.

I was informed by Storey County Central Dispatch that Storey County Fire Department transported [REDACTED] to Renown Hospital in Reno, Nevada.

I examined the vehicle and noted that the vehicle was upside down with severe body damage. I noted that all the tires appeared to be evenly inflated, with average tread wear, and no outward signs of defect.

I examined the roadway and observed that the hard-packed gravel surface was dry. I noted the surface gravel of the driveway was comprised of loose material. I noted that the outside temperature was 90 degrees and the weather was clear, light wind, with unlimited visibility. I located the area where the vehicle began loosing traction and sliding sideways on the roadway onto the dirt embankment. I noted that there were gouge marks in the soft soil of the embankment where the vehicle collided with the embankment. I noted that the vehicle slid out of control 87 feet before colliding with the earthen embankment. I noted there was clear markings on the roadway where the tire made yaw type markings on the dry gravel surface. It appeared as though the vehicle was traveling at a high rate of speed greater than the posted speed limit of 25 mph when the vehicle began sliding and rotating counter-clockwise. It appeared that the vehicle simply left the roadway because of excessive speed on a roadway comprised of loose material.

Several photographs were taken of the vehicle and the wheel marks on the gravel surface. The vehicle was inventoried and towed by Milne Tow Service.

16-571

NARRATIVE

I took measurements of the accident scene and determined that the collision occurred 1.5 mile east of the Tesla West gate on Telsa private property that does not allow for public access. I determined that the roadway was 28 feet wide with a slight downward grade from east to west. Based on the tire markings on the roadway, as well as the impending tire marks on the roadway, I estimated the vehicles speed to be between 40 and 45 mph on dry gravel road with an estimated 2% downhill grade.

I concluded my investigation and determined that [REDACTED] was traveling at a high rate of speed when he allowed his vehicle fail to maintain the travel lane, leaving the roadway causing the vehicle to loose control, strike an earthen berm and overturn. I concluded that [REDACTED] caused the motor vehicle accident when he failed to maintain a travel lane and caused his vehicle to exhibit excessive speed.

No further information.

Voluntary Statement of [REDACTED]
Voluntary Statement of [REDACTED]
Voluntary Statement of [REDACTED]
Voluntary Statement of [REDACTED]
Affidavit of investigating officer

Narrative:

On January 25, 2016 at approximately 1051 hrs, I responded to the Main Security Office for the Tesla Factory property, located at 1 Electric Avenue, McCarran, Nevada (Tahoe/Reno Industrial Center) in Storey County, to investigate the report of a battery that occurred on property between two (2) employees of a contractor. While en route I was advised by dispatch that Tesla security, had both subjects separated and there was not weapons involved in the altercation.

Upon arrival, I met with Tesla Security Manager identified as Randy Riley who informed that both of the subjects had been separated and being watch by Tesla security officers.

Riley escorted me to the office where one of the subjects was awaiting my arrival. I met the first subject later identified as thirty (30) year old, [REDACTED] who stated -unsolicited, that he was a lieutenant at the prison and he was defending himself. I asked [REDACTED] if he was ok and asked him if he had any injuries that needed medical attention, as I could not see any visible injuries. Renger stated "no" I am not hurt I was afraid for my life. I told [REDACTED] to write a voluntary statement and that I would be interviewing him in few minutes.

I then interview the second subject later identified as sixty-seven (67) year old [REDACTED] who appeared to be okay and no visible injuries. I asked [REDACTED] if he had any injuries and he stated that [REDACTED] had assaulted him because a disagreement over an argument that stemmed over a water spicket incident. [REDACTED] stated that he can communicate in Spanish better than English. I told [REDACTED] that was ok and asked him to stop talking, as all I need it at the moment was to know if he needed medical attention. [REDACTED] stated all I have is a small bruise on my chest from where I was pushed. [REDACTED] opened his shirt and I noted a red mark consistent with the size of a hand with small red mark about the size of quarter on the right of the larger red mark, located on [REDACTED] left shoulder. [REDACTED] stated someone had already offered him medical attention and he did not wanted any medical attention. I provided [REDACTED] with a voluntary statement and asked him to write down what happen earlier. [REDACTED] stated he could not write in English and asked if he could do it in Spanish. I told him that it was ok and that I would translate his statement.

I then spoke with Riley Security Manager for Tesla and asked if there were any witnesses to the incident. Riley stated, video is available from the area where the incident occurred. While both subjects were writing their statements and being watch by Tesla security officers. I was escorted to the security office and obtained the video. While waiting for the video to download, I spoke with the manager for Square 1 solutions who is the employer of the subjects involved in the battery. The

manager identified as [REDACTED] indicated the on site manager ([REDACTED]) had knowledge of other incidents that involved [REDACTED] and another Square 1 employees. I asked [REDACTED] if the other employees where available to speak with me. [REDACTED] stated there were already on the way to our location.

I interview and employee identified as [REDACTED] who stated that at approximately 0915 hours, on today's date (1-25-2016) she was showing a construction worker where to get water for the mop bucket and when she arrived at the water station his co-worker ([REDACTED]) was nearby. [REDACTED] emptied her water bucket and [REDACTED] said to her, you are not supposed to do that. [REDACTED] told [REDACTED] that her supervisor said it was ok, then [REDACTED] said you don't make sense. [REDACTED] told [REDACTED] I'm not going to argue with you and you need to see [REDACTED] my supervisor. [REDACTED] left the area without completing her task because [REDACTED] was very confrontational.

I then interview [REDACTED] who also is employed by Square 1 solutions. [REDACTED] indicated he had an argument with [REDACTED] in the male's restroom on January 24, 2016 about dumping the mop bucket water in the toilet. [REDACTED] gave him a smart reaction and [REDACTED] walked to his car in an effort to get away from [REDACTED] and to avoid an argument. [REDACTED] followed [REDACTED] to his car being aggressive and on his personal space, telling [REDACTED] to never walk away from him taking shit about him. [REDACTED] told [REDACTED] he would never do that and asked to be left along. [REDACTED] got closer and repeated the same statement don't ever walk away from me talking shit.

I collected the voluntary statements from [REDACTED] and [REDACTED]. I returned to the security desk and collected the video footage from the Security Manager (Riley). I attempted to view the footage but I was unable to watch the whole incident on site, due to timing issues. I just verified it was the correct footage and returned to the area where both [REDACTED] and [REDACTED] awaited.

I interview [REDACTED] who stated he was on floor duty detailing the floor with a buffer machine at approximately 0950 hours, when he was cornered by [REDACTED] his co-worker. [REDACTED] stated that [REDACTED] pushed him while he was standing at the entrance to the water station, where the water spicket is located, causing him to defend himself against [REDACTED] who circled him and eventually exited the caged area. [REDACTED] then reported the incident to his supervisor and wanted to file charges of battery against [REDACTED], stating the incident was captured on video. I collected [REDACTED]'s statement and release him from the area ordering him to not make contact with [REDACTED] for safety concerns. [REDACTED] thanked me and left the area where Tesla security escorted him off the property and he was trespassed from the property per Tesla's policy.

I then interviewed [REDACTED] and re-confirmed he didn't require medical attention. [REDACTED] again stated no, I am okay. I asked [REDACTED] if he was okay to conduct the interview in English and he stated yes, I just can't write in English. [REDACTED] stated that just before 1000 hours he was at the water station rinsing out his mop and had the water spicket open at very slow flow. [REDACTED] went around him enter the cage where the water spicket was located and opened the water spicket to a full flow

16-69

causing [REDACTED] to kink the water hose in order to prevent water spillage on the floor. [REDACTED] called out to [REDACTED] to stop what he was doing and [REDACTED] just ignored him standing at the entrance to the water station, blocking the doorway. [REDACTED] attempted to go around [REDACTED] and put his left hand on [REDACTED] left shoulder signaling he wanted to walk around him to close the spicket. [REDACTED] attempted to push him preventing him to close the water spicket. [REDACTED] stated that he had knowledge that [REDACTED] had problems with other co-workers and learned that just this morning Renger had a verbal altercation with another employee. [REDACTED] assumed that was the reason [REDACTED] was mad. [REDACTED] indicated he has never attempted to be friends with [REDACTED] as he knew [REDACTED] was a problematic person. I collected [REDACTED]'s statement (in Spanish) and release him from the area ordering him to not make contact with [REDACTED] for safety concerns. [REDACTED] left the area and Tesla security officers escorted him off the property and he was trespassed from the property per Tesla's policy.

I returned to the substation and watch the video, although the video was in poor condition because of my computer video player. I was able to observe the following: [REDACTED] instigated the incident by going around [REDACTED] and opening the water spicket, causing [REDACTED] to act quickly. I noted that [REDACTED] was at the water station using the water spicket and had been there for short while. I noted that [REDACTED] had equipment and tools that appear to be using, prior to [REDACTED] arrival. I then noted [REDACTED] came in to the area through a door to the left of [REDACTED] empty handed. I further noted Renger went directly into the water station and proceeded to the water spicket, within seconds I noted [REDACTED] doing something with his mop bucket, then quickly walked back into the water station and immediately I noted [REDACTED] pushing [REDACTED] back so hard that [REDACTED] had to react quickly to avoid falling.

I determined from the video that [REDACTED] omitted details of what actually happen. I further determined that [REDACTED] statements where consistence with the video footage and matched the bruises on his body, indicating that [REDACTED] purposely walked into the water station and opened the spicket provoking the incident.

I concluded my investigation and determined that since [REDACTED] purposely instigated the fight and without regard to an elderly's person safety assaulted [REDACTED] without provocation. Based off the statements, physical evidence and Video surveillance footage I request the district attorney issue a criminal complaint against [REDACTED] for Provoking Assault per NRS 200.490 and Simple Battery with an Elderly Abuse Enhancement per NRS 200.481

No further information.

Renger's Emergency Room medical report
Renger's Nevada Driver license application

On February 1, 2016 at the beginning of my work week I received an emergency medical report that [REDACTED] had dropped off at the Lockwood Substation on January 29, 2016. I examined the document and noted that [REDACTED] had included a copy of his Nevada Driver's License application along with a copy of his Texas driver's license. The emergency report consist of eight (8) pages detailing his visit to the Emergency Room on January 28, 2016.

At approximately 1140 hours on February 1st I received a call from [REDACTED] who stated he wanted to add more information and provide additional statement for his case. I told [REDACTED] that I had already completed my investigation and his case will be reviewed by Storey County District attorney, however I'll be happy to take and forward any reports or information to the District Attorney.

[REDACTED] went on telling me that he carried a badge at one point on his life and wanted to make additional statements. I told [REDACTED] that I was not going to listen to his argument over the phone and told him I had already received the medical report he dropped by the Sheriff's office, and will be forwarding the same to the District Attorney.

I did reminded [REDACTED] that on the day of the altercation with his co-worker January 25, 2016 I, asked him and re-confirmed if he had injuries he stated then "no" and refused medical attention. Why go to the Medical Emergency Room Three (3) days later? [REDACTED] didn't answer my question, instead he told me that he was a cop at one time and had respect for the badge. I told [REDACTED] the conversation was not going the way I expected and told [REDACTED] I was not going to listen to his explanation after the fact. I told [REDACTED] his case was going to be reviewed by the Storey County District Attorney.

Nothing further.

Synopsis:

On September 30, 2016 approximately 1659 hours, I responded to an unresponsive subject who was not breathing at 1 Electric Ave in McCarran, NV.

Upon arriving and exiting my patrol vehicle, I was directed to the subject's vehicle that was later identified by his Nevada Driver License as [REDACTED]. As I approached [REDACTED]'s vehicle and opened the vehicle door I noted that [REDACTED] was not breathing and unresponsive. I also observed [REDACTED] had lividity in his face and right side of his body. I checked for signs of life and was unable to find a pulse. At 1705 hours, [REDACTED] was pronounced dead. [REDACTED] was found in the fetal position on the floor board of the passenger side of the vehicle. [REDACTED]'s body was positioned on his right side facing the passenger door with his head resting on the passenger seat.

Nothing Further.

Attachments: Coroner report and medical examiner request, statements, tow sheet

On September 30th, 2016 at approximately 1645 hours, I was dispatched to 1 Electric Ave, Mccarran an area of Storey County Nevada for an unresponsive subject. As I was arriving to the above location dispatch advised me that my subject may be deceased.

Upon arrival to the above location I was directed by Tesla security to the construction employee parking lot. I met with a male subject later identified as [REDACTED] 8/30/1969 who directed me to a blue Hyundai sedan bearing Nevada License plate [REDACTED].

As I walked to the front passenger side of the vehicle, I observed the vehicle door was slightly open. I opened the front passenger door all the way and observed a male subject later identified by his Nevada Driver license as [REDACTED] lying in the fetal position with his body facing the passenger door. [REDACTED]'s head was resting on his right arm facing the passenger side. I noted immediately that [REDACTED] had signs of lividity on the right side of his face and a red and clear fluid coming from his nose. I checked for signs of life but was unable to detect a pulse or any signs of breathing. I noted that [REDACTED] was wearing blue jeans with brown work boots. [REDACTED] was wearing a short sleeve shirt.

Storey County Fire Department arrived on scene and also checked for signs of life in [REDACTED]. After Ems checked for signs of life and observed lividity in [REDACTED]'s face, they cleared the area. At 1705 hours I pronounced [REDACTED] deceased.

I met with several subjects that were involved and asked them to fill out voluntary statements. I met with a male subject identified as [REDACTED] who stated he had found [REDACTED]. Hanks stated he was parked next to [REDACTED]'s vehicle when he noticed [REDACTED] appeared to be sleeping in an odd position on the passenger side of his vehicle. After about ten minutes [REDACTED] got out of his vehicle and started knocking on the passenger side window to get [REDACTED]'s attention. After that did not work he started waving for help and got the attention of [REDACTED] who came over to see what was happening.

I spoke with [REDACTED] who stated when [REDACTED] got his attention he came over to the vehicle and noticed [REDACTED] in the vehicle. [REDACTED] opened the door and tried to wake up [REDACTED] but was unable to. [REDACTED] then checked for a pulse on [REDACTED]'s neck and wrist but was unable to detect a pulse. [REDACTED] stated he notified is boss [REDACTED] who was also near the vehicle.

[REDACTED] stated he noticed [REDACTED] trying to get his attention, so he and [REDACTED] ran over to [REDACTED]'s vehicle. [REDACTED] stated [REDACTED] said [REDACTED] would not wake up. [REDACTED] opened the front driver side door and watched [REDACTED] check for a pulse. [REDACTED] stated [REDACTED] staid [REDACTED] was cold to the touch. [REDACTED] contacted via radio Tesla security to notify 911 and have security respond to his location.

I spoke with a male Tesla security/ EMT identified as [REDACTED] who stated he was notified to respond to the location of the incident. Upon arrival [REDACTED] stated he noticed [REDACTED] was slumped in the passenger side of his vehicle. [REDACTED] also stated he noticed lividity and a red fluid

coming from [REDACTED]'s nose. [REDACTED] checked for signs of life but did not find any and noticed [REDACTED] was cold to the touch.

I spoke with another male subject later identified as [REDACTED] who identified himself as the safety manager for Derr construction. I asked [REDACTED] when the last time anyone had seen [REDACTED] at work. [REDACTED] stated on [REDACTED] [REDACTED] was feeling sick. [REDACTED] spoke with [REDACTED] and [REDACTED] stated he was feeling better. [REDACTED] stated he brought [REDACTED] inside for approximately 30 minutes and had [REDACTED] drink a bottle of water. While [REDACTED] was talking to [REDACTED], [REDACTED] stated he had a "Boost" energy drink but within five minutes [REDACTED] had vomited the drink up. [REDACTED] stated [REDACTED] wanted to go home and rest it off. [REDACTED] stated [REDACTED] appeared to be alert and seemed alright beside his stomach illness. [REDACTED] stated he walked [REDACTED] to the parking lot and [REDACTED] stated he was going to wait for his carpool partner before going home. A short time later at approximately [REDACTED] at 1640 hours, [REDACTED] stated he was notified by [REDACTED] that [REDACTED] was on the ground in the parking lot and that he helped him inside his car. [REDACTED] stated he went to the parking lot but did not find [REDACTED] there. [REDACTED] stated he would get [REDACTED] and another male subject to meet me in the morning to get their statement.

At 1757 hours Deputy Azevedo arrived on scene to help collect written statements and secure the area. A short time later Sgt. Bowers also arrived on scene. Sgt. Bowers started taking photos of [REDACTED] and his vehicle. At this time Dispatch advised Walton's Funeral and cremations was in route to our location.

While waiting on the Funeral home to arrive, I checked the trunk of [REDACTED]'s vehicle and found his lunch box. Inside his lunch box was a small mason jar of what appeared to be bagged marijuana. I also noted there were several small containers of marijuana and one small purple plastic bag that appeared to be synthetic marijuana. Inside his lunch box was a black cellphone. As I grabbed the cell phone it began to ring. Sgt Bowers answered the phone and spoke with a subject. After the phone call, Sgt Bowers stated it was a possible relative on the phone and they were at Renown hospital and he was going to meet them there.

At approximately 1957 hours Walton's and Sgt. Bowers arrived on scene. Deputy Azevedo and I moved [REDACTED]'s body to the gurney from Walton's and began inspecting [REDACTED]. Upon inspecting [REDACTED], he only had lividity on the right side of his body. [REDACTED] also had skin slippage on his right side and right lower leg. I took [REDACTED]'s right boot off and placed a toe tag on his big toe. I also placed a bag tag on the body bag. Tag number 0058015. At this time Walton's took possession of [REDACTED]'s body. Dispatched advised that D&S Towing was enroute to our location. While waiting for D&S Towing Deputy Azevedo asked Tesla security if they had a record of when [REDACTED] was on the property. A short time later Tesla security stated that the last time [REDACTED] had entered the property it was on [REDACTED] at 0621 hours via his badge.

At 2212 hours D&S Towing arrived on scene and took possession of the vehicle.

On October 1, 2016 at approximately 1130 hours I meet with [REDACTED] who introduced me to [REDACTED] and another male subject identified as [REDACTED]. [REDACTED] stated he had seen [REDACTED] lying outside his vehicle on 9/27/2016 at approximately 1630 hours. [REDACTED] stated he asked [REDACTED] if he needed help or if he wanted a drink of water. [REDACTED] stated he was fine. [REDACTED] and [REDACTED] helped [REDACTED] to the passenger side of his vehicle. [REDACTED] stated [REDACTED] appeared to be acting odd. [REDACTED] stated he watched [REDACTED] go from the

Page 1

16-784

On September 30, 2016, at approximately 17:00 hours, I was dispatched to assist deputies at the Tesla factory in the TRI area after the discovery of a dead body in a vehicle. I began responding from the business office in Virginia City.

While en route I learned that the body had been preliminarily identified using his driver's license as 51 year old [REDACTED]. [REDACTED] had an address listed in Mesquite, Nevada. I requested that dispatch contact the Mesquite Police and request an officer go to the listed address. I further requested that the officer confirm the decedent's address, notify next of kin and collect medical history on [REDACTED].

Upon my arrival at the scene I observed numerous persons in the dirt parking lot portion of the Tesla site. The dirt parking area is a large enclosed area to the immediate east of numerous portable conex-type offices. Kleig lighting is used to illuminate the parking area. Deputies Azevedo and Carter were already on scene. I was advised that Storey County Fire had been to the scene already and had left. I was further advised that it had been one of the FD personnel who had retrieved the wallet from [REDACTED]'s body.

I observed [REDACTED]'s vehicle, parked closer to the front of the parking lot, within sight of the offices. The vehicle, a silver Hyundai sedan bearing Nevada [REDACTED], was parked facing northwest. I observed that the passenger door was open and the other doors were closed. I then spoke to deputies Azevedo and Carter to determine what had been learned to that point.

I was advised that [REDACTED] was last seen on Tuesday afternoon at the job site. I was advised that [REDACTED] was an iron worker and was part of a sub contracted team working on the factory. I was told that [REDACTED]'s supervisor, who was no longer on scene, had stated [REDACTED] had come to him on the afternoon of Tuesday, September 27, complaining that he was feeling ill with stomach upset. That supervisor had reported that [REDACTED] had drank an energy drink of some type and had immediately thrown up. The supervisor released [REDACTED] from work, and [REDACTED] reportedly returned to his vehicle to wait for another subject to get off of work, the reason being that both had ridden together that day in [REDACTED]'s vehicle. There was also an unconfirmed report that another coworker had observed [REDACTED] collapsed beside his vehicle at some point on Tuesday afternoon, and that this individual had helped [REDACTED] into the passenger seat of his vehicle. Confirmation of this information is pending. See Deputy Carter's narrative for further detail.

I then observed the vehicle and [REDACTED]. [REDACTED] was laying on the passenger seat floorboard and passenger seat. He was facing towards the door, with his right leg and hip on the floorboard and his head and right side on the lower seat portion (see photos). Closer observation of [REDACTED] revealed post mortem fluid leak from his nostrils, advanced lividity on exposed skin, including his entire head and a distinct odor of decomposition. His eyes were partially opened. [REDACTED]'s head lay on his bent right arm. The keys were in the ignition of the vehicle, but the vehicle had not been running. I was advised that when discovered, the passenger door had been ajar but not open. On attempt to close the door completely, [REDACTED]'s knees prevented closing the door without significant effort.

While assisting Deputies Azevedo and Carter with an inventory of the vehicle, [REDACTED]'s cell phone rang. I answered the phone and spoke with a person claiming to be [REDACTED]'s girlfriend. After much prodding, the female subject identified herself as [REDACTED]. She stated that she was at "a hospital in Reno...

looking for [REDACTED]" I left the scene and drove to Renown Main to attempt to speak with [REDACTED] I was unable to locate her and returned to the scene. While processing the scene I received a call from Reno Police Department. I was advised that they had been flagged down by a female subject wanting a ride to Tesla because "her boyfriend had just died." RPD was able to identify [REDACTED] as a listed missing and endangered person from Las Vegas. She is reportedly homeless and mentally ill. From what could be determined, [REDACTED] had been staying with [REDACTED] for approximately 2 weeks prior to his death. I passed this information on to Deputy Carter.

[REDACTED] was removed from the vehicle and photographed. While doing so, further evidence of decomposition was observed, including some areas of skin slippage. No indication of trauma was observed on the body. [REDACTED] was subject to an autopsy. See Deputy Carter's report for more detail. Photos taken by this officer have been added to this report. Nothing further at this time.

Follow up:

While on scene of this incident on 09/30/2016, I spoke with Tesla security. I asked security why had they not noticed [REDACTED]'s vehicle in the parking lot before. Security stated that it is not uncommon for working to leave their vehicles in the parking lot for extended periods. Security also stated that sometimes workers do sleep in their vehicles.

On 10/01/2016 I spoke with [REDACTED] who identified herself as [REDACTED]'s girlfriend. I asked [REDACTED] if [REDACTED] had anyone he would carpool with. [REDACTED] stated he did not as they were new to the area and did not know anyone. As I was speaking with [REDACTED] I noted she was talking to herself and would say things such as "[REDACTED] was undercover". [REDACTED] showed me what property of [REDACTED]'s she had. I noted that [REDACTED] only had random work clothes but appeared to have no other possessions of [REDACTED]'s. [REDACTED] stated they were living in a hotel in the area of The Nugget hotel in Sparks, Nevada but could not identify what hotel it was. I tried asking [REDACTED] further questions but was unable to understand what [REDACTED] was trying to say most of the time.

On October 20th at approximately 1600hrs I spoke with [REDACTED] who identified herself as [REDACTED]'s sister. I obtained [REDACTED]'s information as she is requesting [REDACTED]'s possessions.

NARRATIVE

Page 1

16-907

On November 07, 2016 at approximately 0013 hours, I was dispatched to the area of Electric Ave west of the north entrance to Tesla in Storey County, Nevada for a report of a past tense traffic accident involving a commercial vehicle verses horse. While en-route, I was advised the driver had left the scene and continued to Tesla to deliver a load of concrete.

Upon arrival, I observed a brown male colt laying unresponsive on the south side of Electric Ave approximately a mile east of State Route 439. There was a large pool of blood underneath the colt's head. I pulled the horse off the road way. Tesla security arrived on the scene and indicated the driver would be returning to the scene after they deliver their load of concrete. There was no debris on the roadway and or skid marks. The area was extremely dark with low traffic.

The driver identified by her NV driver's license as [REDACTED] arrived on the scene. [REDACTED] stated she had no injuries. [REDACTED] stated she was traveling eastbound on Electric Ave at approximately 30 mph when a dark colored horse ran out in front of her. [REDACTED] stated she was confident the horse did not survive the impact. [REDACTED] stated she did not know what to do so she continued to her destination and informed Tesla security what had happened. [REDACTED] stated she thought she hit the horse around 2400 hours.

[REDACTED] indicated she hit the horse with her passenger front headlight. I observed the headlight to have no lens cover however it was still intact and operable as the light was illuminated. I observed no other damage. The involved commercial vehicle was a 2015 Kenworth cement truck bearing NV license plate [REDACTED]

Because the accident was past tense at an unknown time and due to minor damage only involving a headlight lens cover, it was investigated as a traffic incident. [REDACTED] was given an SR-1 form should they choose to pursue that route.

Dispatch was given the exact location of the horse and advised to contact the Department of Agriculture for their assistance in removal of the animal from the Industrial Park.

Nothing Further.

16-995

On December 9, 2016, at approximately 1620 hours, I was dispatched to Tesla, 1 Electric Avenue, McCarran, Storey County, for a report of a hit and run accident. Dispatch advised the RP's vehicle had been hit and said the other vehicle, a maroon pickup, had left the area in an unknown direction.

Upon my arrival I made contact with a female subject, later identified as [REDACTED] (DOB [REDACTED]) standing next to a black Ford F150 truck, bearing Arizona license plate [REDACTED]. [REDACTED] advised she was backing up when she was struck by another vehicle that was also backing up. I could see scratch marks on the driver's side of the rear bumper. [REDACTED] advised the damage came from the accident and said she wanted a report taken. I collected her information and the registration and insurance for her vehicle.

I was informed by Tesla Security that they had contacted the driver of the other vehicle and said he was on his way back to the scene.

A maroon Chevrolet truck parked near us and a male subject, later identified by his Nevada driver's license, [REDACTED], made contact with me. He advised he was involved in the accident and said there was no damage to his vehicle. I noted his vehicle had a Nevada license plate, [REDACTED]. I collected [REDACTED]'s driver's license and proof of insurance and registration for his vehicle.

I made contact with [REDACTED] and told her the driver of the other vehicle had come back. [REDACTED] told me that she no longer wanted a report taken. I had [REDACTED] and [REDACTED] swap insurance information and concluded my contact with them.

Nothing further.

NARRATIVE

Page 1

16-997

On December 9, 2016, at approximately 1908 hours, I was dispatched to 1 Electric Avenue, McCarran, Storey County, for a report of a motor vehicle accident involving a horse. Dispatch advised the incident occurred just to the west of the check in station for Tesla.

Upon my arrival I could see a white passenger car parked on the shoulder on the north side of Electric Avenue facing west. I could see the vehicle had moderate front end damage. I could also see a brown and black horse lying in the roadway behind the vehicle.

I made contact with a female subject, identified as [REDACTED] by her California Driver's license. She advised she was leaving Tesla property and said she was traveling in the number two lane. She said she hit a horse while driving down the road. I collected her personal information along with her vehicle registration and proof of insurance. I took photos of the damage to her vehicle along with photos of the deceased horse. Those photos have been attached to this case.

I could see that the horse was deceased and asked dispatch to contact NDOT to remove the horse from the roadway. Dispatch later advised they had contacted the Nevada Department of Agriculture and said they had someone in route to remove the horse.

I made contact with [REDACTED] and asked if her vehicle was drive able. She advised that she thought it was and said she did not want a tow truck to respond to the scene. I advised [REDACTED] that if she experienced any problems after leaving to pull over and contact our dispatch for assistance. [REDACTED] left the scene without incident.

At 1956 hours a representative with the Nevada Department of Agriculture arrived on scene. He was able to remove the horse from the roadway without incident.

Nothing further.

16-1054

On December 30 2016 at approximately 0909 hours I was dispatched to #1 Electric Ave (Tesla) in the area of the Tahoe Regional Industrial Park in Storey County Nevada, in regards to a theft of motor vehicle license plates.

Upon my arrival I met with reporting party, [REDACTED]. [REDACTED] relayed the following information:

On the early morning of December 29 2016, [REDACTED] left the motel in which he had stayed the previous night for work at the Tesla plant listed above. [REDACTED] was a resident of Las Vegas, employed by a contractor for Tesla.

The motel was The Aloha Inn located at 255 North McCarran Blvd, Sparks Nevada. Note: the listed motel is located in a known "high crime" area.

Upon [REDACTED]'s arrival at the Tesla plant, he parked and secured his vehicle, a white 2014 GMC pick up in the north west portion of the facility parking lot. [REDACTED] returned to his vehicle at approximately 1200 hours. At this time [REDACTED] noticed the rear license plate was missing from his vehicle. [REDACTED] stated he had also noticed what appeared to be a fastening bolt from his license plate was resting on the rear bumper of his vehicle. [REDACTED] was unsure as to where the theft had occurred but suspected it may have occurred in the Tesla parking lot. [REDACTED] was unable to name any possible suspects.

No suspects could be located. **Photos attached.**

Case suspended due to lack of leads. No further.

On January 13, 2017 at 1653 hours, Storey County Sheriff's Deputies were dispatched to the TESLA giga-factory, located at 1 Electric Avenue Storey County Nevada, to assist the Federal Bureau of Investigations (FBI) fugitive task force in apprehending and transporting a suspect.

At 1747 hours, I arrived at the location and was met by task force agents Taylor, Laskin, and Stetler. Upon speaking with Stetler he indicated that the subject identified by his Nevada driver's license as Ricardo Salas has an active arrest warrant issued by Henderson Township Justice Court (Clark County Nevada) for several offenses, Warrant # WA17FM0054X.

Stetler indicated that the task force units do not have transport cages and requested that one of our assist in transporting Salas to the Storey County Detention Center.

At 1804 hours, I took custody of Salas, searched him and placed him in the passenger rear seat of my patrol unit. I transported him to the Storey County Detention Center where he was booked without incident.

At 2010 hours, Salas was also given verbal service of temporary protection order # T17177044T, issued by Eighth Judicial District Court.

On January 13, 2017 at 1650 hours subject Salas, was transported into Storey County Detention by Deputy Mike Simons and Sgt. Kern on FBI warrant #17CRH-000043-0000 case number 17FH0054x.

Salas was brought into the sally port, I secured the sally port. Salas was then escorted into the facility by me and the transporting officers. I conducted a pat down search no weapons were found. Salas was photographed I then removed the hand cuffs and returned them to the transporting officer.

I asked Salas to remove his shirt so I can document and photograph any tattoos and or scars. After a visual inspection I gave Salas county clothing and booked him into custody on warrant #17CRH-000043-0000 case number 17FH0054x and FBI hold.

FBI agent Kent Laskin entered into the facility to complete a PC see attachments.

Inmate Salas was booked in with no incidents. Nothing further

NARRATIVE

Page 1

17-75

On January 13, 2017 I received an email from Matthew Downey who is known to me as the head of security operations at the TESLA gigafactory located at 1 Electric Avenue Storey County Nevada.

Downey indicated that on December 18, 2016 he received a report of a drone flight that occurred on TESLA property during the previous week. Downey indicated upon further investigation he found the Youtube page owned by "[REDACTED]". Downey indicated that he forwarded the information to the TESLA global security manager who then emailed [REDACTED] requesting he remove the drone video. Downey indicated they received no response and the video is still on line.

Downey indicated by cross referencing the drone footage with the TESLA on site surveillance cameras he was able to determine that the drone flight occurred on December 12, 2016 at approximately 1337 hours. Downey provided a written statement and several documents regarding the incident.

Upon reviewing the documents I was able to view the video by searching the internet for "[REDACTED]". The results returned a page with several posted videos including a video titled "Aerial tour of TESLA gigafactory."

Upon reviewing the video it was obvious that the drone aircraft was operating well below 250' which is a violation of **NRS 493.103 Unmanned aerial vehicles:** section 1 which states. Except as otherwise provided in subsection 2, a person who owns or lawfully occupies real property in this State may bring an action for trespass against the owner or operator of an unmanned aerial vehicle that is flown at a height of less than 250 feet over the property.

On January 27, 2017 at 1420 hours, I attempted to contact [REDACTED] via telephone which rang thru to [REDACTED]'s voicemail; I left a message requesting he contact me at his earliest convenience.

Based off of my investigation I have determined that if [REDACTED] was the operator of the drone evidence exists to support that he was trespassing.

Nothing Further at this time, under investigation.

SUPPLEMENT 1

Page 1

17-75

On January 30, 2017 at 1616 hours, I spoke with [REDACTED] via telephone. When asked, [REDACTED] indicated he had already spoken to TESLA global security manager and he would be taking the video down as soon as possible.

I explained to [REDACTED] the Nevada laws regarding unmanned aerial flight and what is required to fly or film a property. [REDACTED] apologized and indicated it would not happen again.

At this time I have determined to issue [REDACTED] a verbal warning for trespassing. If it is found that [REDACTED] fails to comply as requested I will reopen this Case and continue my investigation.

Nothing Further

Voluntary statements of:

Jaime Martinez

Carlos Brown

On February 24, 2017 at approximately 1150 hours I responded to Tesla site located at 1 Electric Avenue McCarran, Nevada in Storey County to investigate a report of a past tense assault that took place at the workplace of the reporting party.

Upon arrival I made contact with the reporting party identified by his Nevada Driver's license as [REDACTED] who indicated that he was assaulted at this place of employment, while waiting at the food line in the parking lot of the Tesla site. I asked if he needed medical attention [REDACTED] declined stating he saw the punch coming and managed to block it.

I asked [REDACTED] again if he had any injuries and [REDACTED] stated no indicating he might had been hit on his hardhat but was not completely sure. I asked [REDACTED] to tell me what had happen. [REDACTED] stated that he was standing in line for lunch at the Fat Burger truck and noticed his ex-roommate behind him and when he looked away his roommate later identified as [REDACTED] swang a punch missing him. I asked [REDACTED] if he had any witness of the incident and he indicated several people where at the food line but could not identified any of them.

[REDACTED] stated that he was roommates with [REDACTED] but he had to kick him out of his apartment because he suspected [REDACTED] was abusing his dog and he was afraid [REDACTED] would try to hurt him outside of work.

I located and made contact with [REDACTED] who admitted being behind [REDACTED] at the food line but denied punching [REDACTED]. [REDACTED] stated that [REDACTED] was upset because his dog was injured and blamed him for the dog's injuries and they are no longer roommates. [REDACTED] also indicated he was at the food line with several of his co-workers and provided two names.

With the assistance of Tesla security, I located and made contact two separate individuals who were behind [REDACTED] and they both independently confirmed [REDACTED]'s statements that there where no punches thrown and definitely no words exchanges between [REDACTED] and [REDACTED].

I determined that [REDACTED] allegation of assault were unfounded due to the fact he was not truthfull on his statement. The fact that two co-workers of both [REDACTED] and [REDACTED] whom do not know [REDACTED] nor [REDACTED] on the personal basis, confirmed seen both [REDACTED] and [REDACTED] at the food line and no words where exchanged and definitely affirmed by both witness, no punches where thrown.

I concluded my investigation and determined the charges of assault against [REDACTED] are unfounded.

I am requesting this case be used for documentation only as there was no crime.

Reno Police Department Courtesy report
Voluntary Statement of Clayton Bowman

On March 2, 2017 at approximately 0830, I responded to 1 Electric Avenue McCarran Nevada in Storey County in regards to a stolen vehicle. Deputy Azevedo advised me he received a courtesy report from Reno Police Department the night before and requested that I do a follow up during the day as the reporting party will be working day shift hours.

Upon arrival, with the assistance of Tesla Security I located and met with the reporting party identified as [REDACTED] who stated he parked his truck identified as a White GMC bearing New Mexico license plate [REDACTED] in the contractors parking lot, located inside Tesla's property. [REDACTED] further indicated that he went to lunch and had his lunch inside his truck around 1200 hours. [REDACTED] secured his truck before going back to work and discover his truck was missing at approximately 1700 hours and reported the incident to Tesla security.

[REDACTED] indicated he was current on his payments and reported the vehicle stolen with RPD because he wanted a paper trail for court purposes. [REDACTED] was already aware his truck had been repossessed before reporting the truck stolen.

After speaking with [REDACTED] and obtaining contact information for the financial institution. I learned that [REDACTED] had purchased the truck from his previous employer later identified as Hobbs Rental LLC out of Hobbs, New Mexico. I place a call to Hobbs Rental company and spoke with a representative [REDACTED] who indicated that he did recover the truck on March 1, 2017 at approximately 1530 hours and later on that evening he spoke with [REDACTED] about the repossession.

Forrest further indicated that [REDACTED] had not made any payments since January and that was the reason for the truck being repossessed.

I concluded my investigation and determined that [REDACTED]'s truck was repossessed for failure to make payments and [REDACTED] was aware of the fact his truck was not stolen before making the report with RPD.

I recommend this case be closed as unfounded and forward the findings to RPD.

No further information.

Narrative:

On March 3, 2017 at approximately 0520 hours, I was on routine patrol in the Tahoe Reno Industrial Park area of Storey County, Nevada. I was dispatched to 1 Electric Avenue for a report of a multi vehicle accident with a struck pedestrian.

I arrived on scene. The accident was located on the property belonging to Tesla in a dirt parking lot which is was heavily congested with vehicles. There were to vehicles facing opposite directions. A white mini van was facing south and a green pickup truck was facing north. Both vehicles were touching each other with minor front quarter panel damage to the trucks driver side and minor rear quarter panel damage to the mini vans driver side. The weather conditions were clear and dark. The roadway surface was dirt and gravel with no functioning traffic control devices within the area of impact. Both vehicles did not travel after being struck and there was no evidence of skid marks by either vehicle. Exact speeds of the vehicles was undetermined but based on my observations this was a slow speed impact. There was also a male subject on scene who stated that he had been hit by the white mini van.

I made contact with the mini van's driver, [REDACTED] (D1). [REDACTED] stated that the brakes to the vehicle had been going out and was turning left when he saw the green truck and tried applying his brakes. The van then hit a pedestrian that was walking across his path. [REDACTED] reported no injuries. [REDACTED] filled out a voluntary statement form. [REDACTED] could not provide current proof of insurance at the time of the incident.

I made contact with [REDACTED]. [REDACTED] stated that he was walking to work and was hit in his left leg by the mini van. [REDACTED] was resting against the driver seat of his vehicle with his feet on the ground. I did not observe any blood. Medics arrived on scene and stated that [REDACTED] refused to be transported to the hospital. [REDACTED] filled out a voluntary statement form.

I made contact with [REDACTED] (D2). [REDACTED] was the driver of the green pickup (NV license # [REDACTED]). [REDACTED] stated that he was driving (northbound) looking for a parking spot. The white mini van cut him off while making a left hand turn into his lane. The white mini van struck the front right quarter panel of his truck and then hit a pedestrian ([REDACTED]). Faria provided proof of insurance ([REDACTED]).

[REDACTED] left the scene under his own power and went to work.

[REDACTED] s vehicle was drivable and was driven off of the scene.

[REDACTED] was instructed to park the vehicle in the parking lot and get a tow truck. Tesla security escorted [REDACTED] to a safe place to park and would coordinate a tow after [REDACTED] s shift.

Based upon the above facts and observations on scene, I determined [REDACTED] to be at fault. Due to the accident occurring on private property in which the public does not have access, I did not issue a citation to any party.

Voluntary Statements of:
David Silvis and Martin Kelly

On March 10, 2017 at approximately 1240 hours, I was dispatched to Tesla Conco Project located on West Sydney, McCarren, Nevada in Storey County. To investigate an accident, property damage with no injuries.

Upon arrival I made contact with the reporting party identified as [REDACTED] by his Nevada Commercial Driver's license. [REDACTED] stated that while seating in his truck on a dirt parking lot, a silver truck pulled into the dirt lot and hit his truck. [REDACTED] indicated that he chased the other truck and both the driver and the truck came back to his truck.

I noted the road leading to the dirt lot was clear from any obstructions on both West and East of the dirt lot where the incident took place. I noted several employees of F&P construction were already on scene prior to my arrival, including F&P Safety manager identified as [REDACTED] and I determined there was no need for traffic control as the incident was confined to the dirt lot inside private property.

I was informed by Storey County Fire Department personnel that neither of the drivers claimed injuries and both declined to be treated. Storey County medics indicated there was no need for their services as it was a minor contact on one (1) of the trucks and no evidence of damage to the other truck. Fire Personnel cleared from the scene.

I examined the F&P, described as a white 2006 Peterbilt truck, bearing Nevada license plate [REDACTED]. I noted that the truck had no visible damage through the entire cab. The F&P truck had a minor rubber transfer on the right front fender and nothing on the front bumper the alleged contact with another truck.

I inspected Silvis truck (the other truck) bearing Indiana license plate number [REDACTED] and noted there was no evidence of any damage or contact with the other truck. Silvis stated he did not felt hitting and admitted driving near the white F&P truck as stated by the F&P Driver.

I photographed the alleged damage to the white F&P truck and spoke with F&P Safety inspector who stated they had no intentions going thought their insurance and definitely will not be seeking any damages on the incident.

Upon completing my investigation I found the cause of the incident was due to possible driver error a misjudgment in clearance between trucks inside private property.

Due to the minor damage and both drives statement I determine to close this Case as a traffic incident. Both drivers including F&P Safety Manager [REDACTED] agreed with my decision stating that he had already decided there was no need for their insurance to be contacted on both companies.

I recommend this case be closed as a traffic incident

NARRATIVE:

On March 30, 2017 at approximately 0600 hours I was dispatched to a report of a motor vehicle accident located on Electric Avenue approximately 1 mile north of the Tesla main gate entrance in the area of TRI McCarran, Storey County, Nevada.

Upon arrival I observed a silver sedan bearing Nevada license plate [REDACTED] in the number two travel lane facing north. The vehicle had hazard lights activated. I observed minor damage to the left front bumper, a missing driver side mirror and a cracked windshield. I made contact with the driver, identified as [REDACTED], in the back of a Storey County Fire Department ambulance. [REDACTED] and her fifteen month old child were being evaluated by paramedics. [REDACTED] was speaking with a paramedic. She stated she was driving north on Electric Avenue when her vehicle struck a dark color horse. She stated she had not seen the horse in time to avoid it. I asked Smith if she saw where the horse went. She stated no.

I photographed the vehicle and began to search for the wounded horse. I was unable to locate the horse. I asked [REDACTED] where she wanted her vehicle towed. She stated to her home located at [REDACTED]. I contacted dispatch and requested a tow truck. Dispatched advised Milne Towing was en-route. Paramedics advised that due to cold weather and rain/hail, [REDACTED] and her child were being transported via ambulance to Storey County Fire Department Station 75 to wait for her husband. I remained on scene as the vehicle was blocking the number two travel lane.

At approximately 0650 hours, Milne Towing arrived on scene and took possession of the vehicle. I re-opened the travel lane to traffic and cleared the scene. If a written statement is needed, I will obtain one at a later date.

No further information.

NARRATIVE:

On March 31, 2017 at 1630 hours, I was informed by Sergeant (SGT) Kern of a possible bomb threat located at 1 Electric Avenue, in the EE/D quadrant building site of the Tesla Giga-factory; located in the TRI McCarran area of Storey County, Nevada.

Upon receiving the information, Sgt Kern and I were able to meet at the front gate of the Tesla Giga-factory, while waiting for Tesla security. Tesla security was able to meet with us and take to the target area of the factory; where we would stage and meet with the Northern Nevada Consolidated Bomb Squad (NNCBS) in order to establish an incident command and operational procedures. When arriving at the staging point, we met with the Tesla Head of Security identified as Andrew Ceroni, and the following members of the NNCBS:

K9 handler: Brandon Randall, Airport Police Dept. K9 unit "America"

K9 Handler: Tom Emmons, University of Nevada, Reno Police Dept. K9 unit "Bonnie"

K9 Handler/EOD Tech: Jason Morgan, Reno Police Dept. K9 unit "Junior"

EOD/Bomb Tech: George Forbush, Sparks Police Dept.

Upon establishing a joint operational command, Ceroni initiated his briefing by advising us of the general area and the layout of the building in question.

The target area was known as the EE and D section of the construction portion of the Giga-factory. This section of the construction site was roughly a million square feet, and consisted of three levels. Ceroni indicated that one of the construction crew worker had observed a written threat on one of the Portable Restroom stalls that stated "On April 2nd, a bomb will Detonate 2nd floor E Quad" After receiving the information, Ceroni immediately contacted his chain of command and our department about the intended threat to the area. Prior to our arrival, the area in question was already cleared of all non-essential working personal, and the portable restroom stall was removed from the immediate area and isolated from the general site for further review. Ceroni then advised us that his security detail conducted a sweep of the targeted area, but only he and another security member had training in observing incendiary/improvised explosive devices (IED). At the conclusion of the initial briefing, the NNCBS established lead point while Sgt. Kern and I acted as primary cover units. Ceroni, several of his security staff, and an on-site emergency medical technician (EMT), provided support as additional observers and as guides to the area(s) in question.

When entering the building, we established a standard grid search of the area, by starting at the third level. The NNCBS were able to cover the extensive search of the area by conducting an overlapping sweep with the three K9s. Sgt Kern and I trailed behind the K9 units per their operating protocols and assisted in observing the area of suspicious activity. At around 2115 hours all three floors of the targeted area was searched to the best of our abilities, and was then cleared of suspicious activity by the bomb techs and K9 handlers. Negative contact was made by their K9 units in regards to any observable incendiary devices.

At the conclusion of the search, Ceroni was pleased by the joint operation support and was able to inform his chain of command of the conclusion of the search. During debriefing Ceroni indicated that he would inform us of any other future concerns and was able to provide Sgt. Kern with evidentiary photos of the alleged bomb threat located on the mobile restroom stall. Sgt. Kern and I were able to exchange contact information with the members of the consolidated bomb squad, and we were able to clear the call without incident. Case number 17-233 was assigned to the incident.

On April 1, 2017 I was informed by Deputy Mendoza that he was conducting investigative follow up on the incident. Deputy Mendoza advised me that he was currently unable to make contact with key follow information at this time, but would be able to continue his investigation as the week progresses. Deputy Mendoza will be able to provide a supplement to this case at a later date as needed.

Nothing further at this time.

On March 31, 2017 at 1502 hours, I was advised a bomb threat at the Tesla giga factory located at 1 Electric Avenue, Storey County, Nevada. I spoke with Tesla Security Director Andrew Ceroni who indicated that one of the construction workers had observed a written threat on one of the Portable Restroom stalls that stated "On April 2nd, a bomb will Detonate 2nd floor E quad" After receiving the information, Ceroni and his team evacuated the area and performed a cursory search but found nothing. Ceroni contacted his chain of command and the Sheriff's office to notify of the threat. Ceroni indicated that due to the mixed union and non union work force constructing the new building he has had on going issues with workers activating fire alarms and causing other disturbances to slow or stop work. Ceroni stated that this generally occurs on Sunday and he suspected this was likely another attempt to cause problems.

Ceroni asked if we had access to an explosive detecting K9 and if so we could arrange to have one come out to walk the building. Per Ceroni's request the Northern Nevada consolidated bomb squad (NNCBS) was contacted and arrangements were made to have them respond to inspect the building. Ceroni also stated that he would like this incident to be handled discretely as not to cause any issues.

At approximately 1800 hours, Deputy S. Glowniak and I arrived at Tesla after tying in with security we were escorted to the building where the threat was made once there we met with Andrew Ceroni, and the following members of the NNCBS:

K9 handler: Brandon Randall, Airport Police Dept. K9 unit "America"

K9 Handler: Tom Emmons, University of Nevada, Reno Police Dept. K9 unit "Bonnie"

K9 Handler/EOD Tech: Jason Morgan, Reno Police Dept. K9 unit "Junior"

EOD/Bomb Tech: George Forbush, Sparks Police Dept.

Upon establishing a joint operational command, Ceroni advised us of the general area and the layout of the building. Ceroni also advised that the portable restroom in which the message was found had been placed on top of a dirt hill several hundred yards away from the building.

At the conclusion of the briefing, the NNCBS established point Deputy Glowniak and I assisted as cover units. Ceroni, several of his security staff, and an on-site emergency medical technician, provided support as additional observers and as guides to the area in question.

When entering the building, we established a standard grid search of the area, by starting at the third level. The NNCBS were able to cover the extensive search of the area by conducting an overlapping sweep with the three K9s. Deputy Glowniak and I trailed behind the K9 units per their operating protocols and assisted in the search of the area.

NARRATIVE

Page 1

17-249

NARRATIVE:

On April 7, 2017 at 1615 hours, I was dispatched to a reported trespassing and harassment call located at 1 Electric Avenue, at the Tesla Giga Factory; located in the area of TRI McCarran, Storey County Nevada. The reporting party was identified as [REDACTED]

Upon arriving, I was informed by [REDACTED] that earlier today a former employee from Helix Electrical Contracting was displaying disruptive and hostile behavior towards the Security staff on premise. The former employee later identified as [REDACTED] was informed to wait at the security gates while waiting for his personal tools that were located on site.

[REDACTED] informed me that after 20 minutes of waiting, [REDACTED] became agitated and impatient. He started to belittle and harass the gate guards and attempted to drive his vehicle pass the checkpoint gate in order to retrieve his tools. [REDACTED] informed me that several of his mobile security units were able to intercept [REDACTED] near the gate checkpoint. Members of the security staff on scene indicated that [REDACTED] continued to argue with them and continuously revved his engine in an attempt to intimidate the security staff on scene. [REDACTED] informed me that he then made contact with [REDACTED] in order to de-escalate the situation. Although he was successful in calming [REDACTED] down, [REDACTED] was still emotionally irritable and abrasive.

Per [REDACTED] [REDACTED] had stated that he only wanted to retrieve his tools located in a gang box at the Helix electrical work site. The estimated value of [REDACTED]'s tools was around \$20,000.00. [REDACTED]'s former supervisor later identified as [REDACTED] was at the job site gathering the tools and had [REDACTED]'s final check. after a few more minutes went by, [REDACTED] became agitated again, due to the delay and informed [REDACTED] that he would return later. [REDACTED] informed me that [REDACTED] then angrily spun his truck around, narrowly missing one of his security staff while leaving. Due to the incident, [REDACTED] informed the Helix Supervisor, [REDACTED] that [REDACTED] was no longer allowed on property, and informed me that he wanted to officially trespass [REDACTED] from the premise. [REDACTED] was able to provide me with a video copy of the incident, and was also able to provide me with a detailed incident report with multiple security member's information and statements.

Based on the information given by [REDACTED] a report was taken, and case number 17-249 was assigned to the incident. I informed [REDACTED] that we would make contact with [REDACTED] to inform him about the trespassing, and had also informed [REDACTED] that if needed we could provide assistance in a civil standby at a later date.

[REDACTED] was pleased with the assistance given and I gave him my business card with the assigned case number attached. Upon clearing the call, I made an attempt to make contact with [REDACTED] with the known phone numbers given to me by [REDACTED]. I was unable to make contact and advised Deputy Azevedo of the current situation. I will follow up on the incident by providing the information to day shift in order to make contact with [REDACTED].

If [REDACTED] makes any additional threats or attempt to harass members of the Tesla security/employee staffing, I will submit this case for change of/or in addition to NRS charge 207.200 Trespassing to NRS 200.571 Harassment.

Photographs x2

Narrative:

On April 8, 2017 at approximately 2324 hours, I was on routine patrol in the Tahoe Reno Industrial Park area of Storey County, Nevada. While performing traffic enforcement on Electric Avenue, I was notified by a motorist of a deceased horse in the roadway near 1 Electric Avenue (Tesla).

Upon arriving on scene, I observed a small brown horse laying on its right side in the number two westbound travel lane that was deceased. The exact age of the animal is unknown. There was no visible signs of trauma or signs of a vehicle being involved.

I moved the horse off of the roadway and instructed dispatch to contact Storey County Public Works and the Nevada Department of Agriculture.

Photographs were taken.

Nothing further.

On April 10, 2017, at approximately 1250 hours, I was contacted by dispatch and directed to standby at my current location at 500 USA Parkway located in Storey County, Nevada and wait for the arrival of Chief Deputy Dosen. Chief Deputy Dosen arrived and we traveled to 1 Electric Avenue located in Storey County, Nevada, to act on an extraditable arrest warrant out of California for an employee of Dunkle Machinery that was working at that location. The tip of the location of the wanted subject, identified as [REDACTED], came through Secret Witness.

We arrived and made contact with Tesla Security personnel who escorted us to the location of Dunkel Machinery's work trailers. We spoke to the owner of Dunkel Machinery who stated that [REDACTED] had left the work site for the rest of the day. The owner informed us that [REDACTED] had informed him that he had a court date in California that he needed to attend on Wednesday, April 11 and that [REDACTED] had taken the afternoon of April 10 and the entire day of April 11 off from work in order to take care of his court issue.

The owner was provided with contact information for the Sheriff's Office and was asked to contact us after [REDACTED] returned to work to notify us of the disposition of [REDACTED]'s court case. Chief Deputy Dosen and I left the scene. This case is in a pending status until the Sheriff's Office is contacted on [REDACTED]'s status to determine if the warrant from California still exists and if any further action is needed.

Nothing further.

On April 12, 2017 at approximately 0830 hours, I was contacted by telephone by Chief Deputy Dosen. Chief Dosen notified me that the head of security at Tesla had contacted the Sheriff's Office to notify that [REDACTED] had returned to work and provided his supervisor with documentation that his warrant had been cleared based on his court appearance on April 11.

I contacted dispatch via telephone and dispatch confirmed that [REDACTED]'s warrant was now cleared and an arrest was no longer necessary. This case is closed with no further action required.

Nothing further.

On April 11, 2017, at approximately 1030 hours, I was contacted by telephone by security personnel at the Tesla Factory at 1 Electric Avenue located in Storey County, Nevada. I was informed that United States Marshals had contacted Tesla to notify them that an employee had an outstanding fully extraditable bench warrant from the State of Indiana and Marshals were en route to arrest the subject. I made contact with Sheriff Antinoro who directed me to travel to Tesla to assist the Marshals when they arrived to arrest the subject.

I traveled to 1 Electric Avenue and met with Tesla Security personnel and Deputy United States Marshal Daryl Hollenback. Tesla personnel transported the subject, identified as [REDACTED] to our location where he was placed under arrest for State of Indiana Bench Warrant [REDACTED] 3 and Indiana Arrest Warrant [REDACTED] 4.

I transported [REDACTED] to the Storey County Sheriff's Detention Center where he was booked without incident for the warrant to await extradition.

Nothing further.

17-263

On April 13, 2017 at approximately 1536 hours, I was dispatched to Tesla located at 1 Electric Way Sparks, Nevada (Storey County) in reference to a traffic incident.

Upon my arrival I met with [REDACTED]. [REDACTED] is the registered owner of a purple 2015 Chevrolet Impala bearing Tennessee license plate [REDACTED]. [REDACTED] stated a Chevy Tahoe had pulled up next to him on the right in the parking lot at Tesla. When the driver got out the Chevy Tahoe the driver side door hit the passenger door on the Chevy Impala. [REDACTED] showed me the passenger door on the impala there was a scratch to the paint about half-way up the door. While talking to [REDACTED], the driver of the 2001 Chevy Tahoe walked up. I collected [REDACTED] statement

The driver of the Chevy Tahoe was identified as [REDACTED]. [REDACTED] stated this morning while he was getting ready for work the wind caught the driver side door on the Chevy Tahoe causing it to strike the passenger door on the Chevy Impala. [REDACTED] stated he did not see any damage in the early morning light. [REDACTED] also stated he tried to make contact with [REDACTED] but he would not get out the vehicle. I collected [REDACTED] statement. I photographed the Chevy Impala and the Chevy Tahoe

[REDACTED] provided [REDACTED] with his insurance information. This case is an information only report.

End of Report.

17-293

On April 21, 2017 approximately 1445 hours, I was dispatched to the Tesla plant to take a report of possible tampering with a vehicle form head of security Andrew Ceroni. Upon arriving, I met with Ceroni and he advised he has two male subjects on video loosening lug nuts on a scissor lift. The two adult male subjects in the video where later identified as [REDACTED] and [REDACTED]. Ceroni advised [REDACTED] was the main alleged suspect as [REDACTED] stood watch as [REDACTED] loosened the lug nuts. I asked Ceroni to show me video and he showed me on his lap top computer. On the video I observed two male subjects walk over to a scissor lift and start walking around the lift. After a few seconds [REDACTED] un raveled a spool of wire walking away from the lift as [REDACTED] was bending over toward the tires of the lift but I was unable to see what he was doing to the tires. after watching the video I asked Ceroni what he wanted to do. Ceroni stated he wants [REDACTED] arrested. I advised Ceroni after watching the video I did not have probable cause to arrest [REDACTED] but could right a report and forward to the District Attorney for charges. Ceroni agreed but advised he needed my assistance to remove [REDACTED] from the property and have him trespassed from the Tesla property. At that time, I agreed to assist and we walked into the warehouse to find [REDACTED]. After finding [REDACTED] I asked him about loosening the lug nuts on the tires of the lift. [REDACTED] stated he doesn't know how they got loosened he was the person who reported it. At that time, Ceroni pulled him to the side and began talking with [REDACTED]. After a few minutes Ceroni came over to me and advised [REDACTED] was ready to be escorted off the property. We all then walked [REDACTED] to his vehicle and he drove off the property without further incident. Ceroni advised he did not want to pursue any further action due to after him speaking with [REDACTED] he did not feel he loosened the lug nuts. This case is closed as unfounded.

ATTACHMENTS: Investigation Report from April 17-18, 2017 form Andrew Ceroni

On May 5, 2017 when I arrived for duty I was given a typed statement/report from Andrew Ceroni the head of security of Tesla in reference this case. I was also provided a copy of the video footage on a disc.

I read the report and the report reads, Ceroni viewed [REDACTED] Park the lift on 04/17/2017 at 1622 hours. It further reads [REDACTED] climb down the ladder off the lift looks around bends over and spends time near the rear tire then straighten up (stand up) walk around to the other side of the lift bend over at the other rear tire. The report reads it appears [REDACTED] has a tool in his hand and is moving it near the wheel. It further reads [REDACTED] stands back up, pockets the tool while appearing to remove a piece from the top of it then walks back to his tool cart and places it in his tool bag.

After reading the report, I watched the video that was provided. I did observe a male figure resembling [REDACTED] park a lift then climb off down the ladder. The video then shows [REDACTED] walked to the middle of the lift and bend over not by the rear tire. The video then shows [REDACTED] stand up walk around the lift and I did not see him bend over the second time. At no point did I observe a tool in Lefebvre hand or him place anything in his pocket. I did observe [REDACTED] walk to his tool cart the walk off the view of the camera. Based on the report and the video footage I did not observe any crime occur. This case is closed as unfounded.

17-346

On May 11, 2017 at approximately 1126 hours, I was dispatched to a report of found property at Tesla, 1 Electric Avenue, TRI McCarran, Storey County, Nevada.

Upon arrival, I made contact with the head of Tesla Security Andrew Ceroni. Ceroni advised that a construction worker had found a small black bag with skulls and crossbones on it and had turned it in to him. Ceroni advised he did an inventory of the bag to book into lost and found. Ceroni stated he discovered a glass pipe inside, along with other miscellaneous items and credit cards. Ceroni advised the credit cards belonged to [REDACTED] who was a contractor employed at the Tesla construction site.

I requested [REDACTED] be brought to the security office, along with his supervisor. I retrieved the black bag from Tesla security and observed it contained a clear in color glass pipe. The bag also contained credit cards belonging to [REDACTED]. [REDACTED] and his supervisor arrived on scene. I explained to [REDACTED] his bag had been found and asked if the pipe was his. He stated yes. I asked him if the pipe was used to smoke methamphetamine. [REDACTED] stated yes and that he had smoked methamphetamine a few days ago.

I temporarily detained [REDACTED] in handcuffs, checking for tightness and double-locking the mechanism. [REDACTED] gave verbal consent for a full search of his person. I performed a search of his person and found no other contraband.

I asked [REDACTED] if I had consent to search his vehicle. [REDACTED] gave verbal consent to search his vehicle located in the Tesla parking lot. I placed [REDACTED] in my patrol unit and drove to his vehicle. I removed [REDACTED]'s handcuffs and asked him to sign a consent to search form. He completed the form. I advised the search was voluntary and he could revoke his consent at any time. I performed a search of his vehicle, a purple Kia Optima sedan bearing California license plate [REDACTED] with [REDACTED] and Tesla security present. I found no contraband in the vehicle.

I issued [REDACTED] citation number 28948 for violation of NRS 453.566 Possession of Drug Paraphernalia with a total bail of \$355.00. [REDACTED] signed the citation promising to either pay the fine or appear at the Virginia Township Justice Court on June 21, 2017 at 1400 hours. At the request of Tesla security, I trespassed [REDACTED] from the property. I confiscated the clear glass pipe to book into Storey County Sheriff's Office evidence. [REDACTED] was escorted off Tesla property by myself and Tesla security.

At approximately 1345 hours, I booked the clear glass pipe into Storey County Sheriff's Office evidence locker number 24 at the Lockwood substation.

No further information.

NARRATIVE

Page 1

17-372

Narrative:

On May 19, 2017 at approximately 0538 hours, I was on routine patrol in the Tahoe Reno Industrial Park area of Storey County, Nevada. I was dispatched to 1 Electric Avenue (Tesla) for a report of a possible assault. Dispatch also advised that there was an altercation between two subjects on the property and that one subject had injuries.

Upon arriving on scene, I was escorted by Tesla security to the location of the injured subject. The injured subject, later identified as [REDACTED], was located on the third floor of Tesla's construction site. [REDACTED] was sitting in an aisle way comprised of cargo pallets with an ice pack on his right hand. Tesla security advised that the other male subject involved was located at his contractor's office building at a different location on site.

There was a language barrier with [REDACTED] and an employee of a contractor was serving as an interpreter. Through the interpreter, [REDACTED] stated that he was walking down an aisle way when a male subject, who was unknown to [REDACTED], asked him "what are you looking at" and pushed him on his chest. [REDACTED] fell onto the ground and suffered reported injuries to his right wrist and lower back. [REDACTED] didn't remember anything after he fell.

I spoke with a male subject, identified as [REDACTED] who stated that he had witnessed the unknown male subject state "what are you looking at" towards [REDACTED] and then pushed him onto the ground. [REDACTED] filled out a statement form provided by Tesla Security.

An additional male subject, identified as [REDACTED], stated that the unknown male subject was known to him as [REDACTED]. He did not know his last name. [REDACTED] stated that he was walking with [REDACTED] who had been fired from Harder Construction the previous week. [REDACTED] was mad about him being fired and stated that he "was going to make this right". As they were walking, [REDACTED] looked at [REDACTED] and [REDACTED] stated "what are you looking at" then pushed [REDACTED] to the ground and then proceeded to leave the floor. [REDACTED] was an employee of Harder construction and stated that [REDACTED] had been recently hired by Quality Construction, another contracting company on site.

Through out my initial investigation on the third floor, I observed multiple subject wearing white hard hats with "Harder" on the front. The location of the altercation was located approximately one to two hundred feet from any stair well or access point and was surrounded by head high pallets of cargo with limited visibility to the rest of the floor.

The Storey County Fire Department paramedics arrived on scene and assessed the injuries to [REDACTED]. [REDACTED] stated that he wanted to go to the on site health clinic instead of being transported by ambulance to the hospital. [REDACTED] was escorted by Tesla Security to the health clinic.

Deputy Mendoza arrived on scene at this time.

Tesla Security escorted Deputy Mendoza and I to the contractor's office where [REDACTED] was waiting.

Upon arriving at the office, we met with a male subject, identified by his Nevada driver's license as [REDACTED]. [REDACTED] stated that he had arrived at work and went to his contractor's office

to drop off paperwork that was requested by his supervisor. [REDACTED] went to the construction site of Tesla's main building and accidentally went to the third floor due to him not thinking clearly. Upon arriving on the third floor, [REDACTED] stated that he was walking and observed two male subjects "repeatedly" looking at him. The two subject were approximately twenty five feet behind [REDACTED] [REDACTED] stated that one of the subjects, whom he did not know, came up to him and got about a foot from him. [REDACTED] did not know the subjects intentions so he pushed the male subject who then "fell dramatically" to the ground. [REDACTED] stated that he went straight to his contractor's office and advised them of the altercation. [REDACTED] had previously been fired by Harder for a verbal altercation with another subject and recently was hired by his current contractor.

Deputy Mendoza asked [REDACTED] why he had pushed [REDACTED] [REDACTED] stated that [REDACTED] had gotten into his personal space and did not know what his intentions were. [REDACTED] also stated that he does not like anyone in his personal space and will move them one way or another. [REDACTED] filled out a voluntary statement form.

[REDACTED] was then fired by his contractor and Tesla Security advised him that he was going to be trespassed from the property. [REDACTED] was escorted off the property by Tesla Security and his contractor.

Deputy Mendoza and I were informed that [REDACTED] was going to be transported to the Northern Nevada Medical Center in Sparks, Nevada. Deputy Mendoza remained on scene to get further statements from witnesses. Deputy Mendoza is bilingual and stated that he would conduct an additional interview with [REDACTED] at the hospital. (see Deputy Mendoza's supplement for further details.).

At this time I left the scene.

I am requesting this case be reviewed by the Storey County District Attorney.

This case is pending until further investigation by Deputy Mendoza is complete.

Nothing further.

Initial investigation

On May 19, 2017, at approximately 0602 hours, I responded to Tesla located at 1 Electric Avenue, McCarran, Nevada (Tahoe/Reno Industrial Center) in Storey County, to assist Deputy Azevedo who was investigating a report of a battery that occurred on property between two (2) employees of contractors. While en route I was advised by dispatch the subject the committed the assault was not on scene and medics where on scene caring for the victim.

Upon arrival, I met with Tesla Security who escorted me to the third floor of the main building that is under construction.

Once on the third floor I was met with Storey county paramedics that informed the victims was with Deputy Azevedo indicating the victim signed an AMA and will be transported to the hospital via a personal vehicle.

I made contact with deputy Azevedo who stated he was able to communicate with the victim but his English was limited and requested that I re-interview the victim, perhaps after he received medical attention.

Deputy Azevedo and I were informed the aggressor was being detained by Tesla security at the contractor's office. Tesla security officers escorted us to the office where the primary subject was awaiting our arrival. I met the primary subject identified by his Nevada Driver's license as [REDACTED] who stated -unsolicited, that he pushed the other subject because he was in his personal space. I asked [REDACTED] if he was ok and he continued telling me the story of what happen during the incident. [REDACTED] further stated that he doesn't like anybody in his way and will get them out of his way one way or another. I told [REDACTED] to write a voluntary statement and that I would be speaking with him in few minutes.

I then learned the victim later identified as forty-seven (47) year old [REDACTED] employed by Harder Mechanical, who appeared to be in pain with a visible injury to his right hand and had to be taken to the hospital by their safety manager. I told the safety manager that I would make contact with him and the victim at the hospital.

I then spoke with a Security officer whom indicated there were witnesses of the altercation and they will be providing voluntary statements for us later on. I returned to [REDACTED] who had already completed his statement.

[REDACTED] stated that he was walking back to his compound after dropping off a document as requested by management. [REDACTED] indicated that he accidentally went up and extra set of stairs that landed him on the third floor when other contactors where walking by and looking at him. [REDACTED] outer "what are you looking at" and [REDACTED] turned around and approached him. [REDACTED] decided to push him as he didn't know his intentions and continued on his way to speak with his Forman.

[REDACTED] was very elusive during the interview and admitted that he did push [REDACTED] because [REDACTED] was on his way. I decided to end the interview and after I spoke with Deputy Azevedo we decided to continue our investigation and file charges with Storey County DA at later date because we could not locate all the witnesses on the incident and the victim was being transported to the hospital for an unknown injury.

Page 2

17-372

██████████ was fired from his job escorted out of the property by Tesla Security.

At approximately 0830 hours, I drove to Northern Nevada Hospital located in Sparks, Nevada in Washoe County to interview the victim of the battery.

I met with ██████████ who stated his injuries consisted of sprain wrist on his right hand an minor discomfort on his rear end do the fall. I provided ██████████ with a voluntary statement and asked him to write down what happen earlier. ██████████ stated he could not write in English and asked if he could do it in Spanish. I told him that it was ok and that I would translate his statement if necessary.

I asked ██████████ to tell me what had happen during the altercation. ██████████ indicated that he had never met the man (██████████) who attached him before but indicated he was afraid if he would come back and hit him again. ██████████ indicated that he and his co-worker ██████████ were assigned to clean the kitchen on the third floor that being the reason he was on the 3rd floor. ██████████ heard someone scream at him "Hey" ██████████ thought it was a supervisor because the man (██████████) was wearing a white hardhat and ██████████ was thinking a supervisor was going to give him new assignment and before he could recognize the man was he felt a push on his chest. ██████████ stated that everything went dark and could not remember anything. Until he heard his partner yelling "let him go, that is enough" and he was on the floor locking up disoriented at his partner.

I spoke with ██████████ who is the General Counsel for Harder who stated he was responding to my inquiry. I told Murphy that during my investigation I learned that ██████████ had worked for Harder Mechanical in the recent past and I was interested in learning why he was let go or fired. ██████████ stated that ██████████ worked for Harder Mechanical in the recent past and on May 9, 2017 he was caught sleeping on the job. ██████████ was giving a verbal warning for sleeping on the job and he was fired on May 10, for threatening coworkers about turning him in for sleeping on the job.

I spoke with a ██████████ on the phone that confirmed ██████████ statements.

I concluded my investigation and determined that since ██████████ purposely instigated the fight and without regard to his coworkers safety assaulted ██████████ without provocation. Based off the statements, physical evidence and visual confirmation from witnesses, I request the district attorney issue a criminal complaint against ██████████ for Provoking Assault per NRS 200.490 and Simple Battery per NRS 200.481

Investigation pending addtional witness statements..

On May 21, 2017 at approximately 0009 hours, I called the Security Supervisor for Tesla located at 1 Electric Ave. in the Tahoe Reno Industrial Park area of Storey County, Nevada in regards to this incident.

When speaking with Tesla Security on the morning of the original incident, Tesla Security had witnesses and subjects involved fill out voluntary statement forms. Deputy Mendoza and my self were supposed to get emails containing the witness statements but have yet to receive them.

I was able to make contact with the Tesla Security Supervisor by telephone and he stated that he would be contacting the Security Officer involved with this case and will be instructing him to email the witness statements.

The mentioned Security Officer works Monday through Friday.

This case is still pending until witness statements are received.

Nothing further.

On May 21, 2017 I received an E-mail from Deputy Azevedo containing an e-mail with attachments from Tesla security.

I reviewed the statements from the witnesses and concluded there was nothing additional to our initial investigation and recommend this case be forwarded to the Storey County District Attorney for review and consideration for criminal charges against [REDACTED] for Provoking Assault (NRS 200.490) and Simple Battery (NRS 200.481).

Nothing further.

NARRATIVE

Page 1

17-386

On May 25, 2017 at approximately 1348 hours, I was dispatched to a medical emergency located at Tesla, 1 Electric Avenue, TRI McCarran, Storey County, Nevada.

Upon arrival I made contact with Storey County Fire Department paramedics and a Truckee Meadows Fire Department paramedic who was on a ride a long with SCFD. Paramedics advised that a male subject had been found passed out in the dirt outside the portable restrooms. When they tried to help the subject, he became angry and uncooperative. I observed the subject sitting on a concrete wall outside the portable restrooms. I observed his eyes were closed and he kept stating he wanted his wife. A construction supervisor advised me he was a construction worker from Quality and handed me the subject's California driver's license.

I identified the male subject as [REDACTED]. As I was speaking with the construction supervisor, I observed the Truckee Meadows Fire Department paramedic attempt to escort [REDACTED] to the ambulance. [REDACTED] refused to move and stated he was not going anywhere until his wife arrived. The Truckee Meadows Fire Department paramedic placed [REDACTED] into an arm bar and pushed him down onto the concrete wall. [REDACTED] began to physically resist. SCFD paramedics grabbed [REDACTED] by the shoulders to hold him into place to prevent injury to [REDACTED] or the Truckee Meadows Fire Department paramedic. [REDACTED] continued to resist. I requested Deputy Welch respond to assist. To prevent any further altercation or injury to [REDACTED] or the paramedics, I removed my handcuffs from my duty belt and placed them on [REDACTED]. Once he was secure, I checked the handcuffs for tightness and double-locked the mechanism.

Deputy Welch arrived on scene and the Truckee Meadows Fire Department paramedic began to lead [REDACTED] to a gurney. He placed [REDACTED] on the gurney. I held [REDACTED]s feet in place while SCFD paramedics placed them into soft restraints. I then removed my handcuffs from [REDACTED] while SCFD paramedics placed his wrists in soft restraints. SCFD paramedics then placed [REDACTED] into the back of the ambulance to start treatment. SCFD paramedics requested I follow the ambulance in my patrol unit to Renown Hospital in Reno. [REDACTED]s supervisor advised that [REDACTED]s wife had been notified and was enroute from Sparks. [REDACTED] began to calm down and become compliant upon hearing his wife was enroute. SCFD paramedics canceled the request that I follow them to Renown Hospital. SCFD paramedics advised they did not require my assistance any further. I cleared the scene.

No further information.

Narrative:

On May 27, 2017 at approximately 0802 hours, I responded to Tesla located at 1 Electric Avenue, McCarran, Nevada in Storey County to investigate a report of a dog left inside a vehicle.

Upon arrival I made contact with Tesla Security who indicated a dog was inside a vehicle. With the assistance of the safety officer on site I was able to locate the owner identified by his Utah Identification card as [REDACTED] who was working in a building nearby. I observed the dog had food and water on the front seat and appear to be ok.

I conducted a records check on [REDACTED] and he came back with a bench warrant out of Lander County warrant # [REDACTED]. After confirming the warrant, I informed [REDACTED] that he was under arrest. Gammon made arrangements with Tesla security to leave his vehicle on Tesla's property.

I took custody of [REDACTED] pursuant bench warrant out of Lander County warrant # [REDACTED]. I searched [REDACTED] for weapons, placed him in handcuffs, checked for tightness and double locked the mechanism. I secured [REDACTED] and his dog in the rear passenger seat of my patrol vehicle and transported him to Storey County Detention facility without incident.

Nothing further.

On May 27, 2017 approximately 1532 hours I was dispatched to 1 Electric Avenue the Tesla Property located in McCarran Nevada which is in Storey County to a single motorcycle wreck where the rider has a possible broken wrist.

Upon arriving at the West entrance, the Storey County Paramedics where already on scene and had the rider later identified as [REDACTED] loaded in the ambulance. I was unable to get a statement from [REDACTED] due to his condition and SCFD left as soon as I arrived on scene. I was advised [REDACTED] had a possible broken right wrist and was being transported to Renown Medical for treatment. Tesla Security was on scene and told me [REDACTED] was following a gray BMW bearing Nevada license plate [REDACTED] driven by a male adult they identified as [REDACTED] on his motorcycle Bearing Nevada license plate [REDACTED]. Security stated [REDACTED] was told them there where three large rocks in the middle of the roadway and he had to swerve to the right leaving the roadway to avoid hitting the rocks. Security stated [REDACTED] was right behind [REDACTED] and was unable to avoid the rocks hitting one of them causing him to leave the roadway drive into the drainage ditch and crashing. I asked security where [REDACTED] and his vehicle is and they told me he had a flat right rear tire and drove to 500 USA Parkway to call a tow truck from there due to not having Cell service at the location of the accident. I then asked where [REDACTED]'s motorcycle was and they pointed up the road at the next wide spot of the roadway. I photographed the scene where I observed tire tracks leaving the roadway and yaw marks coming back onto the roadway from [REDACTED]'s rear flat tire. I could not find any tire tracks from a motorcycle leaving the roadway but did observe oil and other fluids I was told was from [REDACTED]'s motorcycle. I photographed the scene and drove to the motorcycle and photographed it. I observed minor damage to the handlebars of the motorcycle. After photographing the motorcycle, I relocated to 500 USA Parkway and made contact with [REDACTED].

Upon meeting [REDACTED] he confirmed the statement I got from Tesla Security and refused to provide a written statement. I photographed [REDACTED]'s vehicle and collected the information needed for the accident and cleared the scene. No citation was issued to any of the parties involved due to the accident happening on private property.

On June 12, 2017 at approximately 1015 hours, I was dispatched to 1 Electric Avenue located in Storey County, Nevada for a report of a motor vehicle accident. I arrived and observed a white cargo truck with a cargo bed bearing Nevada license plate (US7098) and an orange and black all terrain vehicle with Ahern Rental logos.

I made contact with the driver of the cargo truck, identified as Jonathan Holman by his [REDACTED] Driver's license ([REDACTED]). Holman stated that he was backing up and did not see the ATV behind him. Holman stated that he stopped the vehicle when he realized he had struck the ATV. I did not observe any damage to the white cargo truck.

I made contact with the driver of the orange ATV identified as Mark Krussell by his [REDACTED] Driver's license ([REDACTED]). Krussell stated that he pulled up behind the cargo truck and was approximately 8 to 10 feet from the rear of the cargo truck. Krussell stated that he saw the reverse lights of the cargo truck come on and begin rolling towards him. Krussell stated that he was unable to get out of the way before the cargo truck struck the ATV that he was in.

I observed the brush guard of the ATV broken at both legs where the brush guard attached to the front bumper. I observed the brush guard to have large scratches on the top rung of the brush guard. I observed the brush guard to be bent all the way back to where it was resting against the front hood of the ATV.

Holman is found to be at fault for unsafe backing. No citation was issued because of the incident taking place on private property. I collected voluntary statements from both drivers, photographed the vehicles involved, and collected license and insurance information from both parties.

NARRATIVE

Page 1

17-453

On June 15, 2017 at approximately 1247 hours I was dispatched to 1 Electric Avenue located in Sparks, Nevada (Storey County) in reference to an employee acting erratic and possibly using drugs.

Upon my arrival I met with Tesla Security personnel who led me to security office. At the security I met the suspect who was identified as [REDACTED]. I observed [REDACTED]. [REDACTED] was seated with his head between his legs. [REDACTED] wore a baseball cap on his head. [REDACTED] nervously ran his fingers through his hair where it was exposed at the back of his head at the top of his neck. [REDACTED] legs were shaking as if he was cold. After observing him momentarily I asked [REDACTED] his name and what was going on.

[REDACTED] gave me his name, date of birth, and social security number. [REDACTED] stated he ran into the wrong building. I asked [REDACTED] if he had used any drugs recently. [REDACTED] stated yes. [REDACTED] further explained he had used "meth" the night before. [REDACTED] stated he had not slept at all last night. [REDACTED] also informed me he had not had a meal since the night prior as well. I asked [REDACTED] if he had any methamphetamine on his person. [REDACTED] stated no. [REDACTED] voluntarily turned his pockets inside out. I asked [REDACTED] if he had anything in his worked boots. [REDACTED] voluntarily took of his boots and socks. I asked [REDACTED] if he would submit to a blood test to confirm he had been using methamphetamine. [REDACTED] stated he would not submit to a blood test. I noted his speech was rapid, and some of his statements did not make sense to me. After speaking with [REDACTED] I spoke with Tesla security personnel.

I asked the security personnel present what had brought their attention to [REDACTED]. One security guard informed me he was found in a person's car without permission. Security stated nothing was stolen, and the person did not want to press charges. Security noticed his erratic behavior along with his physical symptoms like excessive sweat, rapid speech, and dilated pupils. Security personnel also advised [REDACTED] quit his job prior to being found in the car. Security personnel requested [REDACTED] be escorted from the property and he be informed he would be considered trespassing if he ever returned to the property.

Due to insufficient evidence to prosecute for NRS 453.411 Unlawful use of controlled substance, this case is unfounded. [REDACTED] was escorted from the property, and I informed him he is no longer welcome on the Tesla property.

End of Report.

Narrative:

On June 16, 2017, at approximately 1256 hours, I responded to Tesla located at 1 Electric Avenue, McCarran, Nevada (Tahoe/Reno Industrial Center) in Storey County, to investigate a report of stolen cell phone.

Upon arrival, I met with Tesla Security representative who escorted me to their main office and met with the reporting party, Identified as [REDACTED] who stated that on June 13, 2017 while using the restroom, his cell phone fell out of his pants pocket between 0700 and 0900 hours. When [REDACTED] realized his phone was missing, he went back to the bathroom located near the loading docks and the phone was gone. [REDACTED] ran a search through his provider and the phone was located near the east side of the building in section F. [REDACTED] contacted Tesla security in an attempt to recover the phone. [REDACTED] and Tesla security officer went to section F of the building and [REDACTED] send a scream signal to the phone and because the noise in the building he was not able to locate the phone.

[REDACTED] waited till after work and tried tracking his phone and again located the phone in a Walmart parking lot located on East Second St. in Reno, Nevada. [REDACTED] attempted to follow the vehicle bearing California License plate [REDACTED] and lost contact with the vehicle and signal to his phone was lost as well. [REDACTED] then picked up the signal at the Rancho 777 motel located on 4th Street in Reno, Nevada. The phone signal was traced to the N section of the building. [REDACTED] managed to speak with residents of the motel but could not find anybody with his cell phone. [REDACTED] decided that he would take the license plate of the vehicle and have Tesla security check the register owner without success.

[REDACTED] decided to return to the Rancho 777 motel on June 15, and contacted Reno PD and he was told to file a report with Storey county Sheriff's office.

I spoke with Tesla security and they informed me that as of now they don't have track of the license plates of their employees' vehicles and could not provide any information nor the vehicle could not be located in their parking lots.

I ran the California license plate ([REDACTED]) provided by [REDACTED] and using the resisted owner ([REDACTED]) of the vehicle, I contacted the Rancho 777 motel. The representative for the motel stated neither the name nor the license plate was associated with their residents and could not provide further information.

I concluded my investigation and determined the cell phone was lost and not stolen as originally reported. [REDACTED] will be working with his provider in an attempt to recover the phone. [REDACTED] stated the missing cell phone is a Samsung Galaxy 8 worth approximately \$700.00 purchased in May 2017, no serial number was available at the time of the report.

I recommend this case be closed as unfounded leads exhausted.

Nothing further.

On June 16, 2017 at approximately 1808 hours I was dispatched to Tesla located at 1 Electric Avenue Sparks, Nevada (Storey County) in reference to a man arguing with security at the gate.

Upon my arrival I met with the reporting party who is know to me as Lead Security Officer, Kevin Camancho. Camancho informed me a has man who refused to sign the required non-disclosure agreement (NDA). When security insisted the man fill-out the form before entering the property, the man argumentative using vulgar language with a female security guard. Camancho informed me he wanted the man trespassed from the property. I then approached the man who pulled over just East of the security checkpoint at the gate.

I made contact with a male adult who was later identified as [REDACTED] [REDACTED] stated he was disrespected by the security guard at the gate. [REDACTED] stated he was asked to fill-out the NDA in rude manner. [REDACTED] further stated the security guard threw the NDA at him. [REDACTED] admitted getting upset, but he was surprised at the guards unprofessional behavior. [REDACTED] thought he was being mistreated because of his skin color. I informed [REDACTED] I understand his frustration, but he is no longer welcome on Tesla property. Tesla security allowed [REDACTED] to pick up his daughter. [REDACTED] left the property without incident.

At this time there is insufficient evidence to charge [REDACTED] with NRS 203.010 - Disturbing the Peace. [REDACTED] was informed he is not allowed on Tesla property. This case is unfounded.

On June 22, 2017 approximately 1244 hours I was dispatched to 1 Electric Avenue McCarran, Nevada located in Storey County to a found substance resembling crystal methamphetamine.

Upon arriving, I met with the head of security Andrew Ceroni. Ceroni advised approximately 0945 hours one of his Security Guards found a clear in color plastic baggy lying on the ground next to one of the portable bathrooms which appeared to contain what looked like methamphetamine. Andrew stated the security guard turned the baggy into him and he contacted the Storey County Sheriff's Office. Ceroni handed me the baggy and I observed the baggy to be approximately two inches by two inches and did contain a substance that resembled methamphetamine. I took possession of the drugs and asked if the cameras could tell who the product belonged to. Ceroni stated "no" the cameras were too far away from the toilets and the video was not clear enough. Ceroni further advised approximately one hundred to one hundred fifty people where in and out of the toilets one hour and a half before they found the baggy. I cleared Tesla after collecting the possible drugs and drove back to the substation.

Upon arriving at the substation, I NIK tested the Substance and it tested positive for Methamphetamine. I then photographed the baggy and its substance then tried weighing the baggy but the scale would not read a weight and the bag. After trying to weigh the substance with no luck I logged and booked the baggy into evidence. At this time I have no witnesses and no further leads and the video footage was determined to be of no use toward the investigation.

I request this case to be closed due to leads exhausted.

NARRATIVE

Page 1

17-495

On June 26, 2017 at approximately 1928 hours, Deputy Andres and I were dispatched to 1 Electric Ave located in the area of TRI, Storey County, Nevada for an unknown problem.

Upon our arrival at the North gate of Tesla I asked security what was going on. Security stated they had an adult male later identified as [REDACTED] by his Arizona driver's license trying to steal his girlfriend's car. I asked security if they had [REDACTED] detained and they stated yes. Tesla security escorted Deputy Andres and I to the front of Tesla where the girlfriend later identified as [REDACTED] was waiting inside to talk to us. Deputy Andres and I asked where [REDACTED] was, they indicated that he was at the vehicle. When we arrived at the vehicle [REDACTED] was not there. I asked security where [REDACTED] was. Security stated [REDACTED] was inside working right now. I asked Security if they could get him so we could talk.

The vehicle belonged to [REDACTED] however [REDACTED] apparently had the keys to it because they arrived to work together. [REDACTED] never attempted to steel the mentioned vehicle as it was still parked and he still had the keys to it.

[REDACTED] and [REDACTED] are in a dating relationship, reside together in Sparks, and are also co-workers at Tesla.

When [REDACTED] arrived Deputy Andres asked him what had happened today. [REDACTED] stated nothing happened today. [REDACTED] stated "last night was the best night of their lives." [REDACTED] stated they drove into work today and were having a good day until now. As Deputy Andres was talking to [REDACTED] I asked Andy Ceroni the security manager what was going on. Ceroni stated [REDACTED] told him that [REDACTED] held a gun to her head last night and told her today he would not give her truck keys back to her. Ceroni said that they will have [REDACTED] in his office so we could talk to her.

The information provided by security was inaccurate and slightly eggagerated, as we were told [REDACTED] was stealing a vehicle and had a gun on his person, which we subsequently determined was not the case.

We made contact with [REDACTED] and asked her what had happened today. [REDACTED] stated three days ago she and [REDACTED] got into a domestic altercation. [REDACTED] stated she had marks on her right arm where [REDACTED] grabbed her. [REDACTED] stated the Sparks Police Department was called but they did not do anything. [REDACTED] stated last night [REDACTED] held a gun to her head. [REDACTED] stated after [REDACTED] put the gun down he held a knife to her throat. [REDACTED] stated he keeps the knife in his back pack for work. Deputy Andres asked [REDACTED] if she called the cops. [REDACTED] stated she could not call the cops because [REDACTED] had her phone. [REDACTED] stated all she wants is [REDACTED] out of her residence and to get her apartment key back. Deputy Andres and I told [REDACTED] that we would get the key back from [REDACTED] [REDACTED] stated she is afraid to go back home because she knows [REDACTED] is going to be there. Deputy Andres asked [REDACTED] if [REDACTED] made any threats or physically assaulted her today. [REDACTED] stated no, but they did get into a verbal fight on the freeway today that was it.

Deputy Andres advised [REDACTED] if [REDACTED] comes to her apartment and threatens her to call the Sparks Police Department. She was also advised to file a report in regards to the incident that occured the night before so she could obtain a temporary protection order.

17-495

Ceroni had Security bring [REDACTED] back to our location. Deputy Andres and I asked [REDACTED] if he had Seeger's apartment key. [REDACTED] stated no. I asked [REDACTED] if I could search him and his back pack for the key, [REDACTED] stated we could. We searched [REDACTED] and did not find the key. Deputy Andres and I advised [REDACTED] he was going to have to get a ride from a friend from work today. [REDACTED] stated he does not want anything to do with [REDACTED] anymore he just wants his belongings back. [REDACTED] denied pointing a gun at [REDACTED] and holding a knife to her throat.

Deputy Andres and I told [REDACTED] that [REDACTED] did not have the key on him. [REDACTED] stated that he probably gave it to a friend and he is going to steal all of her stuff. We told [REDACTED] she could call the Sparks Police Department and have them do a civil stand by so [REDACTED] could get his belongings out of the apartment without incident. We escorted [REDACTED] off the property and made sure she got onto the Freeway considering [REDACTED] left at the same time.

Because no threat or physical altercation took place at Tesla, no further action was taken. [REDACTED] was advised to contact the Sparks Police Department should she have any further problems with [REDACTED].

NARRATIVE

Page 1

17-501

On June 28, 2017 at 1804 hours, I was dispatched to a past tense motor vehicle accident at the Tesla facility located at 1 Electric Avenue Storey County Nevada.

Upon arriving I observed a silver colored Mercedes-Benz bearing Nevada license plate number [REDACTED] parked facing East with noticeable damage to the front of the vehicle. I also observed a black Volkswagen coupe bearing Nevada license plate number [REDACTED] parked facing North with noticeable damage to the driver's side front of the vehicle. I made contact with the driver of the Volkswagen identified by her Nevada driver's license as [REDACTED] (D1) do to medical issues [REDACTED] was transported to the hospital so I was unable to interview her, I did obtain a written statement from her which indicated that she was driving into the parking lot attempting to find a parking space when she observed the Mercedes travelling toward her at a high rate of speed, [REDACTED] indicated her fiancé later identified as [REDACTED] (passenger V1) yelled out to her "Watch out" [REDACTED] stated she hit her brakes to avoid the accident but the Mercedes struck her vehicle. I then interviewed [REDACTED] who corroborated [REDACTED]'s story.

I then interviewed the driver of the Mercedes identified by his Nevada driver's license as [REDACTED] (D2) when asked [REDACTED] stated that he was travelling toward the Tesla building attempting to find a parking space when "out of know where" the Volkswagen which was leaving the parking lot failed to yield to his right of way striking his vehicle.

Upon making contact with Tesla security I was provided a written statement from an employee identified as [REDACTED] who witnessed the accident, [REDACTED]'s statement indicated that [REDACTED] was travelling toward the building and had the right of way when [REDACTED] failed to yield in the parking lot striking the right front of [REDACTED]'s vehicle causing damage to the radiator and front end.

Upon completing my investigation I found that [REDACTED] had the right of way and [REDACTED] failed to yield to [REDACTED]'s vehicle which caused the accident, therefore [REDACTED] would be at fault.

Due to the accident occurring on private property I determined not to issue [REDACTED] a citation.

NARRATIVE:

On July 24, 2017 at 0418 hours, I was dispatched to a suspected intoxicated driver on premise of 1 Electric Avenue, Tesla; located in the area of TRI McCarran, Storey County Nevada. Dispatch informed me that the reporting party was Tesla Security.

Upon arriving on scene, Tesla security supervisor identified as John Thomas Kiraly informed me that one of his security staff members identified as Jason Mallory observed a construction employee speeding on site. When they made contact with the employee identified as [REDACTED], they observed an odor of an alcoholic beverage emanating from his body. Kiraly advised me that due to the safety concerns on site, they wanted to verify intoxication of the individual. After receiving the initial information from Kiraly, I made contact with [REDACTED], who was waiting in the security office on premise. When making contact with [REDACTED] I observed a faint odor of an alcoholic beverage emanating from his person. His eyes were partially red but the individual did not have slurred speech or an indication of physical imbalance.

[REDACTED] indicated that he only had a few beers with dinner around 2100 hours the following evening. He consented to a breath test, and the test showed an intoxication level above the legal limit. When I informed Tesla security that I can continue with a standardized field sobriety test (SFST), they indicated that they wanted to handle the incident internally and did not wish to submit formal charges; or to voluntarily sign a citizen's arrest form and statement(s) in lieu of the probable cause for arrest. They indicated that they wanted the incident submitted to their safety director and that they have protocols to dispatch a taxi to remove the subject from the area. I again advised them that I could continue with my investigation for driving while under the influence, but was advised that a case assigned to the incident would provide adequate measures for the incident.

Due to not physically observing [REDACTED] driving during the incident and Security staff members declining to submit current statements and citizens arrest forms concerning the initial stop, I did not conduct a SFST on [REDACTED] to further investigate the DUI. I gave Tesla security several statements and my business card with case number 17-607 assigned to the incident. Kiraly advised me that a Taxi was currently on the way, and that [REDACTED] would be watched by the security staff until he would be escorted off premise. No information was provided on [REDACTED]'s vehicle.

On July 25, 2017 at 0049 hours, I made contact with Tesla Security for additional follow up. Kiraly indicated that after talking to his immediate supervisors, they would enact future protocols to authorize voluntary statement/arrest forms for similar incidents. Kiraly was then able to provide a voluntary statement on the incident.

Nothing further.

Statement from [REDACTED]

Narrative:

on September 18, 2017 at approximately 1135 hours, I was dispatched to 500 USA Parkway in reference to a stolen wallet. Upon arrival, I met with the male subject, later identified as [REDACTED]. Fox stated that on Saturday, the 16th, he was at work at the Tesla Gigafactory located at 1 Electric Avenue in the Tahoe/Reno Industrial Center area of Storey County. He stated that his regular routine when arriving at work is to place his wallet in his lunchbox while he is working, which is what he did on this date. He stated that he was asked to work in another area temporarily and left his lunchbox unattended. When he returned, he found that his lunchbox was open and his wallet was missing.

I asked [REDACTED] what was in his wallet. he stated his identification, including his driver's license, military identification, credit cards and approximately \$4 cash. [REDACTED] stated that he had already canceled his credit cards and confirmed that they were not used. He also stated that he wasn't going to report the incident, however, a police report was required for him to obtain a new military identification from the Nevada Army Guard.

I asked [REDACTED] if he knew of anyone that may have taken the wallet and he stated that he did not, however, he did report the incident to Tesla Security as well. There are no suspects at this time and I recommend that this case be closed unless further information develops.

Statements**Narrative:**

On October 3, 2017 at approximately 0620 hours, I was dispatched to a private property accident on Electric Avenue inside the tesla property. Upon arrival, I observed two vehicles off to the side of the road. Both vehicles had minimal damage.

I spoke to the driver of V1, identified as [REDACTED]. [REDACTED] stated that he was leaving the parking lot on the west side of the building. He looked both ways and then began to make a left hand turn. He then made contact with a silver 2 door vehicle, also traveling towards the west. He then pulled his vehicle to the side of the road. I observed that the vehicle was a black BMW sedan and sustained minor damage to the front bumper.

I then spoke to the driver of V2, identified as [REDACTED]. [REDACTED] stated that he was traveling west on Electric Avenue when [REDACTED] pulled out in front of him and he was unable to avoid the collision. [REDACTED] was driving a Nissan 2 door with damage to the drivers side.

I then concluded my investigation by concluding that [REDACTED] had pulled out and made contact with [REDACTED], thus he was the at fault vehicle. No citations were issued due to the accident occurring on private property.

Statement from [REDACTED]

Narrative:

On October 3, 2017 at approximately 0900 hours, I was dispatched to Tesla, located at #1 Electric Avenue in the Tahoe/Reno Industrial Center area in reference to some threats being made. Upon arrival, I met with security personnel who stated that an employee of a subcontractor, known as Omega, had threatened another employee with a firearm.

The details of the incident, which occurred during a normal morning safety meeting entailed an employee, later identified as [REDACTED], threatening another employee, later identified as [REDACTED]. [REDACTED] was reported to have threatened to hit [REDACTED] in the face with a pipe wrench and that he had a firearm in his personal vehicle with "15 in the clip ready to go."

I first talked with [REDACTED]. [REDACTED] stated that he and [REDACTED] do have a history of hard feelings towards each other that included [REDACTED] sending an explicit text message to [REDACTED]'s girlfriend. [REDACTED] stated that on today's date, while waiting for the meeting to begin, [REDACTED] had made some comments towards [REDACTED] that upset him. [REDACTED] admitted to making the comments towards [REDACTED] because he has brought what has been going on to the company and believes nothing is going on to resolve it.

I asked [REDACTED] if he had a pipe wrench readily available when he made the threats. [REDACTED] stated that all of the tools were locked in a connex box and not available to him. I asked him if had a firearm in his vehicle and he started that he did not believe so, but it was possible as he has been known to carry a firearm in the vehicle. I explained to [REDACTED] that if he did have a firearm in the vehicle, it would change the nature of the call. He stated that he understood. I then asked for and received consent to search his truck. He voluntarily advised me that if the firearm was in the vehicle, it would probably be attached to the bottom of the seat with Velcro. [REDACTED] also agreed to complete a voluntary statement.

I searched under the seat as well as the rest of the truck and did not locate a firearm.

I then met with [REDACTED]. [REDACTED] stated that he does give [REDACTED] a hard time, mostly because he's older than most on the crew. He stated that he was unaware that the threats had been made, but doesn't have a problem with [REDACTED] personally or professionally.

I then concluded my investigation. Since the threats were made outside of my presence and [REDACTED] did not make them directly towards [REDACTED], nor did [REDACTED] have the ability or the opportunity to carry out the threats towards [REDACTED]. I advised him to use better judgment in the future and that this incident would be documented. I left any disciplinary action towards [REDACTED] with his company.

17-866

NARRATIVE:

On October 13, 2017 at 1627 hours, I was dispatched to a reported vehicle vandalism in the parking lot of 1 Electric Avenue at the Tesla Factory; located in the area of TRI McCarran, Storey County Nevada. The reporting party was the owner of the vehicle identified as [REDACTED]

Upon arriving on scene, [REDACTED] indicated that he was informed around 1530 hours by his brother [REDACTED] that his truck was keyed (The vehicle involved in the incident was identified as a 2017 white Ford F-150 Truck). Upon informing Tesla security of the incident, they indicated that there was no active video surveillance located in that area of the parking lot. [REDACTED] was advised that a former construction employee was laid off around noon. The lead construction foreman identified by his Arizona license as [REDACTED] advised me that the former employee laid off was identified as [REDACTED]

[REDACTED] indicated that when he escorted [REDACTED] to the parking lot, [REDACTED]'s vehicle was parked next to [REDACTED]'s truck. [REDACTED] indicated that [REDACTED] was upset about being laid off, but did not display any outward hostility and was compliant. [REDACTED] did indicate that [REDACTED] was parked closely next to [REDACTED]'s vehicle, and had to enter his vehicle from the passenger side. After escorting [REDACTED] to his vehicle, [REDACTED] left the area to return to work. He indicated that he did not observe [REDACTED] leave the area. When field interviewing [REDACTED] he indicated that he did not have any past history or confrontation with [REDACTED]. Although they worked together, he was not involved in the lay off process of [REDACTED]. The Tesla security staff on scene affirmed that there would not be any viable video surveillance of the area. [REDACTED] advised me that after he was told of the incident, he made contact with [REDACTED] via texting, but stated that [REDACTED] denied any involvement with the incident. I gave [REDACTED] a statement to complete and conducted my investigation of his vehicle.

Upon inspection, the damage to the vehicle was consistent to a "key gouge" type scratch that extended from the beginning of the front passenger side of the truck to the rear door and bed side. The damage in question had visible paint flecking and paint dusting along the edge of the scratches. There were no signs or indication of another vehicle's paint transfer, nor were there any scuffing or dents consistent with an accident contact of another vehicle. The vehicle and damaged areas were photographed.

At the conclusion of my investigation, I advised [REDACTED] that without a witness or actual video feed of the area in question, we would not be able to physically prove [REDACTED]'s involvement with the incident. I did however advise him that I will be making contact with [REDACTED] in order to investigate further into the incident. [REDACTED] understood the initial outcome of the investigation and informed me that he would be able to issue a claim to his insurance company at the conclusion of the incident. I collected all statements on scene and gave [REDACTED] my business card with case number 17-866 attached to his incident.

Negative contact was made with [REDACTED] at this time, but additional follow up will be conducted to ascertain additional leads or follow up. If [REDACTED] or another suspect is found to have caused the damage to the truck, that individual will be charged with NRS 206.330 Vandalism/defacing of property.

Nothing further at this time.

SUPPLEMENTAL NARRATIVE: CASE FOLLOW UP

On October 18, 2017 at 2000 hours, I was able to speak to the Security Lead at Tesla for case follow up (17-866) for possible video retrieval, concerning a parking lot vehicle vandalism that occurred on 10-13-2017.

The security supervisor indicated that they were unable to retrieve the needed footage due the system not conducting surveillance on the parking lot where the incident had occurred. At the conclusion of my follow up at Tesla, I was also able to make contact with a possible suspect/subject identified as [REDACTED] for further investigation into the incident.

[REDACTED] indicated that he was laid off at the time of the incident and had left the parking area around 11:30 that morning. Although he had to crawl over into the driver side of his vehicle, from the passenger side due to [REDACTED]'s truck being too close to his, he stated that he held no animosity towards [REDACTED] or the jobsite, and did not damage his vehicle. [REDACTED] advised me that he was currently rehired for the jobsite and would not intentionally damage or cause a negative incident that would jeopardize his work history. When asked about observing the scratches to [REDACTED]'s vehicle, [REDACTED] stated that he was not actively paying attention to the vehicle and did not notice anything wrong with it when he was leaving.

Based on negative footage of the time in question, no viable leads from [REDACTED] or other possible witnesses at the time of the event, it is my recommendation that this case be closed as suspended, leads exhausted at this time. If any additional information is presented at a later date, the case will be re-opened for additional case investigation and follow up.

Nothing Further.

Page 1

17-883

On 10-18-2017 at approximately 0930 hrs, I arrived at the Tesla plant located at 1 Electric Ave McCarren Nevada in Storey County for follow up to a previous call. When I arrived on scene, I was met by Tesla Head of Security PR-Andrew Ceroni. Ceroni told me he had found a small box containing two plastic bags, several pieces of aluminum foil, two small plastic straws and a Churchill County High School ID card (belonging to [REDACTED]). The two bags contained several dark colored pieces of what I recognize due to my training and experience as suspected tar heroin. I also know that drug users use aluminum foil to heat heroin and use straws to inhale the fumes.

Ceroni told me the box was found in a common area of the Tesla facility. Ceroni said [REDACTED] had worked at Tesla, but was no longer employed there. A records check showed [REDACTED]'s last known address being in Fallon. There was no additional contact information for [REDACTED]. I was unable to contact [REDACTED] about the found property.

I took possession of the box and NIK tested the contents for heroin. Although the substance resembles heroin, I did not get a positive result.

I logged the box and contents into temp evidence locker #25 for destruction. This report is for informational purposes only.

Nothing further

17-886

NARRATIVE:

On October 18, 2017 at 1929 hours, I was dispatched to a reported vehicle vs. horse accident located near the front Tesla Guard post on Electric Avenue; located in the area of TRI McCarran, Storey County Nevada.

Upon arriving on scene, I observed a 2016 black Ford Explorer bearing Nevada temporary plate NW299-088 with extensive front damage. The driver of the vehicle identified by his Nevada driver's license as [REDACTED] was reported as uninjured and was currently being checked by medics on scene. Tesla Security was on scene to assist with traffic control, and I started my initial accident investigation.

The vehicle was currently at rest in the number 1 westbound travel lane of Electric Avenue; approximately ¼ miles east of the Milan Drive intersection. The vehicle had extensive front end damage, damage to the windshield, A frame pillar post, and driver side front door. Vehicle airbags were non-deployed. Upon further observation, the horse that was involved in the incident was a brown pregnant mare that had expired from the vehicle impact. The horse was currently resting in the number 2 eastbound lane on Electric Avenue. Members of the Storey County Fire department and I were able to move the horse off the immediate roadway; to the shoulder of the road. The department of Wildlife was informed of the incident, and after medics were cleared from the scene I initiated my field interview with [REDACTED]

[REDACTED] indicated that while leaving work from Tesla, several horses ran in front of his vehicle. [REDACTED] indicated that the horses came abruptly out of the ditch on the side of the roadway, and he was unable to avoid them due to the close proximity of them entering the roadway in front of him. [REDACTED] stated that he had only struck one of the horses, and in the darkness, he did not observe any horses around him. [REDACTED] indicated that he was only going 40mph, and was wearing seatbelts. After receiving the information, I gave [REDACTED] a statement to complete and continued my accident investigation.

The area of impact did not show any visible signs of extended tire skid marks, and there was an observable culvert/ditch to the right side of the roadway. The ditch was deep enough that it would impede observable vision in the dark. The environment was complete darkness with no street lights. The information obtained from [REDACTED] matched the indicated description and environmental controls I observed. Based on the information and observed area in question, [REDACTED] did not violate any traffic ordinances. Photos were taken of the incident, and [REDACTED]'s statement and vehicle information was collected. Case number 17-886 was assigned to the incident, and Cal-Nevada towing arrived on scene at 2121 hours for vehicle removal.

Nothing further.

NARRATIVE

Page 1

17-949

NARRATIVE:

On November 03, 2017 at 2229 hours, I was dispatched to a possible temporary restraining order (TPO) violation at 1 Electric Ave; located in the area of TRI McCarran, Storey County Nevada. The reporting party was identified as [REDACTED]

Upon making contact, [REDACTED] indicated that she had filed a TPO on her ex-boyfriend identified as [REDACTED] in which they have a child in common. [REDACTED] advised me that the TPO was created on 10-30-2017 due to [REDACTED] having a history of stalking her. [REDACTED] informed me that although she has an active TPO both she and [REDACTED] are currently employed at Panasonic. Because they work in separate divisions, he is allowed to work in the general area; barring the no contact clause of the TPO.

[REDACTED] advised me that one of her co-workers had observed an unknown person near her vehicle during break time. [REDACTED] indicated that when she had her co-worker check her vehicle, he had found a tracking device on the inside of the bumper, and a battery charger pack near the vehicle. [REDACTED] informed me that prior to the TPO [REDACTED] would show up unannounced at various locations she was at, and did not know how he was able to find her. After conducting my initial interview with [REDACTED], I made contact with Tesla Security to see if there was usable video surveillance on her vehicle.

The Tesla Security Supervisor known to me as Kevin Camacho indicated that there was surveillance footage where [REDACTED] vehicle was located. When checking the video feeds, we were only able to observe [REDACTED] co-worker near the vehicle, and no observable signs of [REDACTED] near or around the vehicle.

Based on [REDACTED] statement of [REDACTED] always locating her prior to the TPO, it was reasonable to believe that the tracking device was placed on the vehicle by [REDACTED]. Unfortunately the history of events given by [REDACTED] indicates the tracker was placed prior to the active TPO. When asked if [REDACTED] has tried to make contact after the TPO was in place, [REDACTED] informed me that he has not attempted to come near her at work or at home.

Based on the information received from [REDACTED] and Tesla Security, there is no probable cause to believe [REDACTED] had tampered with [REDACTED] vehicle after the TPO was in place; but based on the found tracking device on the vehicle collaborating with [REDACTED]s history of locating [REDACTED] without her knowledge, [REDACTED] wanted to document the incident. Case number 17-949 was created for the incident as an information only report. Based on [REDACTED] statement that [REDACTED] has not attempted to make recent contact, nor are there any signs that he was recently near her vehicle, there are no indications that [REDACTED] had violated the TPO at this time. Photos were taken of the tracking device and charging unit and both items were placed into evidence locker LW-Temp #22. (bag #1409623)

Update information: On November 04, 2017, [REDACTED] made contact with Deputy Carter in regards to the the incident. Upon contact, [REDACTED] advised that the tracking device was his (see Deputy Carter's supplement for futher information). Based on [REDACTED]s admission of ownership, found content will not be submitted for prints. It is my recomendation that the found content be classified as stored property upon conclusion of the investigation.

Nothing further at this time.

SUPPLEMENT 1

Page 1

17-949

On November 4th, 2017 at approximately 0428 hours, I was dispatched to 1 Electric Ave. an area of Storey County, Nevada to take a report.

Upon arrival to the above location, I met a male subject later identified as [REDACTED] ([REDACTED]). [REDACTED] stated he was having issues with his ex-girlfriend [REDACTED].

[REDACTED] stated he received a TPO from [REDACTED] on or around 10/30/2017. [REDACTED] stated since the TPO has been issued he has been followed and "boxed in" while at work by friends of [REDACTED]. [REDACTED] stated he had received messages and verbal threats from these unknown subjects. I asked Papez why he did not call the Sheriff's Office when these things happened. [REDACTED] stated he did not know.

I asked [REDACTED] if he put a gps tracker on [REDACTED]'s vehicle. [REDACTED] stated he did put a gps tracker on [REDACTED]'s car as he feared she would take their kids out of state. I asked [REDACTED] if the vehicle was shared property, he stated yes. I asked [REDACTED] when did he put the gps tracker on her vehicle. [REDACTED] did not state a time, he only stated he put the gps tracker on the undercarriage on the passenger side.

I asked [REDACTED] to fill out a voluntary statement form about the above incidents. [REDACTED] stated he wanted a deputy to walk through his house with him, because he feared [REDACTED] or her friends might be at his house to attack him. I passed this information along to the next deputy on shift.

Nothing further.

[REDACTED]

NHP Form 5

Narrative:

On November 8, 2017 at approximately 0650 hours, I responded to the Tesla Gigafactory located at 1 Electric Avenue McCarran, in Storey County, Nevada to investigate the report of a traffic accident, two vehicles no injuries in private property.

Upon arrival I noted Tesla security were already on scene and they were directing traffic around the incident. I questioned the drivers of both vehicles and both claimed no injuries, I noted both vehicles sustained minor damage and no fluids were visible on the ground. I contacted dispatch and requested Storey County Fire Department to stand down.

I again confirmed with both drivers and both drivers claimed no injuries, both declined to be treated by paramedics, whom arrived on scene shortly after my request to dispatch.

I examined the first vehicle, described as a silver Ford fusion 4 door sedan, bearing Nevada license plate [REDACTED]. I noted the Ford sedan sustained minor damage to the front driver side of the vehicle. I spoke with the driver later identified as [REDACTED] who stated she came to the intersection looked both ways and proceeded forward colliding with the other vehicle. I noted there were no visible injuries on [REDACTED] and the air bag was not deployed. [REDACTED] stated she was wearing her seatbelt. [REDACTED] again declined to be checked by paramedics on scene.

I examined the second vehicle, described as an orange 2010 Dodge sedan 2 door coupe, bearing Nevada license plate [REDACTED]. I noted the Dodge passenger vehicle sustained minor damage to the front passenger side of the vehicle. I spoke with the driver later identified as [REDACTED] the driver who stated he was driving on the road way between parking lots. A vehicle came out of a row of parked vehicles and collided with him. [REDACTED] stated he didn't have enough time to re-act and collided with the vehicle. [REDACTED] stated he was traveling about 15 MPH and was wearing his seatbelt at the time of the crash.

I noted there were no visible injuries on [REDACTED] and the air bag was not deployed. [REDACTED] again declined to be checked by paramedics on scene.

I examined the accident scene and observed that both vehicles were resting on their wheels and the positioning of the vehicles was consistent with both drivers' statements.

I determined that a mechanical failure was not caused of the crash and driver error was the cause of the accident.

Both vehicles were released to their owners and both vehicles were driving off without the need of

NARRATIVE**Narrative:**

On November 13, 2017 at approximately 0950 hours, I was dispatched to the Tesla Gigafactory located at #1 Electric Avenue in the Tahoe/Reno Industrial Center area of Storey County in reference to a theft. Upon arrival, I met with safety manager for PCI Construction identified as [REDACTED]. [REDACTED] stated that some tools belonging to the company and individual workers had been taken from a locked cage inside the D-Prime area of the gigafactory sometime during the weekend. [REDACTED] stated that someone had cut the lock from the cage and taken the tools.

On November 14, 2017, [REDACTED] called the business office and advised that one of the workers had cut the lock to gain access to the cage to obtain a tool. He then took the rest of the tools out of the cage and placed them in a locked room so they would not be stolen. [REDACTED] stated that all the reported tools were now located.

NARRATIVE

Page 1

17-1005

Narrative:

On November 28, 2017 at approximately 2321 hours, while patrolling McCarran, Storey County, Nevada, Storey County Communications advised me that Tesla security called and requested a Deputy for a found unknown substance they believed to be drugs.

Upon my arrival at 1 Electric Avenue, Tesla security handed me a bag containing what appeared to be a green pipe. Security stated one of the cleaning personnel found the "drugs" in a couch located in one of the offices and immediately reported it to Tesla security. Security stated they put the "drugs" in a bag for safe keeping and stated they, security, did not positively know who the "drugs" belonged to. I took custody of the bag and cleared from Tesla.

While at the Storey County Sheriff's Office Sub-station in Lockwood, Storey County, Nevada, I opened bag and observed only a green pipe commonly used for smoking drugs with. I checked the bag thoroughly and did not find anything else in the bag. The pipe had an unknown burnt substance in the bowl with no odor.

I photographed the pipe, placed it in an evidence bag and labeled it accordingly. I placed the bag in the Lockwood Sub-station temporary evidence/storage locker, number 23.

End of Narrative.

NARRATIVE

Page 1

17-1035

Narrative:

On December 10, 2017 at approximately 1600 hours, I was dispatched to #1 Electric Avenue in the Tahoe/Reno Industrial Center area of Storey County. Dispatched advised that they had received a call from the Reno Police Department regarding a female subject identified as [REDACTED]. RPD had been contacted by [REDACTED]'s father in Virginia stating that her mental state was either altered or that it was possible that she was being held against her will. RPD had conducted a phone ping on [REDACTED]'s cell phone which showed that she was at the Tesla Gigafactory, where she was employed.

Upon arrival I spoke to security personnel at the west gate. I advised security that I would need to speak with the on duty supervisor. I was pointed to a white pickup at the location. I pulled up alongside of the pickup, and the pickup drove away. I followed the pickup to the main building where the security officer stepped out. I explained to him why I was there, and he told me that he was aware. He went on to tell me that [REDACTED] had arrived at the west gate approximately 40 minutes prior to me being dispatched to the location, and had "blown through" the gate. I asked where [REDACTED] was located and was told she was with security personnel in the conference room on the second floor of the facility. I advised that I was dispatched to do a welfare check on [REDACTED] and I would need to speak with her. Security personnel advised me that they had been instructed by Head of Security Andrew Ceroni to not allow me to go to the second floor of the facility where [REDACTED] was located. I advised security that I was dispatched for a lawful purpose and at the request of another law enforcement agency, and it did not matter if I went to [REDACTED]'s location or she came to me, but I would need to speak with her face to face.

I then went into the badging area and spoke with additional security personnel who advised that [REDACTED] had arrived at work early, around 5-530 in the morning. She later left. She returned and drove through the gate instead of stopping as required. When she arrived, she went to the conference room where she had sat down and remained. There was a crisis counselor currently speaking with her, but she was described as "out of it."

I then spoke with [REDACTED]'s supervisor that advised that if needed they would provide statements. I advised the supervisor that statements would be determined after speaking with [REDACTED], however, I would need to speak with decker concerning her welfare so I could report back to the Reno Police Department who had requested the welfare check. He stated that he understood. I then asked him if he could briefly tell me what was going on. He described [REDACTED] as a 80/20 employee, explaining that 80% of the time, [REDACTED] is an excellent employee who performs great. He stated that the other 20% of the time she gets frustrated with projects and requests to be taken off a project and put on another one. On Thursday, she became extremely frustrated and disruptive to the point where she was asked to go home for the weekend. She was told to go back home to the bay area and come back on Monday when her behavior would be discussed in a meeting with himself, decker and the Human Resources department. [REDACTED] returned to work on Saturday and seemed distant, but nothing to cause concern. On today's date she arrived for work, left, returned and went to the conference room.

During the conversation, security would advise that they were attempting to get [REDACTED] to come down to speak with me. I was then advised that [REDACTED] was refusing to come to my location so they would escort me up. I was then advised that [REDACTED] was being incoherent. I asked if [REDACTED] had made any statements about possibly harming herself and I was told that she did not. For precautionary reasons, I requested that dispatch page out the Storey County fire Department and have them stage in the parking lot while I

made contact with [REDACTED]. I had prior knowledge that Firefighter/Paramedic Dan St. Clair was on duty at Station 75, which services the TRIC area. I have worked on incidents with St. Clair in the past and he has an excellent rapport with patients.

I was taken to the conference room where [REDACTED] was located. I was told that Ceroni did not want me up there and was en route to the facility. I sat down with two other security personnel, one female, in the room. I introduced myself to [REDACTED] and advised her that she was not in any trouble. I told her the reason that I was there was because I was requested to conduct a welfare check on her. I asked her if she knew why anyone would be concerned with her welfare. She advised "because they love me." I told her that I agreed with that and asked her what was concerning her today. She started to giggle and did not answer the question. I asked her if anything had happened recently that had caused her any concern and she stated that she had once been through a "traumatic experience" but would not elaborate. I asked her if she was considering hurting herself and she stated that she was not. I asked if she would want to go to the hospital and speak with a doctor about what was concerning her and she stated no. I then told her that she seemed a bit out of sorts and I was concerned for her. She then began drawing on the table with her finger and did not seem to understand my question.

Ceroni arrived and came into the room. He immediately dismissed the two security personnel in the room and sat down next to me. When Ceroni sat down, I could smell the odor of alcohol coming from his person. Ceroni began asking questions of [REDACTED] asking her if she had been working a lot and getting enough sleep. Instead of answering Ceroni's questions, [REDACTED] would instead sing the Tanya Tucker song "Delta Dawn." He was also asking her where her work area was. I asked [REDACTED] if she would be interested in speaking with my friend Dan from the fire department that worked on the ambulance and she nodded her head yes. At this time I requested that the paramedics respond into the room to evaluate [REDACTED].

Captain Fritz Klinger, Firefighter/EMT-I Zak Harjes and St. Clair arrived. Klinger and Harjes began taking vitals on [REDACTED] and I requested to speak with St. Clair outside to brief him. When we reentered the room, I told [REDACTED] that Dan had arrived and would she speak to him. She nodded yes.

St. Clair took a seat next to [REDACTED] and began to speak with her. [REDACTED] immediately began responding to St. Clair's questions. St. Clair asked her if she knew where she was at and she told him "Reno." St. Clair told her she was not in Reno and told her that he was going to tell her a sentence that he would like repeated back to him. He then told her "You can't teach old dogs new tricks," which she repeated. He told her that he wanted her to remember the sentence because he was going to ask her to repeat it to him later. He was conducting a basic examination on [REDACTED] including having her squeeze his hands and asking her question. Some questions were answers and others weren't. After approximately 2 minutes, St. Clair asked Decker to repeat the sentence he had told her earlier and she could not remember. He asked her if she was having thoughts of harming herself or anyone else and she stated no. St. Clair then told her that he thinks she should go to the hospital to talk with a doctor because he believed something was going on with her. [REDACTED] agreed. She then voluntarily walked to the ambulance.

At the ambulance, [REDACTED] was placed in the back with Harjes as I spoke with St. Clair. St. Clair advised me that her vital signs were good, other than her blood sugar being low, but that she was definitely

altered mentally. He advised that he did not feel good about leaving her without being evaluated. While we were speaking, the side door of the ambulance opened and Harjes advised that [REDACTED] did not want to go to the hospital anymore and wanted to leave. St. Clair then went to the door and began speaking with [REDACTED] about going to the hospital and that he would ride with her in the back of the ambulance. St. Clair then advised me that he believed that he may need to sedate [REDACTED] and had Klinger prepare a syringe. St. Clair was having success in speaking to [REDACTED] about voluntarily going to the hospital again when Klinger handed him the syringe. Ceroni, who was outside with us began saying "I don't agree with this," and began walking up towards the side door of the ambulance where we were speaking with [REDACTED]. I told Ceroni that he needed to step back and placed my arm out to restrict him from interrupting St. Clair. Ceroni stepped back. St. Clair advised that we needed to go because [REDACTED] was compliant at that time and he did not think that she would need to be sedated. St. Clair requested that I follow the ambulance to the Northern Nevada Medical Center in Sparks.

While en route to NNMCM, dispatch transferred a call to my cell phone from [REDACTED]'s father, [REDACTED], who was calling from Virginia. [REDACTED] advised that [REDACTED] began acting strangely on Thursday and wasn't responding to text messages like she had in the past. [REDACTED] advised that her texts were short and not very elaborate which is not usual. [REDACTED] went on to tell me that [REDACTED] is a brilliant girl who had a college degree and was honorably discharged from the Navy as an officer in 2016. He stated that due to her response to text messages and how she was speaking to him and his mother strangely, they had become concerned that she had either had been drugged or someone had taken her and she was being held against her will. I assured [REDACTED] that [REDACTED] was safe and that it did appear that her mental state was altered and she was being transported voluntarily to the hospital. I gave him the name of the hospital where he could make contact.

Upon arrival at the hospital, St. Clair advised that he believed that the "traumatic incident" that [REDACTED] had reported to me may have been a sexual assault. I asked if she had made any statements regarding an assault and he stated that she had not. He told me that he was concerned because she had taken an instant dislike to Harjes, who is in his early 20's. St. Clair also stated that when he would touch [REDACTED] to evaluate her vital signs, she would become scared and pull away from him. He stated that he would explain to her everything that he would be doing to her, (taking a blood pressure, checking her pulse rate, etc.) He stated that it was his experience that victims of sexual assault react this way towards males following a sexual assault. All information, including the conversation with her father, was given to hospital personnel.

Statement x1

Photographs

Narrative:

On December 19, 2017 at approximately 1737 hours, I was on routine patrol in the Tahoe Reno Industrial Park area of Storey County, Nevada. I was dispatched to 1 Electric Avenue (Tesla) main gate for a report of a single vehicle traffic accident.

Upon arriving on scene, I spoke with the driver ([REDACTED] DOB: [REDACTED]), stated that as she was driving on Electric Avenue leaving the Tesla property, a horse entered from the right side of the roadway causing her to side swipe the horse with the right side of the vehicle. The vehicle in question (1999 Chevrolet Tahoe bearing California license # [REDACTED] which has been expired since 03/20/2016) had recently been purchased by Baumgardner's husband. Baumgardner admitted that the vehicle was unregistered. [REDACTED] also failed to provide current proof of insurance for the vehicle.

Observations of the scene revealed cloudy weather conditions, dark, unlighted roads and dry, asphalt road surface. The above mentioned vehicle stopped approximately one hundred and fifty yards west of the Tesla main gate and was facing west with moderate damage to the right side of the vehicle and a broken windshield on the passengers side. The area of impact was approximately three hundred feet behind the vehicle. At the area of impact, I was unable to observe any wheel lock skid marks.

There was a brown horse on the right shoulder of westbound travel lane number two that was still breathing and was severely injured and unable to stand up. Utilizing my department issued twelve gauge shotgun, I successfully dispatched the horse. The horse was off of the roadway and not creating a traffic hazard.

No additional vehicles were involved.

The Storey County Fire Department arrived on scene and determined that there were no injuries.

I issued Baumgardner citation #STSO04540 for violation of NRS482.545 Unregistered Vehicle and NRS 485.187 No Proof of Insurance.

[REDACTED] was provided with case #17-1058 along with instructions for obtaining a hard copy of this case.

[REDACTED] drove the vehicle off of the scene and Storey County Public Works was advised of the deceased horse.

Nothing further.

17-1061

On December 20, 2017 at 1755 hours, I was dispatched to a non-injury accident located at 1 Electric Avenue; in the private property of Tesla located in TRI McCarran, Storey County Nevada. The reporting party was identified as Tesla Security.

Upon arriving on property, Tesla security advised me that the accident was minor in nature, and both vehicles had moved off the side of the road after impact. There were no injuries involved and the Storey County Fire Department (FD) had already made contact with both drivers, and were clearing the scene. Upon arriving at the scene of the accident, I observed a 2016 blue sports utility vehicle (suv) bearing Nevada license plate [REDACTED], and a 2015 black Chevy truck bearing California plate [REDACTED] parked off the side of the roadway, with both drivers exchanging information.

The driver of the blue SUV (V1) identified by his Nevada driver's license as [REDACTED] indicated that he was traveling in lane 2 of the road when the driver of the black truck attempted to turn into the parking lot; while traveling in lane 1. As the truck was attempting to make a right turn, it made contact with the front driver fender of his vehicle. Upon inspection of his vehicle, I observed minor damage to the front driver side fender and side marking light. No other damages were seen on the vehicle, and it was in working driving condition.

As I was initiating my assessment of the incident, [REDACTED] repeatedly advised me that he was in a hurry, and needed to leave as soon as possible in order to make a flight out of town. I advised [REDACTED] that I would do what I could to help assist him in expediting the preliminary assessment, but he would have to wait patiently until I could gather the initial portion of the investigation. Tesla Security advised me that they actually had video of the incident, so after clearing his vehicle and identification from dispatch, I completed my photographs of his vehicle and the initial area of the accident and gave [REDACTED] a statement to fill out at a later time. I then released him from the scene.

The driver of the black truck (V2) identified as [REDACTED] indicated that she was in lane 1 attempting to make a right hand turn into a parking lot, when Bronitsky had tried to pass her on the right. As she was initiating her turn into the parking lot, the front passenger side fender and tire made contact with [REDACTED]'s vehicle (video feed shows her vehicle slowing for the turn with blinkers on). [REDACTED] advised me that prior to her turning into the lot, there is only one travel lane, and that it doesn't turn into two lanes until after the parking lot opening. Upon observing her vehicle, there were minor damages to the passenger side bumper and fender. There were noticeable scratches on the passenger fender, and the passenger side wheel showed moderate contact damage and indications of a bent or broken axel. After giving [REDACTED] a statement to fill out, I took photos of her vehicle, and started my initial traffic investigations.

From the opening of the parking lot, there is only one through way lane marked. It is 167.10 ft of solid white line from the beginning of where lane 2 is created until it becomes broken white; as a secondary lane. It is 120ft from the beginning of where lane 2 is created until it meets the parking lot. Lane 2 doesn't become a clear second lane until after the parking lot entrance (Parking lot entrance to beginning of lane 2 broken white lines is 47ft. See photos for lane reference). After taking photos of the roadway and lanes, I made contact with Tesla security, where they provided me with footage of the incident.

Based on the photos and the layout of the incident, the lane markings indicate that there is only one visible lane up to where the parking lot intersects. Lane 2 does not become a full lane until after the

Page 2

17-1061

entrance of the parking lot. Although the roadway in question is on private property, it appears that V1 entered the lane prematurely (breaking the solid white line) before it became a secondary lane; therefore coming into contact with V2, as it was trying to negotiate it's turn into the parking lot. Upon viewing the video surveillance, it shows V1 (at 35-45 seconds into video) attempting to pass to the right of V2.

Based on the completion of the investigation and footage of the incident, V1 was at fault for prematurely entering into lane 2, when passing on a solid white line. No diagram was created due to non-injury incident. Bronitsky indicated that he will turn in a completed statement at a later date.

NOTE: on video surveillance, the incident occurs on the upper top left corner where the white lights are. At 25 seconds into the video watch for the 2 vehicles behind a white car behind a bus. V2 is behind the white car, and V1 is directly behind V2. V2 attempts to pass on the right at 35-45 seconds into the recording.

Nothing Further.

NARRATIVE

Page 1

17-1069

On 12-24-2017, I was patrolling the Virginia City Township in Storey County NV.

At approximately 1200 hrs, I was dispatched to the report of an assault. I met RP- [REDACTED] at the Sheriff's Office and she told me the following in summary:

[REDACTED] said she used to work at the Tesla plant on 1 Electric Ave in McCarran NV. Fondi said on 12-18-2017 at approximately 1100 hrs, she was working with a co-worker she only knows as [REDACTED] (also referred to in her handwritten statement as [REDACTED]). She said she has worked with [REDACTED] before and they often joke around.

She said on the above date, [REDACTED] "bossed" her around by telling her to get some tape. [REDACTED] jokingly told [REDACTED] "Get the damned thing yourself". [REDACTED] stated [REDACTED] then held a pair of scissors up at shoulder height and said "I will cut you". [REDACTED] said [REDACTED] has done this before but assumed she was joking. [REDACTED] said when [REDACTED] did this a second time, the look on [REDACTED]'s face scared her.

After lunch, [REDACTED] said she notified her Lead ([REDACTED], unknown last name) of what had happened. [REDACTED] said she assumed [REDACTED] would take care of the situation.

At the end of her shift, she left work and went home. On 12-21-2017, [REDACTED] returned to work and discovered her work badge did not work. [REDACTED] learned she had been terminated for poor productivity and a no call, no show.

I asked [REDACTED] if she felt threatened when [REDACTED] held the scissors and said "I will cut you". [REDACTED] said [REDACTED] has done it before jokingly, but the second time [REDACTED] had a look on her face which "scared" [REDACTED].

I asked [REDACTED] why she didn't call the Sheriff's office when it occurred and she said she thought [REDACTED] was going to handle it. I asked [REDACTED] why she waited until 12-24-17 to make a report if the incident happened on 12-18-17 and she was fired on 12-21-17. [REDACTED] said she just wanted this incident "documented".

[REDACTED] provided six pages of documentation which she wanted attached to this report. The vast majority of her written document had nothing to do with the alleged incident, but rather her attempting to show she was wrongfully terminated. I scanned and attached the six pages to this report. [REDACTED] also filled out the top portion of a Statement Form with "See Attached" (referring to the six pages) written in the space for her statement. I scanned the Statement Form and attached it to this report.

On 12-24-17, I called and spoke to Tesla Security asking if there were any incidents reported on 12-18-17 involving [REDACTED]. According to Tesla Security, there were no incidents documented on that date involving Fondi. Tesla Security was unable to provide me any information on Leads or Supervisors named '[REDACTED]' or employees named '[REDACTED]'.

After hearing [REDACTED]'s statements and reading her six pages of documentation, I believe [REDACTED] is requesting a crime report in an effort to show she was wrongfully terminated from Tesla. The fact that she waited 6 days from the time of the alleged incident, and 4 days after being fired from Tesla before requesting a crime report,

shows she does not fear for her safety.

Since [REDACTED] has not provided me with enough information (last names), I am unable to do any additional follow up. I am closing this investigation as un-founded.

On January 9th 2017 at approximately 0727 hours I was dispatched to 1 Electric ave. (Tesla) an area of Storey County, Nevada for a hit and run report.

Upon arrival to the above location, I met a male subject later identified as [REDACTED] who stated his vehicle had damage. I observed a black Ford Explorer bearing Nevada license plate 36H155 parked near the visitor parking area on the west side of Telsa.

I noted there was white paint transfer on the driver side mirror. I also noted there was white paint transfer on the bottom driver side of the vehicle and it extended to the rear of the vehicle. I observed the molding of the vehicle on the driver side to be damaged. [REDACTED] stated he got off at work at around 6am and noticed the damage on his vehicle. I asked [REDACTED] if there was any damage to his vehicle before this incident, he said no.

I spoke with Tesla security and asked if they had video of this incident. Tesla security stated they put in a video request and would notify me if they find video evidence.

Nothing Further.

NARRATIVE:

On January 10, 2018 at approximately 1100 hours, I was dispatched to a walk in report located at the Storey County Sheriff's Office, 205 South C Street, Virginia City, Storey County, Nevada.

Upon arrival I made contact with a subject, identified by his Nevada driver's license, as [REDACTED]. [REDACTED] stated he had been involved in a motor vehicle accident and would like to file a report. I asked [REDACTED] when and where the alleged accident occurred. He stated the accident occurred on October 28, 2017 on Tesla property, 1 Electric Avenue, Sparks, Storey County, Nevada. He stated the alleged driver of the other vehicle rear ended him. He stated the alleged other driver provided him with his name, contact information and insurance policy number.

[REDACTED] stated that when his insurance attempted to contact the other driver's insurance company, they stated the policy could not be found. I asked [REDACTED] why he waited so long to file a report. [REDACTED] stated he had been busy. I explained to [REDACTED] that the accident occurred on private property and both vehicles had been moved, so I would be unable to investigate properly. [REDACTED] stated he only wanted to file a report. I asked [REDACTED] for the other driver's information, which he provided. I attempted to contact the other driver, [REDACTED] via telephone. I left a voicemail requesting he return my call. As of January 11, 2018 he has not returned my call.

Due to this accident being on private property, time that has passed and lack of ability to investigate, this case is closed as information only.

No further information at this time.

Statement x2

Narrative:

On February 1, 2018 at approximately 0639 hours, I was on routine patrol in the Lockwood area of Storey County, Nevada. I was dispatched to 1 Electric Avenue (Tesla) for a reported motor vehicle accident on their property. I was notified by dispatch that the vehicles involved had already been moved.

Upon arriving on scene, I made contact with a female subject, identified as [REDACTED], who stated that she was driving northbound on Tesla property on a roadway which provides access to Tesla's parking areas for employees and contractors. This road was referred to as "North gate Road". While traveling northbound, a vehicle leaving the employee parking lot pulled out and struck the passenger side of [REDACTED]'s vehicle, a white Kia sedan bearing Nevada license # [REDACTED], causing damage to the passenger side doors, front right fender and front right wheel. [REDACTED] could not provide current proof of insurance. [REDACTED] identified a male subject on scene as the driver that struck her vehicle.

I made contact with the male subject who identified himself as [REDACTED]. [REDACTED] stated that he was leaving the parking lot and did not see a car in front of him. When he pulled out he struck the passenger side of [REDACTED]'s vehicle with his front bumper. [REDACTED] did not have a valid driver's license and could not provide current proof of insurance. The vehicle he was driving, a red Dodge four door bearing California license # [REDACTED], was registered to his sister.

All parties involved were cleared of any injuries by the Storey County Paramedics.

[REDACTED] was determined as being the at fault driver.

Both parties filled out voluntary statement forms.

Photographs of the scene were taken.

Both vehicles were not towed and left in the possession of the driver's.

Due to the incident occurring on private property in which the public does not have access, no citations were issued and a Form 5 was not completed.

Nothing further.

18-98

On February 06, 2018 at approximately 1757 hours, I was dispatched to Electric Ave for a none injury motor vehicle accident. Upon arrival, I observed two vehicles in the number #1 lane facing to the east approximately 100 yards west of the north entrance to Tesla. The Storey County Fire Department was already on the scene and assessing driver's, both of which indicated no injuries. Vehicle #1 bearing NV license plate [REDACTED] had major damage to it's front end and was operated by [REDACTED]. [REDACTED] was identified by her NV driver's license which was revoked. Vehicle #2 bearing NV license plate [REDACTED] had minor damage to it's rear and was operated by [REDACTED]. [REDACTED] was identified by his NV driver's license.

[REDACTED] stated she was traveling eastbound on Electric Ave and traveling 40 mph when traffic came to a sudden stop. [REDACTED] stated a water bottle fell on the floor board so she reached down to grab it and as she raised her head back up she rear ended the vehicle in front of her.

[REDACTED] stated while approaching the Tesla security gate in heavy traffic his vehicle was struck from behind by a driver in a Nissan Altima Coupe.

The accident scene consisted of debris from [REDACTED]'s vehicle. There were no visible skid marks. [REDACTED]'s vehicle had gray paint transfer on the lower portion of his rear bumper.

[REDACTED] was issued a citation for driving on a revoked driver's license and following too closely. [REDACTED] complained of no injuries. [REDACTED] initially indicated no injuries however later complained of being sore near his chin. [REDACTED]'s vehicle was removed off the scene by Milne Towing. [REDACTED] removed his vehicle off the scene as it was operable.

Nothing Further.

Statement x2

Photographs

Narrative:

On February 24, 2018 at approximately 1006 hours, I was on routine patrol in the Tahoe Reno Industrial Park area of Storey County, Nevada. I was dispatched to 1 Electric Avenue (Tesla) for a past tense motor vehicle accident.

Upon arriving on scene I made contact with two male subjects who identified themselves as [REDACTED] (Driver 1) and [REDACTED] (Driver 2). I spoke with [REDACTED] first who stated that he was driving through the east parking lot of Tesla down a main aisle when a second car pulled out in front of him and struck the front right side of his vehicle, a 2018 Honda sedan bearing Nevada license # [REDACTED] (Vehicle 2). I was advised by [REDACTED] that the vehicle as a rental car from Hertz LLC.

I spoke with [REDACTED] who stated that he saw [REDACTED]'s vehicle and attempted to stop but was unable to and struck [REDACTED]'s vehicle.

Prior to my arrival, both vehicle's had been moved. I spoke with both parties in Tesla's Security Office,. I was advised by dispatch that the Storey County Fire Department had arrived on scene earlier and cleared both parties from injuries. Both parties were alone in the vehicle's at the time of the collision.

Tesla security advised me that they had video footage of the incident. I personally viewed the video and discovered that [REDACTED]'s vehicle, a 2014 Subaru bearing California license # [REDACTED] (Vehicle 1), was traveling north in a travel lane between parked cars. As [REDACTED]'s vehicle approached an intersection perpendicular with the main road of the parking lot, he failed to yield and struck the right side of [REDACTED]'s vehicle.

Based off of the video footage I determined that [REDACTED] was the at fault driver and that [REDACTED] had the right of way. Tesla has painted white lines at the end of each row where the intersect with the main travel lane of the parking lot.

Both [REDACTED] and [REDACTED] escorted me to their vehicles as well as the area of impact which was located in the east parking lot at muster point number four which is identified by a sign. Photographs of the area of impact were taken.

[REDACTED]'s vehicle had damage to the front right quarter panel while [REDACTED]'s vehicle had damage to the front left quarter panel which was consistent with the video footage.

Tesla advised me that they were not authorized to release the video to me at the time and would notify their legal team who has the releasing authorization.

Photographs were taken of both vehicles.

Both [REDACTED] filled out voluntary statement forms.

18-142

Due to the collision occurring on private property in which the public does not have access, a NHP Form 5 was not completed and this incident was identified as a traffic incident only, not a traffic accident.

Both [REDACTED] were given case #18-142. I notified [REDACTED] that I determined him to be the at fault driver.

Both vehicle's were drive able and remained in [REDACTED]'s possession.

Nothing further.

On February 26, 2018 at approximately 0601 hours, I was dispatched to 1 Electric Ave (Tesla) an area of Storey County, Nevada for a motor vehicle accident.

Upon arrival to the above location, I observed a silver sedan bearing Nevada license plate # [REDACTED]. I also observed a white sedan bearing Nevada temporary [REDACTED]. Storey County Fire District was already on scene accessing patients.

I observed the silver sedan with minor front and rear driver side damage. I observed the white sedan to have minor rear passenger side damage. I spoke with the driver of the silver sedan identified as [REDACTED]. [REDACTED] stated was driving in the round about on Tesla property when a white vehicle sped through the round about. [REDACTED] stated the white vehicle hit his vehicle on the driver side. [REDACTED] stated he was uninjured. Dispatched also advised [REDACTED] s registration on his vehicle was suspended.

I spoke with the female driver of the white sedan later identified as [REDACTED]. [REDACTED] stated she was driving through the roundabout on Telsa Property and the silver sedan merged into her lane. [REDACTED] stated she was uninjured.

I had both subjects fill out statement forms. Due to conflicting statements and lack of video surveillance I was unable to determine the at fault driver.

Nothing further.

NARRATIVE:

On March 23, 2018 at 0730 hours, Deputy Azevedo and I were dispatched to a felony warrant service(s) at the Tesla Giga-factory located at 1 Electric Avenue; in the area of TRI McCarran, Storey County Nevada. Per Sergeant Kern, The Felony Warrant services were for two Tesla contract workers that were currently on the job site. The suspects listed on California warrants 18-NF-002566-A and 18-NF002566B were identified as Bradley William Jasperson and Jentry Jasperson.

Upon making contact with Tesla Security, we were advised that both suspects were currently on site. At 0851 hours Deputy Azevedo and I made contact with both Bradley and Jentry Jasperson. Upon verification of identity and conformation of the above mentioned warrant, both suspects were placed under arrest. Case number 18-222 was assigned to Bradley Jasperson's warrant, and Deputy Azevedo took charge of Jentry Jasperson and Case number 18-223 was assigned to Jentry's warrant. Bradley and Jentry were both handcuffed with the locking actuator(s) engaged with a systematic and thorough search conducted.

Various work items and articles of clothing were given to Security staff to place in Jasperson's vehicle. Jasperson also made arrangements for his vehicle to be picked up and the keys were turned over to Security for safekeeping. Both suspects were then placed in the back seats of our patrol unit and transported to the Storey County Detention Center without incident.

Nothing Further.

Warrant

Narrative:

On March 23, 2018 at approximately 0742 hours, Deputy Glowniak and I arrived at 1 Electric Avenue (Tesla) in regards to two active felony warrants out of San Mateo County, California for Jentry Jaspersen and Bradley William Jaspersen. We were advised that the subjects were believed to be working on Tesla's property.

Upon arriving on scene, we made contact with Tesla Security who were able to locate Jentry and Bradley Jaspersen. Both subjects were brought to the "Squaw" office building on Tesla's property where Deputy Glowniak and I were standing by.

I made contact with Jentry. Jentry stated that she did not have her identification on her but provided her first and last name, date of birth and social security number. Dispatch was able to confirm the identity of Jentry.

Dispatch advised that Jentry's warrant was confirmed and extraditable out of the State of Nevada. (Warrant #18NF002566B).

Jentry was placed under arrest for the active felony warrant. My Peerless hinged handcuffs were applied, checked for tightness and double locked by Deputy Glowniak.

Bradley's identity was confirmed utilizing his Utah Driver's License. Bradley's warrant was also confirmed and he was placed under arrest by Deputy Glowniak (see case #18-222) for further details).

Jentry's personal property was placed into a bag by Tesla Security in the presence of Jentry. Jentry authorized the belongings to be released to a coworker.

Jentry and Bradley arrived to work driving a coworker's vehicle. The vehicle keys were given to Tesla Security. Tesla Security confirmed the vehicle owner to be on their property and notified the vehicle owner.

Jentry was transported to the Storey County Detention Center without issue.

Nothing further.

18-228

On March 24, 2018 at approximately 0814 hours, I was dispatched to 1 Electric Ave (Tesla) for a worker that may have a gun.

Upon arrival to the above location, I and Deputy Glowniak met with Tesla Security who escorted me to the main security office located inside Tesla.

Tesla security stated a male subject later identified as [REDACTED] showed a female coworker a handgun that was located inside his backpack. This unknown female subject reported this to her supervisor who contacted Tesla security.

Tesla security contacted their supervisors and brought [REDACTED] to the security office. When [REDACTED] entered the room I checked him for weapons. I asked [REDACTED] if he had brought any weapons with him to work. [REDACTED] stated he had an air soft pistol in his backpack. Tesla security later brought in the backpack. I asked [REDACTED] if it was okay with him if I checked his backpack for the weapon. [REDACTED] verbally stated I could check his backpack.

Inside the backpack Deputy Glowniak found what appeared to be a handgun. Upon further inspection it turned out to be an air soft pistol.

I asked [REDACTED] why he would carry a real or fake gun to work. [REDACTED] stated he used to be part of a gang and feared retaliation because he left the gang.

Tesla security was advised by their supervisors to contact a cab company and have [REDACTED] leave the property. Tesla security stated they did not need our assistance as [REDACTED] was being cooperative.

Nothing Further.

Statements x2

Photographs

Narrative:

On March 29, 2018 at approximately 0725 hours, I was on routine patrol in the Tahoe Reno Industrial Park area of Storey County, Nevada. I was dispatched to 1 Electric Avenue (Tesla) for a reported motor vehicle accident that occurred on Tesla's property.

Upon arriving on scene I made contact with [REDACTED] (Driver 2). [REDACTED] who was driving a gold color Ford sedan bearing Nevada license # [REDACTED] (Vehicle 2), stated that he was traveling northbound on Tesla's property when a vehicle driving north on his left crossed into his lane. The front left of [REDACTED]'s vehicle made contact with the right side of the other vehicle.

I made contact with the other driver. He was identified as [REDACTED] (Driver 1). Behrens was driving a gray Toyota sedan bearing Nevada license # [REDACTED] (Vehicle 1). Behrens stated that he was traveling north in the number one lane and attempted to make a right hand turn when he was hit by another vehicle.

Both vehicle's were moved prior to my arrival.

Observations of the scene revealed an asphalt surface roadway running north to south. There were four travel lanes divided by a solid double yellow line. Roadway conditions were dry and weather conditions were sunny and clear.

I observed two northbound lanes. The area of impact was in an area where the two northbound lanes split. The number two lane turns into a right hand turn lane that was marked with white paint. The number one lane continued traveling straight. The split in the roadway was not clearly marked with signs and there were areas with fading travel lane lines painted on the ground indicating an old traffic pattern where the number one lane merged into the number two lane.

Based off of the roadway markings and the statements made by both drivers, [REDACTED] travel lane continued straight. [REDACTED] stated that he tried turning right utilizing the right hand turn lane. That action caused [REDACTED] to strike the front left side of [REDACTED]'s vehicle who was traveling in a lane that had the right of way for the turn lane.

I have determined [REDACTED] to be the at fault driver for making an unsafe lane change.

I took photographs of the scene including the reported area of impact as well as the faded lane lines that intersect with the new lane lines.

I spoke with Tesla Security about the issues with the lane marking. Tesla security advised that there used to be a barrier that bordered the new lanes, which had established a right shoulder. Those barriers had been removed prior to this incident. Tesla Security advised that they would bring the issue with the lane marking up to construction personnel on site.

Both drivers filled out voluntary statement forms.

Both drivers were provided case #18-241.

Both drivers were cleared of injuries by the Storey County Fire Department.

Due to this incident occurring on private property in which the public does not have access, this case has been labeled as a traffic incident and no Form 5 or citations were issued.

Nothing further.

NARRATIVE

Page 1

18-273

On April 11, 2018 at approximately 1746 hours, I was dispatched to Tesla's North Parking Lot located at 1 Electric Ave in Storey County, Nevada for a report of a accident involving two vehicles.

Upon arrival, I observed two vehicles facing to the North approximately 100 yards West of the Tesla Facility. The vehicles were out of the roadway and near several parking spots. Both vehicles had moderate to minor damage. The driver's were walking around their vehicles and talking with the Storey County Fire Department.

I made contact with driver #1 [REDACTED]. [REDACTED] was operating a vehicle bearing NV license plate [REDACTED], which had moderate damage to the entire front end. [REDACTED]'s vehicle was not drivable. [REDACTED] claimed no injuries and provided the following insurance information ([REDACTED] located at [REDACTED]).

[REDACTED] stated he was driving to work and observed the vehicle in front of him make a sudden stop at the crosswalk in the Tesla Parking Lot. [REDACTED] stated he collided with the vehicle.

I made contact with driver #2 [REDACTED]. [REDACTED] was operating a vehicle bearing NV license plate [REDACTED], which had minor damage to it's rear bumper. [REDACTED]'s vehicle was operable. [REDACTED] claimed no injuries and provided the following insurance information ([REDACTED]).

[REDACTED] stated he was traveling up towards a crosswalk in the Tesla Parking Lot when two construction workers started to cross. [REDACTED] stated he hit the brakes and was rear ended. [REDACTED] stated he then pulled to the side of the road.

[REDACTED] did not allow a safe distance between his vehicle and [REDACTED]'s vehicle, thus causing a rear end collision. Both [REDACTED] and [REDACTED] exchanged insurance information. [REDACTED] had his vehicle towed. [REDACTED] removed his vehicle off the scene as it was operable. The incident did occur on private property. The vehicle's were moved off the scene by the driver's.

Nothing Further.

18-344

On May 1, 2018 at approximately 0948 hours, I was dispatched to 1 Electric ave area of Storey County, Nevada for a trespassing report.

Upon arrival to the above location, I met with Gouthro, Sean who is an investigations supervisor for Tesla. Gouthro escorted me to a room were I meet two representatives from Panasonic [REDACTED] and [REDACTED].

[REDACTED] and [REDACTED] stated they have concerns about [REDACTED] who is a former employee who is threatening [REDACTED] who is a current employee for Panasonic.

[REDACTED] stated [REDACTED] was terminated from Panasonic on [REDACTED] and returned to the Tesla property on [REDACTED] during the late afternoon. [REDACTED] showed me a copy of a letter [REDACTED] wrote to Panasonic human resources. In the letter [REDACTED] states [REDACTED] made a threat to her stating he would harm anyone that talked to her. [REDACTED] and [REDACTED] also stated [REDACTED] had told them [REDACTED] would hurt or kill any male employee who talked to her.

[REDACTED] and [REDACTED] wanted to have this documented and to see what could be done to prevent [REDACTED] from coming on the property. I told [REDACTED] and [REDACTED] I would have to contact [REDACTED] and let him know he was trespassed from the Tesla Property. I asked how [REDACTED] was getting on property if he had to check into the front gate. [REDACTED] stated they put [REDACTED] on suspension before terminating [REDACTED] over the phone. [REDACTED] stated they asked terminated employees to mail in their Tesla badge.

On May 2, 2018 I attempted to make contact with [REDACTED] at his residence but was unable to make contact. I also called [REDACTED] via his telephone and left a voice mail. A short time later [REDACTED] called the Lockwood substation and I verbally trespassed him from Tesla property at 1 Electric ave. [REDACTED] also stated he did not have his Tesla badge anymore.

Nothing Further.

Attachments: Email

On May 15, 2018 at approximately 0802 hours, I was dispatched to 1 Electric ave (Tesla) an area of Storey County, Nevada for a theft report at Briggs Electric trailer.

Upon arrival to the above location, I met with a [REDACTED] who is the Director of operations for Briggs Electric inc. and another Briggs Electric employee who handed me a printed email. I read the printed email and also spoke with [REDACTED] [REDACTED] summarized what had happened over the last few weeks.

[REDACTED] stated in his email a Briggs Electric foremen named [REDACTED] was working in project areas D&E when he noticed his Microsoft Surface Pro Core E tablet (S/N: [REDACTED]) was missing from his mobile office located at A-90 2F E Quad of the Tesla building. [REDACTED] was filling out time cards on the tablet when he had to step away from his mobile office. [REDACTED] left his office at 12:30 pm and returned at 12:40pm. When [REDACTED] returned he noticed his tablet was missing. [REDACTED] originally thought co-workers were playing a prank on him as it is known the tablets have a tracking software called "Prey" installed on them.

[REDACTED] reported the tablet as missing and using the tracking software the tablet still showed inside the Tesla Gigafactory. The tablet stopped giving a signal back and it was assumed the battery died.

[REDACTED] contacted Halladay, Kristopher a Investigations Case Specialist for Tesla Security to see if they have security cameras in the area. Halladay responded in an email stating they do not have cameras yet in that section of the building. Halladay also responded in an email and told Briggs Electric they did an investigation of the laptop but did not have enough information to complete the case.

[REDACTED] followed up with an email to Halladay telling him Briggs Electric IT Department Manager [REDACTED] had been periodically checking the Prey software to see if there was an update on the tablet's location. [REDACTED] states in his email there was no activity until May 4th 2018. [REDACTED] was working on another computer when he noticed a notification from the Prey software. The Prey software located the tablet near Winnemucca, Nevada. The gps coordinates located in Winnemucca were Latitude - 177.7830156 and Longitude 40.9229651 which are in the area of Comstock drive in Winnemucca, Nevada. The Prey software also took several pictures of the person who was using the tablet. The picture appears to be an adult Hispanic male with short black hair and a left ear piercing wearing a black muscle shirt.

[REDACTED] in his email states [REDACTED] accidentally hit the "found" button on the software and has not been able to track the device since. [REDACTED] also states they believe this individual works at Tesla as a contractor for Apollo Mechanical.

I contacted dispatch and had them enter the stolen tablet into NCIC database.

Nothing Further.

On May 30th, 2018 I was contacted by a Washoe County School District Police officer Megan Villa.

Officer Villa stated in an email she had an incident with a female student who attends Hug High School identified as [REDACTED] [REDACTED] was in possession of the stolen tablet when this incident occurred. [REDACTED] stated got the tablet from her roommate, [REDACTED] Officer Villa stated she believes [REDACTED] is unaware the tablet was stolen at this time.

Officer Villa checked on Facebook for [REDACTED]'s roommate. Villa states it appears to be the same subject in the Prey reports from Briggs Electric. Officer Villa also states in her email she contacted Douglas with Briggs Electric to confirm the tablet was their missing product.

Officer Villa concludes in her email that if [REDACTED] is [REDACTED]'s roommate he should live at [REDACTED] in [REDACTED]

18-387

On May 15, 2018 at approximately 0854 hours, I was dispatched to 1 Electric ave (Tesla) an area of Storey County, Nevada for a theft report from Briggs Electric.

Upon arrival to the above location, I met with a Yard Foreman for Briggs Electric on the southeast side of the Tesla building later identified as [REDACTED]

[REDACTED] stated over the last couple of weeks he has had several spools of copper wire stolen from their area. [REDACTED] pointed to another spool of wire and stated it looked like that, he pointed to a large wooden spool with black, orange and yellow in color wire. [REDACTED] stated there were two large spools of copper wire and one spool of aluminum. [REDACTED] stated the spool of aluminum was for a one time job at the Tesla factory and it should look like the other two.

I asked [REDACTED] if the only thing that was stolen was the three large spools of wire. [REDACTED] stated no, they also had about 300 feet of pre cut 50ft sections of copper wire stolen from pallets. [REDACTED] stated the precut 50 foot section of wire looked exactly to what was on the spools.

I asked [REDACTED] if he had an idea when these items were stolen. [REDACTED] stated on 04/27/2018 two of the spools were stolen and the third spool was stolen on 04/28/2018. [REDACTED] stated for the precut wire, it was the weekend of the 14th of April 2018. I asked [REDACTED] how much each spool of copper wire or aluminum would cost. Dodds stated about \$10,000 each and about \$5000 for the precut sections of copper wire.

I took pictures of the similar spools and the locations. [REDACTED] stated he would send me pictures he took of the missing spools via email. [REDACTED] also stated he had contacted Tesla security after the items when missing.

Still under investigation...

18-387

On May 16th at approximately 1050 hours, I contacted Tesla security and asked if they had any further information for this incident. Tesla stated they were aware of the missing spools. Tesla stated they do not have security cameras in that area yet. Tesla stated they did have a white in color Chevy pickup towing a trailer that had several large wood spools. Tesla security stated it stood out to them as it is rare for a large spool like that to leave the Tesla site.

Tesla security printed out a picture of the suspect vehicle with a time stamp of 04/27/2018 at 1542 hours. Tesla security also printed a picture of an area where they keep spare wire. Tesla security stated no copper wire should leave this area.

Nothing Further.

On May 21, 2018 I went to the local metal recyclers in the Reno, Nevada area. I checked with Reno Salvage, Schnitzer Steel and Western Metals Recycling.

Western Metals stated they had a subject who had recently deposited a large amount of copper wire. Western Metals gave me a video file and pictures of the subjects. In the video it shows two subjects unloading black, yellow and orange in color insulated copper wire into a recycling bin from a black in color Chevy pickup with license plate number Nevada [REDACTED]. The vehicle is registered to Morse group at [REDACTED] Las Vegas, Nevada.

Western metals stated the subjects deposited 1409 pounds of copper wire for a total of \$2240.31.

Western Metals also had a copy of a driver's license from one of the subjects later identified as [REDACTED]. Western Metals also gave me a copy of the check (#24599963) for the above amount.

I emailed Tesla security with [REDACTED]'s information and asked if he had access to the Tesla property. Tesla later stated [REDACTED] had not access to the property.

Attachments: Video Evidence

On May 22, 2018 I spoke with [REDACTED] who stated he had sent me several pictures of the missing property. [REDACTED] also stated he sent me a picture of a vehicle who has been around the property. The picture is of a white Ford Ranger bearing [REDACTED] unknown state. [REDACTED] states the type of wire missing is 500KCMIL approximately \$10,000 for each reel. [REDACTED] also stated the precut wire has an approximate value of \$5000 for a total stolen of \$35,000.

I also made a copy of the video evidence from Western Metals recycling as evidence item number 4. I placed the video evidence in Lockwood temporary locker # 28

Nothing Further.

18-401

On May 19, 2018 at approximately 0604 hours, I responded to Tesla located at 1 Electric Ave in Storey County, Nevada for a report of a suicidal subject. Upon arrival I met with Tesla security who escorted me to their office where they had the suicidal subject waiting.

I made contact with the subject identified as [REDACTED] [REDACTED] was very fidgety and acting paranoid. He was unable to relax as I asked him to sit down several times. I asked him why he was upset. He indicated he has high anxiety and was irritated while working because he thought co-workers were talking about him.

I asked [REDACTED] if he wanted to harm himself, he stated "no." I asked [REDACTED] if he wanted to harm any of his co-workers, he stated "no." I asked him several times and he gave me the same response.

Because it was reported [REDACTED] was stabbing himself with an unknown object I asked him what it was. He indicated it was a scrapper and he was not trying to stab himself. He stated he was irritated and was just pushing the scrapper towards his chest.

The Fire Department arrived on the scene and asked [REDACTED] if he wanted to be transported to the Hospital for an evaluation as they could not force him to go. [REDACTED] stated he did not want to go however would be willing to obtain information in regards to resources for subjects with mental illnesses or depression. [REDACTED] was escorted to the ambulance by Paramedics for a vitals check.

I met with the Security Manager and he informed me that [REDACTED] was going to be released for the day from work and to later meet with the Human Resources Manager to determine his future employment after the comments he made in regards to killing co-workers. The Security Manager provided me with statements provided by co-workers that overheard comments made by [REDACTED]

[REDACTED] stated she observed [REDACTED] stabbing some type of tool into the ground and saying he was going to kill everyone. [REDACTED] stated she overheard [REDACTED] saying someone was a douchebag and heard him say a bunch of other none-sense, so she and another co-worker left to get a Manager. [REDACTED] stated other co-workers started to notice what was going on and that's when she observed [REDACTED] attempting to stab himself with the unknown tool.

[REDACTED] stated she observed [REDACTED] waving a metal object in the air looking agitated and yelling. [REDACTED] stated two co-workers were trying to calm [REDACTED] down as he was threatening to kill himself while stabbing at his stomach with a putty knife. [REDACTED] stated she told [REDACTED] to knock it off and that kind of behavior was not allowed. [REDACTED] stated [REDACTED] was threatening to kill everyone. [REDACTED] stated two of the Managers arrived and asked her to leave so they could take care of [REDACTED]. [REDACTED] stated she then asked someone to call Security.

[REDACTED] stated she was informed by [REDACTED] that [REDACTED] was stabbing the floor and yelling. [REDACTED] stated [REDACTED] was scared so she went to see what she was talking about and observed [REDACTED] get up off the floor and threaten to kill everyone in the building. [REDACTED] stated [REDACTED] proceeded to take a metal scrapper and stab himself in the stomach repeatedly. [REDACTED] stated she ran and located a co-worker to notify a Supervisor.

I asked the Security Manager if he needed any further assistance, he stated " no." He indicated they would handle the situation internally from there. I advised him to contact the Sheriff's Office should they have any further issues with [REDACTED]. Due to [REDACTED]'s mental status and making threats, I have passed the information on to the north Deputies during briefing.

Nothing Further.

18-413

On May 22, 2018 at approximately 1722 hours I was dispatched to the Tesla Parking Lot in the Tahoe Regional Industrial area of Storey County, Nevada for a report of a motor vehicle accident with minor damage. Upon arrival, I met with Tesla security who was on the scene and involved in the accident.

Both vehicles were facing to the north just past the roundabout in the parking lot. The at fault vehicle was a black sedan bearing NV license plate [REDACTED]. The driver was identified by his NV driver's license as [REDACTED]. [REDACTED] was still sitting in his vehicle and stated he was not injured. [REDACTED]'s vehicle had moderate damage to it's right front. The other vehicle involved was a white truck bearing NV license plate 965C06 and registered to Tesla. It had moderate damage to it's left side rocker panel behind the cab. Black paint transfer was observed on the rocker panel. The driver was Tesla security and identified by his NV driver's license as John Kiraly. Kiraly stated he was not injured.

[REDACTED] stated he was coming out of the roundabout and veered off to the right. [REDACTED] stated he then struck a truck pulling away quickly that was in the other lane.

Kiraly stated he was operating the company truck on the Tesla site and while attempting to turn into the parking area was struck by a black volkswagen Jetta driving the same direction in the next lane. Kiraly stated the driver over drove right into the driver's side of the truck behind the cab.

Upon conclusion of my investigation, I determined that [REDACTED] failed to yield to the above mentioned truck in the next lane thus causing the accident.

Because the accident occurred on private property, [REDACTED] who was unable to initially provide proof on insurance indicated he would later give it to Tesla Security when he was able to get access to a computer.

Nielsen is Insured by [REDACTED]. The effective date is [REDACTED].

Both vehicles were operable and removed off the scene by the driver's.

Nothing Further.

NARRATIVE

Page 1

18-454

On June 03, 2018 at approximately 1933 hours I was dispatched to the north Tesla security gate located at 1 Electric Ave in the Tahoe Regional Industrial area of Storey County, Nevada for a report of a none-injury hit and run accident. Upon arrival, I met with the registered owner [REDACTED] and her son [REDACTED]. [REDACTED] advised me to follow her as the involved vehicle [REDACTED] was operating was parked near the parking lot. [REDACTED] was contacted by [REDACTED] when he realized her vehicle was struck. [REDACTED] responded to Tesla in another vehicle from Silver Springs.

The involved vehicle was a black Chrysler minivan bearing NV license plate [REDACTED]. The minivan had moderate damage to it's driver's side and was parked in a dirt construction parking lot at the northwest end of the property next to a conex box. [REDACTED] indicated he initially parked in the paved parking lot prior to his shift then after getting off shift parked in a dirt construction lot. The construction lot was not being used and there were no other vehicles other than the minivan. The driver's side rear wheel and tire was angled inward towards the body of the minivan. The tire was touching the fender with a portion of the outer tread wore away from rubbing. The outer portion of the wheel was bent inward towards the center. The front fender was dented inward near the front door. No paint transfer was observed. The vehicle did not appear to be operable due to the driver's rear wheel and drive train potentially being damaged.

[REDACTED] stated he arrived to work around 0515 or 0520 hours. [REDACTED] stated he parked the vehicle 5 rows away from the building, locked it up, and went inside. [REDACTED] stated he did not come outside the building until 1800 hours. [REDACTED] stated he wasn't paying attention to the outside of the vehicle. [REDACTED] stated he was talking to himself and listening to music. [REDACTED] stated he proceeded out of the parking lot, heard rubbing, and loud screeches. [REDACTED] stated due to the large amount of vehicles in the parking lot he didn't think it was him. [REDACTED] stated he traveled to the far dirt road speeding. [REDACTED] stated halfway down he noticed rocks in the middle of the road. [REDACTED] stated he turned the car around in a bit of rage. [REDACTED] stated he started to smell burning rubber and then felt the car rumble, but not due to rocks. [REDACTED] stated he pulled over, got out, and opened the door all the way with it getting stuck. [REDACTED] stated he parked the car, contacted his mother, and contacted Tesla Security. [REDACTED] stated he walked to the building for water and then walked back to meet his mother.

I asked [REDACTED] to show me where he parked the vehicle in the paved employee parking lot at the start of his shift. We responded to the area where he showed me two parking spaces. [REDACTED] indicated he was uncertain exactly which one he parked in. Due to the moderate damage, I checked both spaces for potential debris left behind by the another contact vehicle however nothing was observed.

I am confused how [REDACTED] did not immediately notice the moderate damage to the front fender as it was dented along with the door being reported stuck when it was opened. Additionally, the obvious angle of the driver's rear wheel and tire. As for the operation of the vehicle with moderate damage to the driver's rear wheel and the possibly the drive train, not sure how the vehicle made it from one lot to another especially when it needed to be towed. With the amount of damage and it's location on the vehicle, it was very unlikely caused by another vehicle parked next to it or traveling past it.

Unless Tesla Security is able to provide clear video surveillance of the traffic incident, I am unable to complete the investigation to determine what happened and who may be responsible due to inconsistencies.

NARRATIVE

Page 1

18-470

NARRATIVE:

On June 7, 2018 at 0045 hours, I was dispatched to a reported theft in progress at 1 Electric way; located at the Tesla Giga-factory, in the area of TRI McCarran, Storey County Nevada. Per Dispatch, Tesla Security had one suspect in custody.

Upon arriving on scene, I made contact with several Tesla Security personnel and their supervisor Chris Milburn. Milburn indicated that several witnesses on scene observed an unknown subject later identified as Briyan Salas-Suarez attempt to leave the rear docking area (Dock 9) with a pallet loaded with 6-7 giant spools of cut copper. Milburn indicated that Salas-Suarez admitted to taking the copper without authorization, and that there were others working with him still on premise. Salas-Suarez indicated to security that he was to retrieve the copper wiring and meet up with the other two unknown subjects in a white late/early 2000 Chevy pickup truck. Salas-Suarez stated that it was a white male adult and a black male adult. (See Camera footage for additional reference).

Security informed me that Salas-Suarez admitted to meeting up with the two unknown subjects a few days earlier at the Cal-Neva. The subjects promised to pay Sala-Suarez \$300.00 to assist in obtaining the wire, but changed it to \$100.00, since Salas-Suarez did not have a valid ID. They were also able to provide Salas-Suarez with a Panasonic ID. Salas-Suarez also advised Security that he and the two other subjects were able to enter the premise earlier in the day with the Panasonic badge. They then drove to where the copper wires were stored to show Salas-Suarez the location.

Based on the information received, Tesla Security personnel were given statements to complete. Milburn was given a Citizen's arrest form to complete, since the criminal activity and verbal confession was observed in their presence. Salas-Suarez was searched and placed in handcuffs with the double lock actuator engaged. He was then secured in the rear passenger seat of my patrol unit. Salas-Suarez also indicated that he had a warrant out of Reno. Dispatch confirmed the warrant, but stated it was listed as a Washoe only extradition. Salas-Suarez had several tools in his possession (misc. box cutters, a metal pick, metal shears, and an orange unmarked safety vest) and a counterfeit Panasonic ID badge and key card. Salas-Suarez stated that he was told to say he was a Panasonic/AeroTek employee tasked to move the copper wire offsite.

Upon further investigation, the ID badge was confirmed to be a counterfeit with compared to an actual Panasonic badge. Security informed me that Salas-Suarez indicated that he was in the process of being hired, but he was not a current employee. Security advised that he is not listed in their system as an actual employee (The tools, safety vest, and fake ID was seized for evidence and stored in LW temp # 19).

At 0131 hours, Deputy Hammond arrived on scene and assisted with the investigations. Security indicated that they had a report of a suspicious individual asking for a ride out of the area, and was attempting to leave. Based on the other unknown subjects involved in the current incident, Deputy Hammond attached to other security personnel to further investigate (see Case 18-471 for additional information)

Milburn indicated that an outside contractor for Tesla had witnessed Salas-Suarez attempting to remove

the copper wire from the area. The witness identified by his Texas driver's license as Lynn Frankie Thompson, indicated that he observed Salas-Suarez pushing a card of copper wires from its original resting place near the docks. When Thompson asked where Salas-Suarez was going, Salas-Suarez stated that his boss told him to take it to the end of the building. Thompson advised him to stop and to retrieve his boss. At this point Security arrived on scene and made contact with him and Salas-Suarez. Milburn advised me that there were other outside contractors that observed Salas-Suarez removing the copper wires but had already left the area.

Note: During my Field Interview with Thompson, he made several statements that there were multiple other incidents involving the removal of mass amounts of copper wire on several past occasions. Based on the information given, continual investigation into the matter will be conducted on a separate case.

Per Tesla Security, the estimated value of the seven spools of copper has an approximate value of \$13,000. Based on Salas-Suarez's admission to remove the copper wiring without authorization, and not authorized to be on site, Milburn completed a citizen's arrest form for NRS 207.200 Trespassing and for NRS 205.220 Grand larceny; (205.222 Category B Felony in excess of \$3500.00).

Itemized breakdown of property:

Description- 1 INCH DIA. BRAIDED, COILED COMMERCIAL COPPER WIRING (7ct total)

3ct. black copper wiring spools at \$1000.00 each. Total of \$3000.00

4ct. red/orange copper wiring spools at \$2500.00 each. Total of \$10,000.00

Based on the size and weight of the copper wiring, the property was authorized to remain on scene and turned over to Tesla investigation's unit as recovered property. Photos were taken of the copper wire for evidentiary purposes and released to Tesla Security (see photos and Camera footage for additional information). At 0208 hours Deputy Hammond advised me that he had the suspicious individual in custody based on an outside jurisdictional warrant and in connection to Salas-Suarez. I concluded my property and evidence inventory and met with Deputy Hammond.

Deputy Hammond indicated that Security was following the suspicious subject later identified as Rene Orlando Segarra. Segarra had matched one of the descriptions given by Salas-Suarez (Adult male with dark complexion). As security was following Segarra, they observed him tossing his wallet under a vehicle. When Deputy Hammond made contact with Segarra, he had several box cutters and a metal shear on his possession. He stated that he did not work at Tesla and had entered the site with two other individuals. Segarra indicated that he was waiting in the vehicle while they got off work. When questioned further, Segarra could not provide any reason for leaving the vehicle and walking off the property. He could not explain why he had the tools on him when he did not work for Tesla, and was unable to point out what vehicle he was in (see case 18-471 for further details). Deputy Hammond advised me that Segarra had described one of the individuals he was with as a "Fat Hispanic man wearing a dark hoodie" and a white male that was the Hispanic male's roommate.

Note: Salas-Suarez matched the description given by Segarra, and was wearing a grey hooded sweatshirt. Based on Segarra's suspicious activities and statements, I advised Sgt. Bowers of the incident and informed him that I was going to read the Miranda rights to both subjects to further

investigate the incident.

Salas-Suarez was given his Miranda rights and voluntarily informed me that he and another subject had assisted him earlier in loading the copper wire onto a cart. The other subject was loading the copper wire "super fast" and one fell down. The subject "started to tripping out" as a forklift came by. As the forklift got near, the subject started to walk rapidly away from him. Salas-Suarez indicated that he retrieved the wire that fell down and started to follow the other subject. At this point the witness (Thompson) started to ask him questions. Salas-Suarez told him that he was a Panasonic employee "like I was supposed to say" and was moving the wires. When asked about the vehicle he was in, Salas-Suarez indicated that it was a white half-cab Chevy Silverado; possibly year 2000ish model with no camper. I then had Deputy Hammond turn on the light inside his vehicle and asked Salas-Suarez if Segarra was the other person working with him. Salas-Suarez made visual contact with Segarra and nodded in the affirmative twice, and verbally said "yes"; therefore positively identifying Segarra as the other subject assisting him with removing the copper wire. When asked to re-verify, Salas-Suarez indicated that there was one other with the truck and that Segarra was with him loading the copper wires. Salas-Suarez stated that the driver of the truck was "shorter white guy with yellowy/brown hair, mid-thirties" and that he "knew the guy as James." At 0238 hours I concluded my interview with Salas-Suarez and had him sign the Miranda waiver and initiated my follow up interview with Segarra.

When initiating my interview, Segarra positively identified Salas-Suarez and stated that he knew him. Segarra indicated that he was dropped off in the front of the building by Salas-Suarez, and Salas-Suarez's roommate. He stated that the roommate worked at Tesla, and that his name was "Julio with an 'A' like Alakern or something like that" and that he "looks like a 'whiteboy' but is Mexican, with short brown hair. Segarra indicated that he knew of Salas-Suarez and his roommate because he used to be their neighbor. They had all talked about the incident in a garage, and that he (roommate) had to get the truck back; stating that there was a lot of construction work crews out at Tesla. When asked if the truck he was waiting in was a white pick-up, Segarra stated that he was waiting is a 'black' truck but later changed it to a 'black and silver truck.' When asked to elaborate, he indicated that he was dropped off out front in a black and silver truck. When asked if he was helping Salas-Suarez out in the back, he stated "no." (See Camera footage for Salas-Suarez and Segarra's Miranda interview).

Note: Segarra was found with Metal recycling business card, several box cutters, a green safety vest, and metal shears; the same contents found on Salas-Suarez. The Green vest, business card, and box cutters was retrieved from Detention on 06.10.18 and stored with other evidence pertaining to the incident (stored in LW temp #20).

At the conclusion of my investigation with Salas-Suarez and Segarra, I returned to the Tesla security office to conduct further follow-up. Milburn indicated that they may have located an employee identified as "James" that works at Panasonic and was around during the incident. I informed security to advise me when the subject is available for continual case follow-up and investigations. Security also advised me that they will have their surveillance team investigate footage to add in the investigation of the third unknown subject and for additional evidence. Statements were collected from personnel involved and case number 18-470 was assigned to the incident.

18-470

At 0303 hours, Salas-Suarez and Segarra were transported by Deputy Hammond and I to the relay point to meet with Deputy Simons. Segarra was released to Deputy Simon's custody and Deputy Simons and I transported Salas-Suarez and Segarra to the Storey County Detention Facility where they were booked without incident.

I had Segarra sign his Miranda form during his booking processing, and when Sergeant Mendoza came on shift, I advised him of the incident and requested that he continue with a follow up interview with both subjects to continue with the investigation, in order to gather information regarding the third unknown subject.

Nothing further at this time.

SUSPECT FOLLOW UP:**SUPPLEMENTAL NARRATIVE**

On June 7, 2018 at 0830 hours, I was informed by Tesla Security that a possible subject that works for Panasonic may be linked to the copper theft incident. Security informed me that a subject named "James" was on shift during the time of the incident and was currently getting off work. Security advised me that they would stop the subject at his vehicle until my arrival. I advised Deputy Francone of the incident to assist me with a follow up investigation.

Upon arriving on scene, we made contact with the subject identified by his Nevada driver's license as James Joseph Oliveri. When performing a Field Interview with Oliveri, he indicated that he was working that evening during the incident, but had no knowledge of it. He informed me that he did take a break during the time of the incident but remained in the Panasonic lounge. Oliveri advised me that he had several roommates but none of them matched Salas-Suarez or Segarra. He also indicated that he did not know them. His present address did not match that of Salas-Suarez or Segarra. Oliveri did own an extended half-cab pick up truck, but it was a green in color late model 1994 Toyota bearing Nevada license plate 955D68. Based on the vehicle type, and portions of the windows covered in cardboard, Deputy Francone and I wanted to search the vehicle to thoroughly investigate the vehicle in question.

Upon request, Oliveri gave Deputy Francone and I consent to search his vehicle. Upon searching the vehicle, we did not find any evidence linking the vehicle to the incident. Based on Oliveri's statement and negative evidence found in his vehicle, Oliveri was cleared of the incident at this time.

Nothing further at this time.

Voluntary Statements from Briyan Salas-Suarez
Waiver form

Narrative:

On June 7, 2018, I responded to the Storey County Detention Facility located at 911 SR-341 Virginia City, Nevada in Storey County to interview a subject later identified as Briyan Salas-Suarez.

I met with Salas-Suarez inside the interview room located inside the Storey County Detention facility. Salas-Suarez agreed to speak without a lawyer present and further agreed to cooperate with the investigation. Salas-Suarez was given his rights and voluntarily signed the rights waiver witnessed by myself. Salas-Suarez provided a full description of what had taken place the night before leading to his arrest. I later determined the statement was false and not consistence with the incident.

I verified that Salas-Suarez is fluent in English, he stated that he has been residing in the US since he was four years old. Salas-Suarez stated that he had been smoking meth the night before and had been up for almost three (3) days. Salas-Suarez showed signs of exhaustion and was not making sense on his statements.

I asked Salas-Suarez if he needed medical attention and he stated that he was just tired. I told Salas-Suarez that because of his condition and the fact he was under the influence of meth I will come back the next day June 8, 2018. I reconfirmed with him if he needed medical attention and again he denied.

On June 8, 2018 at approximately 1345 hours, I again met with Salas-Suarez who stated he would cooperate with the investigation and requested to have a lawyer present.

The interview was terminated.

Supplemental Report:
Case Follow-up 06.14.2018

On June 14, 2018 at 2345 hours, I conducted case 18-470 follow-up at the Tesla Giga-Factory located at 1 Electric Avenue; in the area of TRI McCarran, Storey County Nevada. Upon arrival I met with Security Supervisor Chris Milburn.

I advised Milburn that additional witnesses and video surveillance would greatly assist in the copper theft incident that occurred on June 7, 2018. Milburn indicated that Thompson was still the main witness to the incident, and although there were other dock workers that observed the incident involving Salas-Suarez, they did not observe the other two subjects involved. As for the video surveillance, Milburn indicated that the surveillance investigations team are still working on gathering footage. Although they are still working on the surveillance, they have made progress and are continuing to gather Intel based on the incident. Milburn stated that he we continue to work on any leads he may come across on his end in order to further aide in the investigations. I gave Milburn additional statements for future use and he gave me a point of contact (Sean Gouthro-Lead Security investigator 1-[REDACTED]) to pass on to day shift for continued support in the investigations.

Nothing Further at This Time.

18-470

On June 15, 2018 at approximately 1200 hours, Deputy Hamblin and I made contact with Tesla security to conduct follow up for this case.

Tesla Security advised that they were able to identify the roommate of Salas as being Julio Alacron. The witness, Lynn Thompson, had been terminated and was no longer on the property.

Upon request to get hard copies of Alacron's information including make, model and license of his vehicle, we were advised that this incident had reached Elon Musk himself. In fear of the "PR hit" this incident could make, Tesla advised that they will not release any hard copies of Alacron's information, still photos or video evidence without a subpoena.

Sergeant Bowers, Chief Deputy Dosen and Sheriff Antinoro were advised.

Tesla security was able to tell us that they believe Alacron, Salas and Segerra to have all been in the vehicle together at the time the vehicle drove through the gate. They could not provide any hard copy evidence for that information.

Utilizing the first and last name for Alacron as well as a license plate for Alacron's vehicle which was a dark in color Chevrolet Avalanche bearing California license #92136H1. Deputy Hamblin was able to determine that Alacron does have an active extraditable out of Washoe County as well as a revoked Nevada Driver's License.

Tesla Security advised that Alacron is still employed at Tesla.

Alacron's information was attached to this case.

Nothing further.

Miranda Waiver from
DA Request From
E-Mail correspondence

Narrative:

On August 28, 2018 at approximately 0900 hours, I responded to the Storey County Detention Facility located at 911 SR-341 Virginia City, Nevada in Storey County to interview a subject later identified as Briyan Salas-Suarez.

Per Storey county District Attorney the interview had been arranged as an agreement between the Public Defenders' office and District Attorney.

Salas-Suarez was represented by Guy Bovard a representative for the Public Defender's Office acting as Salas-Suarez attorney.

Bovard stated that a deal had already been arranged and Salas-Suarez was going to provide an interview including additional information that might be of value for Tesla. Bovard also stated that Salas-Suarez knew of his rights and willing to sign any forms needed to move forward with the interview.

Salas-Suarez voluntarily signed the Miranda waiver that was witnessed by Mr. Bovard.

Salas-Suarez voluntarily agreed to speak with his lawyer present and further agreed to cooperate with the investigation. Salas-Suarez provided a full description of what had taken place the night before leading to his arrest. I later determined the information he provided was the same as I had already learned from the deputies who arrested him on June 7, 2018. Salas-Suarez provided the name of a salvage place in Reno that I have not been able to confirm, due to the lack of cooperation of Tesla security.

I have made several attempts to contact Tesla Security that began on August 29, 2018 in an attempt to confirm Salas-Suarez statement. I was directed to speak with the Senior Manager for Global Investigations by Sean Gouthro who is the current security director for Tesla.

On September 13, 2018 I made contact, after several attempts with Gerhard Pretorius who is the Senior Director for Global Investigations who is in charge of the Tesla investigations. We have an appointment to meet and discuss further investigation on the case for October 2018.

Nothing further.

Page 1

18-471

On June 7, 2018 at approximately 0045 hours, Deputy Glowniak was dispatched to a reported theft in progress at 1 Electric way; located at the Tesla Giga-factory, in the area of TRI McCarran, Storey County Nevada. Per Storey County Dispatch, Tesla Security had one (1) suspect detained and possibly two (2) others on foot somewhere on the premises and needed help locating.

I contacted Deputy Glowniak and asked if he needed help at which time he indicated he would. I grabbed my gear and met up with Deputy Glowniak at TESLA on the Eastside of the building. Deputy Glowniak indicated the suspect in the rear seat of his vehicle, identified as Briyan Salas-Suarez (Salas), was caught loading and attempting to steal copper coils. Deputy Glowniak also mentioned possibly two (2) others involved, but their whereabouts were unknown. However, Salas indicated the vehicle driven was a white extended cab pickup truck. TESLA indicated they were canvassing the area for the truck, and several minutes later, TESLA Security advised a Hispanic male adult subject on the Westside of the building was attempting to enter the building without any credentials. I was asked to go check it out.

Upon my arrival, I noticed several TESLA Security guards on foot attempting to stop this Hispanic male adult (HMA), later identified as Rene Orlando Segarra. Segarra was now weaving around parked vehicles, attempting to evade capture by security, and one TESLA Security guard noticed Segarra toss an item under a parked vehicle, later identified as being the wallet belonging to Segarra.

I pulled my patrol unit in front of Segarra, blocking his escape and to assist with identifying who this HMA is. I requested Segarra to place his hands on the hood of my patrol vehicle. I asked Segarra for his identification, at which time he stated he had forgotten it at home. Almost immediately following Segarra's reply, a Securitas employee DBA a TESLA Security guard, identified as Jose Angel Flores, mentioned he had seen the subject toss his wallet towards a parked SUV and was now handing me a leather wallet. I had Flores open the wallet and retrieve an ID. Flores retrieved a Nevada Identification Card belonging to my subject, Segarra. I asked Segarra why he threw his wallet and was now attempted to lead me astray, Segarra had no response.

During my pat-down of Segarra, I discovered a hard feeling tool in his pocket. Segarra indicated I could retrieve the contents from his pockets, and the tool was identified as a metal shear cutter. Segarra indicated he had the tool for no reason other than to cut things. Segarra mentioned he came here with two (2) friends that work here and he took a nap in the vehicle. When asked about the whereabouts of the vehicle, Segarra laughed and stated he couldn't find it. I advised we had his buddy in custody on the other side of the building. Segarra looked at me with a short pause and stated which one. I continued to empty Segarra's pant pockets, and initially without handcuffs, placed Segarra in the rear seat of my patrol unit. TESLA provided a plastic bag to contain all items belonging to Segarra. During my accountability of Segarra's personal items, I noticed a business card for C.G. Metals Inc. "We Recycle", box cutters and a bright colored green safety vest, which if you view Deputy Glowniak's case #18-470, Salas had the same items discovered on his person too.

I had Storey County Dispatch (SCD) run Segarra through NCJIS, and it revealed Segarra had an active warrant in Reno and another which was Washoe only. Later, SCD was able to confirm the active Reno warrant.

I placed the bag containing Segarra's personal items in the front seat of my patrol unit and returned to

the rear of my patrol to speak with Segarra. I mentioned to Segarra that it didn't look good having a metal cutting shear in his pocket, no TESLA type identification, tossing his wallet to avoid detection, attempting to evade TESLA Security, and after indicating we had his buddy...he asked which one. I mentioned that his buddy was caught stealing copper. Segarra looked away and I could audibly hear him grunt stating "Oh". I asked Segarra of the whereabouts of his other friend, and defiantly he stated he didn't know perhaps driving away.

Segarra's story indicated he came to TESLA with his buddy, supposedly named Julio with a last name he couldn't recall but knows it starts with an "A", and Julio's roommate, later identified as Salas (case # 18-471). Segarra stated Julio works at TESLA and had a badge to get on premise. Segarra described Julio's roommate as "A short fat Mexican with a dark colored hoodie sweatshirt", which described Salas the suspect in custody verbatim. Segarra could only describe Julio as looking like a white guy, but really he's a Mexican and drives a black and silver or grey colored 4-door pickup truck. I had Segarra step out of my patrol unit, turn around and put his hands behind his back. I advised Segarra he was under arrest for an active warrant in Reno and for suspicion of theft as an accomplice. Segarra had nothing to say and did not protest.

Shortly after, TESLA Security indicated they might have the vehicle in question. With Segarra secured in the rear seat of my patrol, I had security lead the way to the said vehicle. After running the license plate, I discovered the vehicle in question actually belonged to TESLA.

Deputy Glowniak arrived to my location and we made a plan after sharing information given by both suspects. Deputy Glowniak contacted our supervisor SGT Bowers; followed by mirandizing both suspects separately. Salas was asked basic questions, see case #18-470, and was able to positively identify Segarra as being part of the crime. In retrospect, Segarra was also asked basic questions, see case #18-470, and he too (Segarra) was able to positively identify Salas as being the "short fat Mexican". Deputy Glowniak and I felt there was enough circumstantial evidence; each persons' (Salas and Segarra) having the same metal type cutters, fake employment identification, failed evasion from authority, positively identifying each other as being part of the three (3) man crew of would-be-thieves working together in order to steal the coils of copper.

Both Deputy Glowniak and I transported our suspects towards the Storey County Detention Facility. I met with Deputy Simons midway and transferred my suspect, Segarra, to Deputy Simons and I returned to the northern end of Storey County. Deputies Glowniak and Simons transported and booked Salas and Segarra without incident.

Segarra was booked for his active Reno Warrant (RCR2016-089721), and NRS 207.200 Trespassing following the Citizen's Arrest form filled out by TESLA head of Security, Christopher Milburn. Please see Deputy Glowniak's case #18-470 and both cases need to be linked together.

On June 13, 2018 at approximately 0019 hours I responded to the area of Electric Ave near the north Tesla Entrance in Storey County, Nevada for a report of a vehicle verses horse. I was further advised there were no injuries. Upon arrival I met with the driver, identified by his NV driver's license as [REDACTED].

[REDACTED] stated he and one of his co-worker were driving westbound on Electric Ave to go to lunch. [REDACTED] stated he gained speed up to 45 mph as he was exiting the Tesla property. [REDACTED] stated a heard of horses ran across the road and he struck one of them.

[REDACTED] and his co-worker claimed no injuries. The vehicle bearing NV license plate [REDACTED] was a maroon GMC SUV with moderate damage to it's front and passenger side. The vehicle was still operable and in the center median facing to the west. The vehicle was subsequently removed off the scene by [REDACTED].

The horse was located just northeast of where the vehicle came to a rest in an open dirt field. The horse was a brown colt and dead on my arrival. The Department of Agriculture was notified for removal of the carcass.

There were pieces of the vehicle scattered throughout the scene along with horse droppings. No skids marks were observed. The location of the accident was approximately 100 yards west of the north Tesla Employee Entrance.

Upon conclusion of my investigation, I determined that [REDACTED] was traveling at or below the speed limit of 45 mph when the vehicle came into contact with the horse. The lighting conditions were poor and there were animals in the road. [REDACTED] was unable to avoid the collision.

Nothing Further.

18-507

Narrative:

On June 19, 2018 at approximately 0729 hours, I was on routine patrol on Electric Avenue near Venice Drive in the Tahoe/Reno Industrial Center area of Storey County. I observed an unlicensed black Honda traveling east with a severely broken windshield within the drivers view.

I made a stop on the vehicle and contacted the driver. I identified the driver as [REDACTED] by his Nevada Identification Card. A routine check on [REDACTED] showed that he had a non-extraditable warrant out of Washoe County for failure to comply with a traffic citation as well as a suspended drivers license. [REDACTED] was also unable to provide me with a current proof of vehicle insurance at the time of the stop.

I then took [REDACTED] into custody for driving on a suspended drivers license, no proof of insurance and a broken windshield. I placed him in my Peerless hinged handcuffs, checking for tightness and double locking the mechanism. He was transported to the Storey County Detention Facility without incident.

Deputy Brett carter and Tesla Security secured the vehicle in a parking area near the North Gate for a family member to pick up later in the day.

Nothing Further.

NARRATIVE

Page 1

18-511

Narrative:

On June 20, 2018 at approximately 1413 hours Deputy Carter, Deputy Hamblin and I were dispatched to an "active shooter threat" at 1 Electric Ave (Tesla).

Upon arriving on scene, Deputy Hamblin and I made contact with Deputy Carter and Sean Gouthro (Head of Tesla Investigations). I advised Gouthro that Chief Deputy Dosen was enroute to the scene.

Chief Deputy Dosen and Deputy Parker arrived on scene and made contact with Gouthro.

Gouthro stated that Tesla's call center in Las Vegas received a phone in which a female subject stated that she was friends with Martin Tripp who she described as being heavily armed and distraught and was on his way to "shoot up Tesla". Gouthro advised that they were able to verify the information in regards to Tripp being armed.

Chief Deputy Dosen was able to determine the address for Tripp. Chief Deputy Dosen requested the Sparks Police Department to drive to Tripp's place of residence ([REDACTED]) to see if they could make contact with Tripp.

Prior to receiving any more information about the incident or information about Tripp, I was released from duty for the day.

Deputy Parker stayed on scene and has further information in regards to this case.

See Deputy Parker's supplemental narrative.

Nothing further.

Body Camera footage - 180620_Interview with Tripp, Martin

Supplemental Narrative:

On 06/20/2018 at approximately 1440 hours Chief Deputy Dosen requested that I met him at 205 S. "C" St. (Storey County Sheriff's Office). Chief Dosen advised me that an active shooter threat had been received at 1 Electric Avenue (Tesla Gigafactory), located in the area of TRIC/McCarran, Storey County, Nevada. Chief Dosen and I doubled up in his marked patrol unit and proceeded to the Gigafactory.

Upon arriving at approximately 1506 hours, we made contact with Tesla head of security, GOURTHRO, SHAWN, outside of the main lobby. Also present were Deputies Hamblin, Carter, and Azevedo. Two NHP troopers arrived shortly thereafter. GOURTHRO provided us with copies of a "Be On the Lookout (BOLO)" flyer with a picture of a white adult male subject, identified as TRIPP, MATIN ALAN ([REDACTED] / [REDACTED]). GOURTHRO stated that Tesla had received an internal message at its Las Vegas call center earlier that day. The caller stated she was a female friend of TRIPP's, and advised that TRIPP was heavily armed and was headed to shoot up the Tesla Gigafactory.

After being briefed on the situation, Chief Dosen instructed all Deputies to remain in the general vicinity of the Gigafactory; conduct mobile patrols; and be on the lookout for a Navy/dark blue colored Ford Escape bearing NV/005C32 (later determined to be NV/006C32) that was associated with Tripp. I again doubled up with Chief Dosen in his unit, and we proceeded to the North access gate / main gate to the Gigafactory. There we took up a stationary position and assessed the vehicles entering the facility. While we were there, Chief Dosen had Dispatch contact Sparks Police Department (PD) and requested that they perform a drive-by of TRIPP's last known residence - [REDACTED] - and determine if he was there. At approximately 1621 hours, we were advised that Sparks PD had performed a drive-by, and that TRIPP's was not at the residence.

At approximately 1741 hours, Chief Dosen received a phone call from GOURTHRO, advising that TRIPP had been seen at a Safeway on Vista Blvd. in Sparks. We then made our way to that location after advising Sparks PD of our presence in the area. TRIPP was not located at the Safeway, and Chief Dosen and I linked up with a Sparks PD unit, who escorted us to TRIPP's residence where we again attempted to locate him. Neither TRIPP nor the vehicles associated with him were located at, or in the vicinity of his residence.

After departing from the area of TRIPP's residence, Chief Dosen contacted GOURTHRO and requested any contact information for TRIPP that Tesla had on file. GOURTHRO provided a phone number ([REDACTED]). Chief Dosen then contacted TRIPP, who stated that he was at the Nugget Casino with his family, and would be willing to meet with us. TRIPP indicated that he was not armed.

While making our way from TRIPP's residence to the Nugget, Chief Dosen received a phone call from GOURTHRO, which he placed on speaker phone. I heard GOURTHRO aske if "we made contact with

18-511

him (Tripp)"; Chief Dosen Stated "Just made contact with him on the phone. He agreed to meet with us." Chief Dosen advised GOURTHRO that we were meeting Tripp at an undisclosed location, and GOURTHRO responded, "Is it the Nugget?" Chief Dosen did not confirm the location. When later asked how he knew this, GOURTHRO responded, "little birds sing."

At approximately 1843 hours Chief Dosen and I made contact with TRIPP under the east walkway of the Nugget Casino, next to the parking garage. Prior to interviewing him, I advised TRIPP that he was not under arrest and, with his consent, conducted a pat-down search of TRIPP; no weapons were found. TRIPP was visibly shaken and was crying. TRIPP was again advised by Chief Dosen that he was not under arrest, and asked if he wished to speak with us of his own free will. TRIPP stated that his life was in shambles and indicated that he would speak with us.

TRIPP stated that he had been employed at Tesla as a Process Engineering Technician since 10/09/2018, but had been fired on 06/15/2018. He advised that as part of his work duties, he had discovered numerous safety concerns with Tesla products, specifically a potential for, what he called, "runway thermal meltdown" in the batteries as well as what he believed to be evidence of ethical and environmental deception and waste, and punctured battery cells. After lack of attention to his concerns by Tesla, TRIPP stated that he decided to become "a whistle blower" and had contacted LYNETT LOPEZ of Business Insider, then JULIA WONG with The Guardian, and eventually DREW HARWELL of the Washington Post.

When questioned about the threat that had been received, TRIPP stated that he had not made any threat, and had not had access to Tesla's internal systems, software, or communications since 06/13/2018. He also stated that his access badge had been revoked on 06/14/2018. TRIPP stated that when he came to work on the 14th, an "HR guy," meet him and escorted him to a "small room with these two security guys, and they interrogated me [TRIPP] for six (6) hours from noon until like 6pm." After the interrogation, TRIPP advised that his badge was then taken and he was escorted off the property. The next day, 06/15/2018, TRIPP indicated that at approximately 0630 he was asked to come back to the Gigafactory. Due to his experiences the day prior, TRIPP indicated that he didn't want to go back on the property, but eventually agreed to meet at a "Security Trailer," where, according to TRIPP, he was again interrogated for approximately three (3) hours before being advised that he was terminated / no longer an employee.

TRIPP showed us a number of emails on his phone, which were between Tesla CEO, ELON MUSK, and himself, at his personal email address. When I asked him who had initiated the contact, TRIPP stated that he may be incorrect, but he believed that MUSK had sent an email first, stating that he [TRIPP] was an "evil human being." TRIPP then indicated that he had deleted the email, but had later responded to MUSK and showed us an email thread on his cell phone between the two of them.

When questioned about any weapons in his possession, TRIPP stated that he had sold all off his guns prior to moving out from Michigan, with the exception of a 9mm Hi-point carbine which he'd bought

18-511

for his wife as a gift. When asked if any of his friends had weapons, TRIPP advised that a work colleague / friend named SHAKAL, PATRICK () owned many [firearms], and that "he wouldn't put it past him [SHAKAL], well, I wouldn't put it past Elon [MUSK] to make up story like this." He then advised that it was actually SHAKAL to whom he had recently sold his wife's Hi-point carbine.

Chief Dosen proceeded to inquire what TRIPP's plans were. He responded that out of fear for their safety, TRIPP had purchased a ticket for his wife and child to fly to on 06/27/2018, where his wife had family. As for himself, TRIPP indicated that he would be remaining at in hopes of avoiding the press, and planned to checkout on 06/23/2018.

Based upon our interview with him, Chief Dosen and I concluded that TRIPP was not armed; did not likely have access to firearms; and did not present a threat at that time. Chief Dosen notified our Dispatch and GOURTHRO that the active shooter threat was not viable at that time.

We departed the area at approximately 1919 hours, and returned to the Storey County Sheriff's Office in Virginia City, Nevada.

It is requested that a copy of the video footage from my body camera at the time of the interview with TRIPP be attached to this case.

Nothing Further.

18-511

On 06/20/2018 at approximately 1412 hours, I received a phone call from Tesla Security Director Sean Gouthro regarding a possible active shooter situation that may possibly take place at any moment at the Tesla Gigafactory located in the Tahoe Regional Industrial Park in Storey County, Nevada.

Gouthro advised that he had just received a Tesla Internal Message from the Tesla Las Vegas Call Center stating that a recently terminated employee identified as Martin Tripp had made a phone call to another employee stating that he was heavily armed and heading to the Tesla Gigafactory located in Storey County to shoot it up.

I advised Gouthro that I would have Storey County Deputies working in the North respond to his location and I would be responding from Virginia City. Upon arriving at the Tesla Gigafactory, I made contact with Gouthro along with Storey County Deputies and Troopers from the Nevada Highway Patrol.

I received information from Gouthro of the two possible vehicles that subject Martin Tripp maybe driving. The first vehicle bearing Nevada Registration was 006C32 which came back to a 2015 Ford Escape Blue in color registered to Martin Tripp. The second vehicle bearing Nevada Registration was 005C32 which came back to a 2018 Ford Fiesta lime Green in color registered to Andrea Szikszai. Both of the listed vehicles were registered at an address of [REDACTED].

Gouthro provided me with the Tesla Internal Message that was sent from the Tesla Las Vegas Call Center to the Tesla Gigafactory regarding the possible actions regarding Martin Tripp. The message read as follows from Call Center employee Shamara Bell. " At 1:44 pm, we have an employee in Plant O&M that is on the phone with someone who is reporting that a former employee by the name of Martin Tripe He told her that he is heavily armed and headed for the Giga Factory".

I was then informed by Gouthro that he had just received information the Tripp was spotted at a Safeway Grocery Store located on Vista Blvd. I responded to that location and met up with a Sparks P.D. Unit and attempted to locate the possible two vehicles that Tripp may be driving. A canvas of the entire shopping center parking lot provided a negative result. We then proceeded to Tripps address of [REDACTED] to see if any of the vehicles Tripp maybe driving were at that location, a complete canvas of the apartment complex open air parking units were checked with a negative result. I contacted Gouthro to obtain if Tripp had a telephone contact number, Gouthro provided me a telephone number of [REDACTED]. I advised Gouthro that I was going to attempt contact with Tripp and that I would advise the outcome from the conversation.

I made telephone contact with Tripp who advised that he was staying at [REDACTED] in [REDACTED] with his wife and infant son due to the press calling him and being outside his apartment complex looking to interview him in conjunction with the lawsuit filed by Tesla against him for multiple crimes. I asked Tripp if he had weapons and was in fact enroute to the Tesla gigafactory to shoot it up, he advised that he had no weapons and he had no intention of going anywhere near the Tesla

Gigafactory. I asked Tripp if he would be willing to meet in person and talk about the situation to which he advised to come to the Nuggett and he would meet there. I made contact with Gouthro and advised him that I had contacted Tripp and that aTripp agreed to meet with me in person at an undisclosed location at which time Gouthro advised is the meeting at the Nuggett Hotel. I asked Gouthro how he knew that information to which he advised that a little birdie had told him.

Deputy Parker and I meet with Tripp at the Nuggett, Tripp was visibly shaken and crying. I asked Tripp what was going on, he advised again that he was in fear for the safety of his wife and infant son along with himself because of his whistle blowing claims against Tesla to newspapers and reporters and he had to get away from the chaos to figure out his next plan.

See recorded interview from Deputy Parker's body camera.

At the completion of talking with Tripp he advised that he was going to be at the Nuggett for three days and then make arrangements to move his wife and son for their safety.

A short time later I received a phone call from Gouthro asking if I was going to make a statement to the press as to what had transpired on Tripp potentially shooting up the Gigafactory. I advised Gouthro that any press release if any would come directly from Sheriff Antinoro himself unless otherwise directed by him. Gouthro then asked if I would talk with Jeff Jones the Global Security Director for Tesla to which I advised that I would. I made contact with Jones who asked if I would or was going to talk to the press regarding the earlier situation involving Tripp. I advised Jones that any press release would come from Sheriff Antinoro himself unless otherwise directed, Jones acknowledged and thank me for our assistance in the matter.

On June 25, 2018 I made contact with Officer Ryan Kraft of the Las Vegas Metropolitan Police Department Central Command to see if they would be available to interview Shamara Bell the Tesla Call Center employee who received the initial telephone call regarding Tripp. Officer Kraft advised that he would contact an officer from the Southern Nevada Counter Terrorism Center. Later in the afternoon il received a email from Officer David Ballantyne who conducted an interview and obtained all pertinent requested information. According to information received through the Tesla Call Center, during the call they placed the caller on hold and goggled a news story about Tesla and Tripp. When she returned to the original caller she asked the individual if the caller was calling about subject Tripp. Due to the public knowledge being sent out regarding subject Tripp's termination the caller who stated he was a friend of Tripp's was concerned for the safety of the people working at Tesla due to Tripp's volatility. The caller stated that he had never heard Tripp directly make any threats regarding the Tesla Gigafactory.

None.

Narrative:

On 07/20/2018 at approximately 1045 hours, I was able to confirm the location of SHAKAL, PATRICK JOSEPH, but was not able to establish contact with him. In an effort to locate SHAKAL I had contacted Tesla head of security, GOURTHRO, SHAWN, who confirmed that SHAKAL was on-site at the Tesla Gigafactory, at 1 Electric Ave., located in the area of Storey County, Nevada.

At approximately 1008 hours, I contacted GOURTHRO via telephone and advised him that I was trying to locate, and needed to speak with SHAKAL regarding his possible involvement in this case. I also inquired if he could confirm if SHAKAL was still an employee of Tesla, and on-site at the present time. GOURTHRO requested that I confirm SHAKAL was directly connected to the case, and provide any information I may have about SHAKAL's involvement. I responded that SHAKAL was directly connected, and that I had no pertinent information I was able to share.

Prior to confirming if SHAKAL was on site, GOURTHRO stated that he would need to get authorization from a "NICK DESENTO," [spelling unknown] who was reporting directly to Elon Musk on this matter. At approximately 1045 hours, GOURTHRO advised that "I have him [SHAKAL] confirmed on site [Tesla Gigafactory] until 1800 this evening. Waiting on legal approval to initiate [contact]."

At approximately 1207 hours, GOURTHRO contacted me and state that conversations were being had, and that he was on standby. I thanked GOURTHRO, and asked to be contacted if we would be able to have access to speak with SHAKAL at the facility that day. No further correspondence was received from GOURTHRO.

Prior to my conversation with GOURTHRO, five (5) previous attempts had been made via telephone to establish contact with SHAKAL at his listed phone number (██████████). Messages were left requesting SHAKAL contact the Storey County Sheriff's Office. The calls were not returned.

My purpose in contacting SHAKAL was two-fold. When I had interviewed TRIPP on 06/20/2018, he had alleged that he'd sold his only firearm to SHAKAL; I wanted to corroborate that information if possible. Secondly, I was attempting to determine if SHAKAL had made, or was connected to the initial report to Tesla's internal call center of a possible active shooter threat. See attachments for information that conversation; received from Officer Ballantyne of the Las Vegas Metro Police Department.

If future contact is made with SHAKAL regarding this case, that information will be included if relevant.

Nothing Further.

Driver and passenger statements

Narrative:

On July 2, 2018 at approximately 0625 hours, I was dispatched to Electric Avenue east of SR439 for a motor vehicle crash. I was advised by dispatch that a rear end crash had occurred.

Upon arrival, I observed a newer Ford Mustang with rear end damage and a Honda Civic with major front end damage. I exited my patrol vehicle and checked all occupants of the vehicle, which were all outside the vehicle. All three occupants stated that they were wearing their seatbelts at the time of the crash and did not report any injuries. I then asked them to move the vehicles to the side of the road.

I spoke with the driver of V1, the Honda Civic bearing Nevada [REDACTED]. She was identified as [REDACTED] by her Nevada Driver's License. [REDACTED] stated that she was westbound on Electric and the car in front of her (the Mustang) stopped suddenly. She attempted to steer to the right to avoid the collision, but the lane was occupied so she struck the Mustang.

I then spoke with the driver and passenger of the Mustang, bearing Nevada temp [REDACTED]. The driver was identified as [REDACTED] and the passenger identified as [REDACTED]. Both subject gave similar statements that they were westbound on Electric and the car in front of them slowed for a horse in the roadway. They also slowed and they were struck from behind. [REDACTED] stated she did not see a horse.

I then concluded my investigation and determined that the vehicle driven by [REDACTED] had slowed due to an animal in the roadway and a vehicle traveling in front of them. They were struck from behind by the vehicle driven by [REDACTED]. All three occupants completed statements and I issued [REDACTED] a citation for following too closely. Her vehicle was towed from the scene.

Attachments: Statement, Photographs

On July 3, 2018 at approximately 1038 hours, I was dispatched to 1 Electric ave an area of Storey County, Nevada for a past tense hit and run.

Upon arrival to the above location, I met with a male subject later identified as [REDACTED] 06/28/1986. [REDACTED] stated on 07/02/2018 between 0921 hours and 1805 hours someone had hit his pickup. I observed minor damage to the driver side doors on a white 2006 Dodge Ram 1500 bearing Nevada license plate number [REDACTED].

[REDACTED] stated he had already contacted Tesla security and made a report. Tesla security told [REDACTED] they would contact him if they have any video of the incident.

I took pictures of the vehicle and had [REDACTED] fill out a statement.

Nothing Further.

Narrative:

On July 8, 2018 at approximately 0745 hours, I was on routine patrol near 420 USA Parkway in the Tahoe/Reno Industrial Center area of Storey County. I observed a black 2 door hatchback traveling south in excess of the posted 35 mph limit. I visually estimated the vehicle speed at 60 mph and confirmed the speed with my front moving radar at 60 mph.

I caught up to the vehicle and made the stop just inside the west gate at Tesla, located at #1 Electric Avenue. I contacted the driver, who I identified as [REDACTED] by his California Driver's License. A routine check on [REDACTED] showed that he had an active warrant out of Sparks Justice Court.

I allowed [REDACTED] to park his vehicle and secure it in the parking lot of Tesla. I then took him into custody on authority of the warrant, placing him in my Smith and Wesson chained handcuffs, checking for tightness and double-locking the mechanism. He was also issued citation number STSO09379 for speed, no proof of insurance and expired registration. He was transported to the Maverick gas station at the bottom of Geiger Grade where he was relayed to Deputy Chris Parker who transported him the remainder of the way to the Storey County Detention Facility.

NARRATIVE

On July 11, 2018 at 0247 hours, I was dispatched to a reported mentally ill employee at 1 Electric Ave (Tesla Giga-Factory) located in the area of TRI McCarran, Storey County Nevada. The reporting party was identified as Tesla Security.

Upon arriving on scene, Tesla EMT Security identified as Mikayla McCann McMartin indicated that a Tesla employee identified by his California driver's license as [REDACTED] had a bipolar episode earlier in the evening, and had several self inflicted cuts to his right forearm. [REDACTED] had also made disparaging remarks to other coworkers. McMartin advised me that [REDACTED] was currently calm and compliant but needed a medical evaluation due to his recent mental health and past mental health issues. McMartin also indicated that [REDACTED] had made concerning remarks about harming another employee to one of his coworkers during the episode. After receiving her preliminary assessment, I made contact with [REDACTED] to conduct my field interview.

Upon first observation, [REDACTED] was calm and indifferent to the incident. He indicated that he was recently diagnosed with bi-polarism several months ago. He was currently on medication for treatment, but had recently had a change in his prescription. Prior to the incident, [REDACTED] advised me that he was having chronic issues with pain in his right leg, and prior to shift start, he was experiencing a moderate amount of pain. [REDACTED] proceeded to explain that walking up several flights of stairs to his work station aggravated the pain he was in, and caused him to be in an irritated and foul disposition. When asked to go more into detail about the actual incident, [REDACTED] stated that he could not fully recall everything that he had said to others around him. When asked more about the self inflicted injuries to his forearm, [REDACTED] indicated that they were caused by the machine he was working with, and not done intentionally. [REDACTED] advised me that he did not wish to cause harm to himself or others. I had security stay with [REDACTED] and continued my field interview with his coworkers.

[REDACTED]'s supervisor identified as [REDACTED] and shift lead [REDACTED] advised me that [REDACTED] had prior history of mental health issues, and was sent by Tesla to be evaluated. Prior to working on the line with his machine, he did not see any injuries on [REDACTED]'s forearm. He did observe [REDACTED] to go to the restroom and then noticed the injuries. [REDACTED]'s shift partner identified as [REDACTED] advised me that [REDACTED] was upset and irritated during shift. When the shift lead advised him to increase production, [REDACTED] became more irritated and started to rant about work. [REDACTED] then took out his pocket knife and made a continual "stabbing motion" and stated "this is what I think about supervisors" (Note: [REDACTED]'s gesture was not directed to anyone in general, nor did he attempt to threaten anyone physically in his presence). Based on the information given by his coworkers, statements were given out and I remade contact with Tesla security.

McMartin advised me that at this time, they only wanted to have [REDACTED] treated and evaluated. She was able to talk [REDACTED] into voluntarily going in to be evaluated. I advised Dispatch of the incident and had FD dispatched to the incident. Upon arriving, [REDACTED] voluntarily went with FD to Northern Nevada Medical without incident. I collected statements on scene and case number 18-617 was created for the incident. Tesla security and [REDACTED]'s supervisor advised me that they would bring up the incident with their HR department and address the issue internally.

On 07/27/2018, I was patrolling the Tahoe Reno Industrial Park in McCarran, Storey County NV.

At approximately 1337, I was notified by SCSO Dispatch of a possible threat to personnel at Tesla. Dispatch said RP-Schneider called to report [REDACTED] had called a health hot line provided by Tesla and had made mention that he was owned an assault and planned on killing 35 people at the Tesla plant.

I responded to Tesla and spoke to the head of security M-Gouthro, Sean who told me the following in summary:

Gouthro said [REDACTED] had been walked off the Tesla facility property earlier in the week due to being aggressive and threatening towards his co-workers. Later that day, management decided to terminate [REDACTED] and not allow him back on the facility property. The following day, [REDACTED] attempted to enter the property, but was turned away at the guard shack.

Gouthro said Tesla provides employees a health service where they can call in and speak with a counselor if they are having problems. [REDACTED] called this service and spoke to Schneider. While speaking with her, [REDACTED] told her he owned an assault rifle and was going to kill 35 Tesla employees. Due to the nature of threat, Schneider called SCSO Dispatch, who in turn notified Tesla security. Gouthro provided me with a printed flyer which had been distributed to all three entry gates to the Tesla property. The flyer showed a picture of [REDACTED] and instructions to not allow him on the property.

Dispatch had also advised Sgt Kern and Chief Deputy Dosen with the available information. Since [REDACTED] had an address in Silver Springs (Lyon County), the Lyon County Sheriff's Office was contacted and asked to attempt to contact [REDACTED]. At approximately 1522 hrs, Lyon County SO advised that they were out with [REDACTED]. Chief Deputy Dosen spoke to [REDACTED] on the phone. It was determined that [REDACTED] was not an immediate threat. I then gave Gouthro this information. Gouthro said Tesla's legal team would attempt to get a copy of the phone conversation between [REDACTED] and Schneider. When that is obtained, Gouthro with provide me a copy and I will supplement this report.

I have scanned and attached a copy of the BOLO flyer provided by Tesla security to this report.

18-678

On July 27 2018 at approximately 2:31 pm., I received a telephone call from Tesla security director Shaun Guthro about the concern of threats made by a former sub contractor working for Tesla identified as [REDACTED]. Guthro advised that he had received a telephone call from Dr. Renee Schneider who works for Lyra Health in California, Dr. Schneider advised Guthro that she had just received a telephone call from subject [REDACTED] who advised that he was angry for being fired and wanted to kill 35 people with an unknown time frame. At this time Guthro requested extra deputies to be positioned at the two entrance gates leading into Tesla.

I requested the assistance of Lyon County Sheriff's Office to conduct a welfare check on [REDACTED] at his residence at which point they arrived on scene shortly after I was able to make telephone contact with subject [REDACTED] at which time I asked him to keep me on the telephone while he was talking with Lyon County Sheriff's Office Deputies to which he did. After the deputies cleared [REDACTED]'s residence I asked him what was going on, [REDACTED] advised that on July 24, 2018 he went to the medical staff at Tesla to get checked out due to elevated blood pressure and heart rate. [REDACTED] advised that the medical staff advised him that he was having irregular heartbeats and needed to take the rest of the day off and to go home and rest.

According to [REDACTED] he advised the staff that he could not leave because he did not have permission to leave, the medical staff advised that they would make the appropriate communications to those that needed to know what was going on. [REDACTED] advised that approximately three to four hours later he received a phone call stating that he was fired for leaving without permission. During the conversation with [REDACTED], I had previously requested the assistance of Lyon County Sheriff's Office to conduct a welfare check on [REDACTED] at his residence at which point they arrived on scene.

Sergeant Mendoza served a subpoena to Lyra Health in an attempt to get the recorded telephone conversations between [REDACTED] and Lyra Health. After receiving the recordings and listing through the conversation [REDACTED] did make reference to how someone could go postal in certain situations. He was asked numerous times if he was going to hurt himself or others to which he advised that he was not going to hurt others but not sure about himself at the moment. [REDACTED] also made remarks several times that he did not want to hurt other people. During the telephone conversation with [REDACTED] from Lyra Health [REDACTED] was asking questions and asked where they were located. [REDACTED] advised that they were located in the Bay area of California, [REDACTED] asked if it was San Jose or San Mateo to which [REDACTED] advised San Mateo. [REDACTED] then advised and described the exact location that Lyra Health was located do to [REDACTED] being born and raised in San Mateo. During the conversation [REDACTED] was making again stated that he did not want to hurt anyone else nor did he want to hurt himself at this point he just wanted some sort of help.

[REDACTED] made reference that he may have possibly had firearms but did not wish to talk about it to either [REDACTED] or [REDACTED]. Lyon County Sheriff's Office Deputies advised that in their interactions with [REDACTED] along with the two welfare checks conducted on Friday and Saturday they advised that there was never any dealings or mention of firearms. In my interview with [REDACTED] I asked him if he had any firearms to which he advised he did not and did not have any access to them. I asked him if he had made the statement that he in fact had firearms. [REDACTED] advised that he was upset and that he was not going to divulge to Lyra Health if he had them or not and after looking back at the prior comments he advised that was probably not the smartest thing to say along with making the comment about someone going

On July 28, 2018 at approximately 0540 hours, I was dispatched to 1 Electric ave an area of Storey County, Nevada for a motor vehicle accident.

Upon arrival to the above location, I observed the vehicles to be on Tesla property. I also observed a blue sedan bearing Nevada license plate [REDACTED] with it's hazard lights on blocking the number two lane of Electric ave. I noted there was damage to the driver side of the vehicle. I also noted the front bumper was torn off and the driver side mirror was damaged as well. I also observed Storey County Fire Department on scene assessing the people involved.

I spoke with the owner of the blue sedan later identified by his Nevada driver license as [REDACTED]. [REDACTED] stated he had passed the Tesla guard shack when his vehicle's battery died. [REDACTED] stated he had contacted his companies insurance tow service to have his vehicle moved. [REDACTED] stated while waiting for the tow company a white suv side swiped his vehicle. I asked [REDACTED] if he was injured and he stated he was not.

I walked further east of the blue sedan and observed a white suv bearing Nevada license plate [REDACTED] with a flat front right tire. I observed a female subject in the driver seat later identified as [REDACTED] by her Nevada driver's license. [REDACTED] stated she was driving to work and did not see the vehicle blocking the travel lane when she hit the vehicle. [REDACTED] stated she did not see the disabled vehicle's hazard lights until after she hit the vehicle. [REDACTED] stated she was also uninjured. [REDACTED] denied being on her cell phone when the accident occurred. I also did not observed any signs of impairment from [REDACTED].

I took pictures of the scene and turned over the incident to Tesla security.

Nothing Further.

NARRATIVE

Page 1

18-690

On July 31, 2018, I was dispatched to #1 Electric Ave within the TRI area of Storey County on a report of a past-tense stolen motor vehicle. I was advised to contact a subject named [REDACTED], who reported that the day prior (July 30) his vehicle had been stolen from the parking lot in front of the Tesla gigafactory. I was advised that the stolen vehicle had already been recovered in the Susanville California area and that the vehicle had been totaled after a vehicle pursuit by the California Highway Patrol.

Upon my arrival I was met by security chief Sean Guthro. Guthro showed me to the security office and gave me an overview of what he'd been told. Guthro advised that [REDACTED] is a manager with Valeo, a staffing subcontractor that works with Tesla in production. I was told that surveillance video was being reviewed but the theft had not been observed yet on video. Guthro stated that his security personnel had not located a witness to the theft. Guthro further advised that he had no reason to believe that [REDACTED] was concealing any information and was being forthright.

[REDACTED] arrived in the security office and I interviewed him. [REDACTED] advised that during his shift the previous day his vehicle had been stolen from the parking lot. His vehicle, a Tesla electric car, had been plugged into a charging station directly in front of the building's lobby. [REDACTED] advised that he did not utilize the vehicle key, which he'd left at his residence, but rather had been using his Iphone to operate the vehicle. He advised that nobody else used his phone and that he believed the vehicle was not running, beyond the climate control, while it was plugged in.

I asked [REDACTED] if he suspected anyone. He stated that he did not, but knew about the pursuit and vehicle recovery in Susanville. He stated that the subject that was found in possession of his vehicle when it crashed after a pursuit with CHP was [REDACTED]. When asked, he stated that he did not know and had never heard of [REDACTED]. Guthro confirmed that [REDACTED] was an employee of one of the subcontractors in the Tesla building but provided no further information. [REDACTED] could not provide any further information on how [REDACTED] may have accessed his vehicle. When asked, [REDACTED] stated that he had a dinner meeting with the Vice President of Valeo and offered that fact as the reason that he did not report the crime the previous day.

I later made telephone contact with the CHP office in Susanville. I was advised that they would not release any information without a request on department letterhead. I sent out the letterhead but at the time of this report have not received a copy of the CHP report in return. I was advised that [REDACTED] had been booked on numerous felony charges related to the incident and was still in custody.

There is no direct evidence (witnesses, video, photographs, etc) at this time that shows [REDACTED] stealing the vehicle from the Tesla parking lot.

Pending to this report is the CHP report.

SUPPLEMENT 1

Page 1

18-690

At the time of this supplement there is insufficient evidence to establish that [REDACTED] committed the theft of [REDACTED]' vehicle within Storey County. Among the charges he faces in Susanville is possession of a stolen motor vehicle. Unless and until further evidence is obtained, this case is suspended with leads exhausted. This report should be forwarded to the Susanville California CHP office to assist in their case. Nothing further at this time.

18-719

NARRATIVE:

On August 09, 2018 at 0150 hours, I was dispatched to a reported vehicle tampering at the Tesla Giga-Factory, located at 1 Electric Avenue; in the area of TRI McCarran, Storey County Nevada. The reporting party was identified as [REDACTED].

Upon making contact, [REDACTED] advised me that when leaving work at around 0140 hours she had noticed that her 2015 Chrysler 200, bearing Nevada license plate [REDACTED] had been vandalized. Upon observation of the vehicle, I noticed that all four door handles and both side mirrors had been removed, the passenger rear tire flattened, the rear license and middle lower portion of the trunk dented, and multiple scratches located on the top and hood of the vehicle. [REDACTED] indicated that she had broken up with her boyfriend identified as [REDACTED] earlier in the day, and had suspected him of the vandalism.

Earlier in the day [REDACTED] stated that she and [REDACTED] had an argument when she went to return some of his belongings. During the incident, [REDACTED] had yanked her phone from the car charger and slammed it on the ground and stepped on it. [REDACTED] indicated that after the argument [REDACTED] stated "You're gonna know what it's like to mess with a real nigga." I gave [REDACTED] a statement to complete and initiated my scene investigation of the vehicle.

Note: [REDACTED] also works at the Tesla factory and works the same shift time as [REDACTED] (1730-0530 hours) but was not at work during the incident. [REDACTED] indicated that she carpools with him, but after the earlier argument, she did not take him to work, but he has full access to the facility as an employee.

After noting all the physical damage done to the vehicle, I also observed several finger prints located on the upper portion of the door windows and several prints on the vehicle doors. Of all the prints located, only a few prints on the windows were identifiable. I attempted to lift the prints from the vehicle, but due to the heavy grime on the vehicle, no viable prints were able to be lifted from the glass surface; but a recognizable print was clearly photographed. After the dusting for prints, I photographed the damaged area of the vehicle and continued my field interview with Tesla Security.

Allen Pinkerton of Tesla Security advised me that the area in question is patrolled by their roving security vehicles, but nothing was noticed out of the ordinary. He indicated that there was one working camera in the area, but was unsure if the feed would be available or working properly. Pinkerton stated that he would request video surveillance review of the time frame, and would advise me of the results during follow up.

Upon completion of the scene investigation, [REDACTED] indicated that [REDACTED] did not display any physical violence or threats to her during their three months personal relationship. When asked, [REDACTED] did feel a bit personally threatened by him after the vandalism. I advised her that she would be able to make contact with our court system for additional resources or if needed we can make additional contact with [REDACTED] if he harasses her in the future. At the conclusion of the Field interview, case number 18-719 was assigned to the incident. I collected her statement and gave her my business card with the attached case number. Pass down will be given to Dayshift to attempt contact with [REDACTED]. Additional follow up will be conducted during the course of the incident investigation.

SUPPLEMENT 1

Page 1

18-719

This is a supplement to Deputy Glowniak's report.

On 08/09/2018, Deputy Glowniak requested I attempt to contact [REDACTED] and question him about the tampering of [REDACTED]'s car.

At approximately 0930, I called and spoke to [REDACTED] by phone. [REDACTED] told me the following in summary:

[REDACTED] stated he and [REDACTED] were not in a dating relationship. He said [REDACTED] was married, but like "other dudes" he was "simply hittin it" (having sex with [REDACTED]).

[REDACTED] said he left work early because he felt sick. I asked him where he was during the night and he said he went to several places in Reno, but did not go back to Tesla. I told [REDACTED] that there was video surveillance of the incident (a ruse). [REDACTED] still denied tampering with [REDACTED]'s car and said it was probably one of her other boyfriends. I asked him if any of the physical evidence collected by Deputy Glowniak would identify [REDACTED] as the one who tampered with [REDACTED]'s car and he said "no". [REDACTED] said that [REDACTED] was "crazy" and would say anything to get him in trouble.

[REDACTED] then asked if this was going to effect his job at Tesla. I told him that was between he and Tesla, and not the SCSO. I then concluded my conversation with [REDACTED].

Nothing further.

#18-719 Case follow-up:

08.23.2018

On 08.20.2018, I made contact with Tesla Security Supervisor Chris Milburn in regards to the vandalism incident concerning [REDACTED]'s vehicle on property. Milburn indicated that he will continue to follow up with their surveillance team in order to obtain any pertinent video feeds of the incident. Mrs. [REDACTED] has been made aware via multiple e-mail follow up, and will have the additional information regarding property damage to her vehicle by sometime next week.

Nothing Further.

SUPPLEMENTAL REPORT

Follow up investigation

Case 18-719

On August 28, 2018 I was at the Tesla Giga-factory investigating case 18-778, when I was able to make contact with members of the video surveillance team at the security office. They advised me that the area in question for case 18-719 (vehicle vandalism) had a faulty operational camera. The camera located at the location of vehicle vandalism did not relay any pertinent information or surveillance of the incident.

I made contact with [REDACTED] and advised her of the findings. Although upset, she understood that without actual footage of [REDACTED] in or about the area (or any other suspects related) we would have to close the case as leads exhausted unless other pertinent information surfaces in the foreseeable future. I advised her that if she is able to provide any other leads to the incident, the case would be re-opened and any additional investigation(s) would be provided.

If further information is provided to link a suspect to the vandalism done to [REDACTED]'s vehicle, the case will be re-opened and NRS/Storey County Code 205.274/9.04.010 Tampering w/motor vehicle will be pursued.

[REDACTED] was able to provide me with a property damage estimate of approximately \$5000.00 to her damaged vehicle.

Nothing Further.

Attachments: Houston statement

Narrative:

On August 16, 2018 at approximately 1124 hours I was dispatched to the Storey County Sheriff's Office for a walk in report in regards to the theft of a license plate.

Upon arrival, I met with the reporting party identified by his Nevada driver's license as [REDACTED] who was completing a voluntary statement. [REDACTED] stated on August 13, 2018 at approximately 0600 hours he arrived and parked at his place of employment, TESLA, located in at 1 Electric Avenue in McCarran, Storey County, Nevada. [REDACTED] stated prior to entering the building, he knew his front license plate ([REDACTED]) was on his 2006 Toyota Hatchback. [REDACTED] stated when his shift was over at approximately 1800 hours; he observed his front license plate was no longer on his vehicle. [REDACTED] stated he examined where the license plate was on the vehicle and observed the license plate bracket and screws holding the license plate in place were missing. I asked [REDACTED] if he parked in an area where there are video cameras; [REDACTED] stated he was unsure.

[REDACTED] stated he attempted to file a report with the Sparks Police Department (SPD); [REDACTED] stated SPD referred him to the Storey County Sheriff's Office as the theft took place in Storey County. I asked [REDACTED] if he made a report with Tesla security; [REDACTED] stated he is going to file a report with security when he returns to work on August 19, 2018. I asked [REDACTED] if there was anyone he knows that might have taken it; [REDACTED] stated "no." I asked [REDACTED] if there was anyone who has anger or hostility towards him; [REDACTED] stated "no." I advised [REDACTED] to file a report as soon as possible.

I asked [REDACTED] if he contacted the Department of Motor Vehicles (DMV); [REDACTED] stated he went directly to the DMV to report his stolen license plate. [REDACTED] stated the DMV listed his license plate as lost because he didn't file a police report. [REDACTED] stated the DMV issued him two new license plates for his vehicle ([REDACTED]). [REDACTED] stated he was filing a report so "whoever has it won't get me into trouble."

I gave [REDACTED] my business card with the case number referencing this report. I advised [REDACTED] after he makes a report to TESLA; to have them contact me if they have any pertinent details regarding this case. I advised [REDACTED] to contact the DMV and advise them he filed a report with law enforcement.

I researched the cost of replacement license plates through the Nevada DMV; results indicating new license plates cost approximately \$8.00.

The stolen license plate was listed into the NCIC.

This case is now closed unless new information or leads arise to which this case will be re-opened.

Nothing further.

NHP Form 5

Driver statements

Narrative:

On September 12, 2018 at approximately 0635 hours, I was dispatched to #1 Electric Avenue in the Tahoe/Reno Industrial center area of Storey County for a possible head-on crash with unknown injuries. Due to the reported severity, I requested that the Nevada Highway Patrol respond to assist with diagramming the incident.

Upon arrival on scene, I observed two vehicles in the #2 travel lane approximately 1/4 mile east of the north gate at Tesla, on Tesla property. Both vehicle had moderate to major damage. The first vehicle, V1, was a silver 2005 Subaru Forester bearing Nevada [REDACTED]. The vehicle had moderate damage to the right front side. I identified the driver as [REDACTED] from her Nevada Identification Card. V2, a red 2016 Mazda SUV bearing Nevada [REDACTED]. The driver of the vehicle was identified as [REDACTED] by his Nevada Drivers License. The vehicle had major damage to the right side including right rear wheel displacement.

[REDACTED] stated that she was traveling westbound after working her shift at Tesla, and was leaving the property. She dropped a lighter and was reaching for it. She stated that her hand got caught between the seat and console. She drifted off the roadway and struck a marker post, then came back onto the roadway and into the median. She then crossed the median and went into oncoming traffic (eastbound) traffic. She stated that she then began to steer to avoid oncoming traffic and struck the red Mazda.

[REDACTED] stated that he had just passed through the Tesla gate and observed the silver vehicle traveling westbound. The vehicle left the roadway on the right side and then over corrected to the left. The vehicle then crossed in front of him and came back and struck him in the right side with its front right side. There was major damage to V2, including right rear wheel displacement. V2 came to rest facing southeast in the #2 travel lane. V1 had damage to the right front passenger side and came to rest in the median facing northwest. V1 was moved prior to my arrival and was parked next to V2 in the #2 travel lane.

[REDACTED]'s driver status came back as suspended, however the crash occurred on private property. Photos were taken of the scene and statements were obtained by both drivers. V1 was able to be driven from the scene and V2 was towed from the scene by D&S Towing. Due to the crash occurring on private property, no enforcement action was taken.

NARRATIVE

Page 1

18-845

On 09/14/2018, I was patrolling the Tahoe Reno Industrial Park of McCarran, Storey County, NV.

At approximately 0643 hrs, I was dispatched to the report of a traffic incident. When I arrived on scene, I saw two vehicles parked on the side of Electric Ave approximately 100 feet from the main entrance of Tesla. When I exited my patrol car, I saw two WMA's exchanging driver and vehicle information.

I spoke to D1- [REDACTED] who told me the following in summary:

[REDACTED] said he was traveling East in the number 1 lane on Electric Ave approaching the main entrance to Tesla. [REDACTED] said he began having a sneezing attack and drifted slightly right into the number 2 lane. He said he felt a slight "bump" and realized he had hit a car next to him. [REDACTED] and the driver of the other car pulled over and began exchanging information for the insurance companies.

I then spoke to D2- [REDACTED] who told me the following in summary:

[REDACTED] said he was traveling East in the number 2 lane on Electric Ave. He said as he approached the main entrance gate to Tesla, he saw the vehicle in the number 1 lane drift over into his lane and bumped his car. He pulled over and spoke to [REDACTED]. They then began to exchange information for insurance purposes.

I looked at V1 ([REDACTED]) and saw slight damage to the front passenger door (paint transfer). Other damage to the bottoms of the front passenger and rear passenger doors was due to a prior accident. I looked at V2 ([REDACTED]) and saw slight damage to the front driver's side door and front quarter panel (paint transfer).

A records check showed both [REDACTED] and [REDACTED] to have valid NV driver's licenses. Both parties showed current vehicle insurance. Both parties agreed to exchange insurance information due to the minimal amount of damage. Neither party sustained any injury.

This report is for informational purposes only.

NARRATIVE

Page 1

18-846

On 09/14/2018, I was patrolling the Tahoe Reno Industrial Park in McCarran, Storey County, NV.

At approximately 0910 hrs, I was dispatched to the report of a weapons brandishing. When I arrived at the Tesla Gigafactory, I spoke to RP-Clark, Rick who told me the following in summary:

Clark is the security supervisor for Tesla. He said he was alerted by an employee to a Facebook (a social media website) posting from another employee. In the Facebook posting, "██████████" posted two pictures and a paragraph stating a person in a car had pointed a gun at him because he "didn't get out of his way fast enough". The first picture shows a bearded WMA driving a Ford sedan pointing a handgun. This picture was taken of the victim's driver's side mirror showing the suspect was behind him. The second picture is of the rear of the suspects car showing the license plate (██████████). In reading the comments left, it sounded like both the victim and the suspect both worked for Tesla.

Clark said that Tesla has records for all license plates to employees cars. He said ██████████ belongs to S-██████████. Clark said ██████████ was currently working, and Clark was going to escort him from the property. Clark said it is against Tesla's policy to possess firearms on Tesla property. Clark said a records check showed no one named "██████████" working at Tesla.

Clark took me to where ██████████ vehicle was parked and I saw it matched the vehicle seen in the pictures. Clark brought ██████████ to where his vehicle was at. I spoke to ██████████ and he told me the following in summary:

I asked ██████████ if he knew why I was there and he said it was about a firearm. He said he had mentioned to another employee that he had a gun in his car. I asked him if he had pointed the handgun at anyone and he said "no". He then changed his story and said he "showed" someone the gun while driving because he felt his life was in danger. I again asked him if he pointed the firearm at anyone and he again changed his story saying someone was trying to "ram" his car on the freeway. ██████████ said he was in fear of his life so he pointed the firearm at the other driver. I asked him if he called 911 because he was in fear of his life and he said "no". He again said he was in fear of his life.

I asked ██████████ if the firearm was still in his car and he said "yes". I asked ██████████ if he would unlock his car and he did. Parks pointed to a small black handgun in a black holster located in the driver's side door panel. I asked ██████████ if I could retrieve the handgun and he said "yes". I took the handgun from the door panel. It had a loaded magazine inserted in the handgun and another loaded magazine attached to the holster. I removed the magazine and cleared it. The handgun did not have a round in the chamber. A records check showed no match for the handgun's serial number (Taurus 9mm serial # TIP02486).

Clark said Tesla security would be escorting ██████████ from the property. I asked ██████████ if I could return the handgun to him once he was outside of Tesla's property and he said "yes". I followed ██████████ to the security gate. After he pulled over, I returned the handgun, holster and two magazines to ██████████. I admonished him and told him it was against Nevada law to point a handgun at anyone in a threatening manner. I told him that I did not believe he was in fear of his life, and since I did not have a victim, he would be released.

After leaving ██████████, I was notified by Tesla security that the victim had come to the security office and

wanted to report the incident. I returned to Tesla and spoke to V- [REDACTED] who told me the following in summary:

[REDACTED] only uses his first and middle name for his Facebook account (the reason Tesla security was unable to find an employee named "[REDACTED]"). [REDACTED] said on 09/13/2018 at approximately 1800 hrs, he was driving home from work traveling Westbound on I-80 near the Mustang Rd exit. He said he was in the number 1 lane going approximately 80 MPH. He said a dark colored sedan approached him from behind at a high rate of speed. [REDACTED] said there were other vehicles in the number 2 lane and he was unable to move over. He said the dark sedan followed him very close [REDACTED] said the sedan was following him so close, he was afraid the sedan would hit him so he tapped on his brakes to get the driver to back away. [REDACTED] said when he looked in his rear view and side mirrors, he could clearly see the driver was pointing a handgun at him. [REDACTED] said he used his cell phone and took a picture of the driver pointing the handgun at him. [REDACTED] was then able to move over into the number 2 lane. The driver of the sedan then passed him at a high rate of speed. As he passed, [REDACTED] said he could see the reflective vest worn by other employees of Tesla. He used his cell phone and took a photo of the sedan's rear license plate. [REDACTED] said he posted the pictures on his Facebook to alert other employees of what had happened.

I asked [REDACTED] if he was in fear of his life and he said "yes". [REDACTED] said he called 911 and reported it to an NHP dispatcher. He also said he made an online report with Reno PD but did not know the report number. Mobley filled out a SCSO Statement Form which I scanned and attached to this report.

I attached screen shots of [REDACTED]'s facebook post (under "[REDACTED]") as well as the two photos showing [REDACTED] pointing the handgun and the rear of [REDACTED]' car showing the license plate. Since this occurred on I-80, please forward this report to NHP for follow up.

Attachments:

- 1- Mobley's statement.
- 2- Screen shot of [REDACTED]'s Facebook post.
- 3- Two photos from [REDACTED]'s Facebook showing [REDACTED] pointing a handgun and the rear of [REDACTED]' car.

NARRATIVE

Page 1

18-877

On September 19, 2018 at approximately 1910 hours I was dispatched to Tesla located at 1 Electric Ave in the Tahoe Regional Industrial area of Storey County, Nevada for a report of a past tense hit and run. Upon arrival I met with Tesla Security who informed me that the reporting party was near the front lobby. Tesla Security allowed me on to the property. I responded to the lobby and made contact with reporting party [REDACTED].

[REDACTED] escorted me to his vehicle located at the north end of the parking lot. The vehicle was a silver Toyota SUV bearing NV license plate [REDACTED]. The vehicle had moderate damage to it's front as it was missing the bumper. There was no other damage to the vehicle.

[REDACTED] stated the vehicle was parked in the parking lot on 09/16/2018 at approximately 1500 hours and sat till 09/17/2018 approximately 1000 hours. [REDACTED] stated his vehicle was struck by an unknown vehicle with enough force to remove the front bumper from the frame. [REDACTED] indicated he had loaned his vehicle to a friend when the incident happened and just learned of damage on this date.

[REDACTED] indicated he asked Tesla Security for video surveillance, but had not heard anything. [REDACTED] was not sure exactly when the incident occurred as he was not there. His friends did not report it either. At this time I have no witnesses or suspects and have no time line of the event.

Nothing Further.

NARRATIVE:

On September 25, 2018 at 0652hrs, while currently investigating a head on collision at Electric Avenue and Milan Drive (see case 18-894), I was hailed by a passing motorist that advised me of a past tense accident she was involved in. The reporting party, identified as [REDACTED] indicated that another vehicle unknown to her had struck her vehicle and left the scene. [REDACTED] indicated that she was leaving from the Tesla Giga-Factory; located in the area of TRI McCarran, Storey County Nevada.

I had [REDACTED] pull off to the side of the road away from the accident and initiated a brief field interview, while Deputy Francone continued to assist on the current traffic collision. [REDACTED] advised me that while pulling out of Tesla, a gray in color Ford bearing Nevada plate number [REDACTED] had went over the double yellow, and struck her vehicle. The driver of the vehicle briefly made contact and left the area without providing information. Due to the heavy volume of traffic control caused by the accident, I was unable to fully investigate [REDACTED]'s incident at that time. I had [REDACTED] go back to her vehicle to complete a statement.

Upon completion of her statement, I took photos of her vehicle and advised her that either another Deputy or I would be making contact as soon as possible for additional follow up. [REDACTED] was very understanding of the current situation, and case number 18-895 was assigned to her incident. I gave [REDACTED] my business card with the assigned case number, and she was able to leave the area without incident.

Note: upon making contact with Dispatch, there were no current matches found with the above given license plate number. I advised dayshift (Deputy Hamblin) of the incident to assist in case follow up. Continual investigation and follow will be added via additional supplemental reports as needed.

Nothing further at this time.

SUPPLEMENTAL NARRATIVE:

Case #18-895

On October 1 , 2018 at 0730 hours, I attempted several times to contact [REDACTED] in regards to case 18-895 follow up. The phone number provided by [REDACTED] on her statement comes up as invalid or disconnected. At this point in time, the limited information provided by [REDACTED] on her original statement gives little to continue additional investigation until contact is remade by [REDACTED]. A Form 5 has been created and attached to her case and until additional information is provided, case number 18-895 will be pending until further notice.

I relayed the information to our Office Administrators via rims messaging, to provided me with any additional contact information, if [REDACTED] makes contact with our Office in the future.

Nothing Further.

Case# 18-895

As of October 10, 2018, The reporting party, identified as [REDACTED], has not made any additional attempts to make contact with our office to provide additional information for case follow up. It is my recommendation that this case be suspended as leads exhausted, due to lack of pertinent information needed to proceed with the investigation. If [REDACTED] is able to make contact at a future date and time, the case will be re-opened and re-evaluated..

Nothing Further.

Supplemental Report
Case#18-895 Case Follow up
10.15.2018

On October 15, 2018, [REDACTED] made contact with me in regards to case follow up. She was able to provide me with an accessible current phone number. [REDACTED] indicated that the vehicle that had struck her was a newer model silver Ford car. She was unable to determine the make and year. She also described the driver as a young male Hispanic adult, average height, and early 20's.

[REDACTED] indicated that she has not seen the vehicle or driver since the incident. I advised her that the case was completed and a form 5 was submitted; with all information available for her insurance company upon request at the business office. I also explained to [REDACTED], that upon any additional information we receive to identify and link the suspected unknown driver to the incident, continued investigations will be conducted, with possible charges filed upon identification.

Nothing Further.

NARRATIVE

Page 1

18-909

On September 28, 2018 at approximately 2029 hours, I was dispatched to past tense single vehicle (motorcycle) incident located at the entry gate of TESLA (#1 Electric Avenue) in the TRI McCarran area of Storey County the crash occurred on private property.

Upon arrival, I met with the driver of the motorcycle identified as [REDACTED] via his California driver's license. The motorcycle was identified as a black colored Yamaha R6 bearing CA [REDACTED]. [REDACTED] indicated he fell off his motorcycle after hitting a rock in the roadway with his front tire. [REDACTED] stated he had just left the parking lot near the main TESLA building, and as he entered the roundabout noticed a large sized rock in the middle of his traveling path. [REDACTED] indicated he was traveling roughly 10 mph when his front tire struck the rock thus throwing him off his motorcycle and into the gravel. Another vehicle stopped to assist [REDACTED] and to help recover his motorcycle.

[REDACTED] stated he rode his motorcycle from the roundabout to the north TESLA gate, approximately 1/2 mile. [REDACTED] indicated his side hurt and asked to have the local fire department respond and perform an assessment. Storey County Fire Department was on scene when I arrived and indicated [REDACTED] had a little road rash from his fall, but declined any further medical attention.

Due to the fact that the motorcycle was moved and relocated from the scene of the crash, no investigation was completed and no FORM 5 will follow. I had [REDACTED] fill out a voluntary statement and I took several photographs of the damage claimed against the motorcycle.

Nothing further

Page 1

18-923

On 10/05/2018, I was patrolling the Tahoe Reno Industrial Park in McCarran, Storey County, NV.

At approximately 1000 hrs, I responded to Tesla to take custody of suspected drugs which had been located by Tesla Security. When I arrived on scene, I was given eight sealed bags attached to Tesla Security Chain of Evidence forms. I was told the bags contained suspected drugs/paraphernalia which have been found on Tesla property over the past month. There were no know suspects associated with the drugs and paraphernalia.

I took possession of the eight bags as found property for destruction. When I arrived at the Lockwood substation, I began inventorying the collected bags. Most of the contents could be readily identified through the clear bags. One bag contained a non-hypodermic syringe (without a needle) containing an unknown bright white liquid substance. Two bags contained vape pens with an unknown substance. One bag contained suspected marijuana. One bag contained a rolled dollar bill. One bag contained a black eyeglass pouch and was labeled as a pipe. Another bag contained a black zipper pouch labeled a an unknown substance.

Without being able to see inside the eyeglass case and black zippered pouch, I could not properly inventory the contents or see if there was any information identifying the owners. I opened the bag containing the eyeglass case. Inside I saw a piece of tissue paper and a glass pipe containing a white residue. I recognized this from my training and experience as an instrument to smoke narcotics. I placed the pipe, tissue and eyeglass case back into the Tesla Security bag.

I opened the bag containing the black zippered case. Inside I saw a hollow metal rod, a bag containing a white crystalline substance and a used NIK kit (presumably from Tesla Security). I recognized the crystalline substance as suspected methamphetamine. A NIK test had a positive result for methamphetamine. The weight of the suspected methamphetamine was 2.9 grams. I placed the suspected methamphetamine, hollow metal rod, black zipper pouch and used NIK kits back into the Tesla Security bag.

I placed all eight Tesla Security bags into a large evidence bag. I logged the eight bags into Lockwood evidence as found property for destruction. I attached three photos to this report.

This report is for informational purposes only.

On 10/11/2018, I was patrolling the Tahoe Reno Industrial Park in McCarran, Storey County, NV.

At approximately 1300 hrs, I was dispatched to the report of a theft. When I arrived on scene, i spoke to RP-Mandoki, Jesse who told me the following in summary:

Mandoki said he is a manager for Quality Plus Services (QPS) which is contracted by Tesla to perform construction on the Tesla property. Mandoki said on the prior night (10/10/2018), a QPS security guard noticed a padlock on a shipping container (which QPS uses for storage) was unlocked. The security guard remembered the lock being locked on an earlier check. The security guard re-locked the container and continued his patrol. Later that night, the security guard returned to check the container. He said as he approached the container, he saw an adult male, unknown race wearing a black hooded sweatshirt. The male ran off as the security guard approached. The security guard saw the shipping container was again, unlocked. The security guard looked inside the container and saw several 2 - 3 foot sections of thick copper wire. The wire appeared to be staged and hidden. Mandoki said the security guard notified Tesla security. Neither QPS nor Tesla security notified SCSO of the incident when it happened.

Mandoki showed me several sections of thick copper wire which were recovered from the container. I recognized the type of copper wire which is referred to as "#1 bright". This type of copper has the highest recycle value. SCSO has taken numerous copper wire theft reports/arrests from the Tesla facility and from the contract companies working on the property.

Mandoki then told me of another incident involving a ex-employee. Mandoki said an ex-employee named M1-Williams, Kevin was recently terminated after he was found attempting to steal several power tools. Mandoki said Williams was actually in charge of keeping and maintaining the tools for QPS. Mandoki said numerous tools have been stolen, and he suspected Williams was responsible.

Mandoki said he purposely left tools out in hopes that he could discover who was stealing them. He said he found many of these staged tools were then "hidden" by an unknown person. Mandoki found these tools hidden in places where they could be stolen without anyone seeing. Mandoki then confronted Williams as he was attempting to leave the Tesla property. Mandoki discovered Williams had several power tools belonging to QPS.

Mandoki said Williams confessed to taking tools belonging to QPS. Williams also named two additional employees (M2-Drew, Dalton and M3-Perez, Chad) saying they were also stealing tools and copper wire from the Tesla property. Mandoki said Drew no longer works for QPS, but Perez is still employed.

I asked Mandoki why SCSO was not call for these incidents. He said Tesla security was notified when the shipping container was broken into. Mandoki said Williams was caught attempting to steal the tools, but never left the facility. He terminated Williams and decided not to call the SCSO. I told Mandoki that since SCSO was not notified, I would write an informational report and attempt to see if Williams, Drew or Perez could be associated with any other thefts.

Under Nevada NRS 646.030, all pawn shops have to provide a copy of all transactions to local law enforcement. Under Nevada NRS 647.030, all metal scrap transactions must be recorded. Both statutes require the identifying information be taken of the person making the transactions. On 10/12/2018, I

used an online service called LeadsOnline which tracks all pawn shop transactions as well as scrap metal transactions. When I entered Williams' name and DOB, I found three transactions for "#1 bright and shiny copper wire" totaling \$701.92. These transactions occurred on 07/24/2018 (\$99.76), 08/02/2018 (\$504.56) and 09/25/2018 (\$97.60). These transactions were all done at Sims Metal Management located in Sparks.

I next entered Drew's name and DOB into LeadsOnline. I found six transactions in total. Three transactions were for tools and three transactions were for #1 bright copper. The three tool transactions totaled \$500.00 occurring on 09/24/2018 (\$50.00 Dewalt cordless drill with battery and charger), 09/27/2018 (\$250.00 Milwaukee work light and Greenlee cement hand tool) and 10/03/2018 (\$200.00 Dewalt rotary hammer). Two of the pawn transactions were done at Premier Pawnbrokers located in Fallon. One transaction was done at Metro Pawn located in Sparks. The three #1 copper transactions totaled \$1298.94 and occurred on 07/30/2018 (\$216.27), 08/10/2018 (\$559.26) and 08/13/2018 (\$523.41). The copper transactions were done at Sims Metal Management in Sparks.

I contacted Mandoki by phone and asked him what brand of tools QPS uses. Mandoki said they buy Milwaukee and Dewalt tools. Madoki said he will attempt to get the serial numbers to the tools QPS has purchased. When I get the serial numbers, I will compare them to the pawn transactions.

I entered Perez's name into LeadsOnline and did not get any results.

As of 10/12/2018, there is not enough evidence to show the pawn shop and metal recycling transactions were made with stolen property. I attached copies of the pawn shop and copper recycling transactions to this report.

I am suspending this report pending further information.

NARRATIVE

Page 1

18-974

On October 18, 2018 at approximately 1809 hours, I was dispatched to #1 Electric Avenue (TESLA) in the TRI McCarran area of Storey County for an employee acting aggressive towards security. Storey County Dispatch updates with TESLA Security is requesting assistance located at the main entrance to the building where the subject is currently detained.

Upon arrival, I met with TESLA Security Officer, James Tigan aka "J.T." at the main gate entrance off Electric Avenue. Officer Tigan waved me through, stating I was needed at the main building entrance and he would meet me there. Shortly after and at the main building, Officer Tigan mentioned the subject, later identified as [REDACTED], was a separated employee as of today and when asked to leave the property attempted to push his way into the lobby of the main building via an open door of someone else leaving the building. This is when Officer Tigan and two other TESLA Security Officers both identified as Braawn Conrad and Abraham Torres-Romero.

See attached statements from all three (3) TESLA Security Officers: Tigan, Conrad and Torres-Romero.

Later, I spoke with both TESLA Security Officers Miguel Liquidano-Cortez and Tracey Smart about the incident. Officer Liquidano-Cortez mentioned assisting Officer Smart during the employee rush hour and she (Officer Smart) needed assistance with a separated employee ([REDACTED]). Officer Liquidano-Cortez advised [REDACTED] to turn his access badge in and leave. However, [REDACTED] ignored Officer Liquidano-Cortez. Officer Liquidano-Cortez recalls Officers Conrad and Torres-Romero arriving on scene and requesting he go back inside and help with the rush hour. Officer Liquidano-Cortez states minutes later, he notices [REDACTED] (separated employee) and Officers Tigan, Conrad and Torres-Romero all on the ground. Officer Liquidano-Cortez stated he went outside to provide crowd control and was assigned to watch over [REDACTED] until my arrival.

Officer Smart stated she noticed an employee had an invalid badge, and after checking the numbers realized he was listed as separated. Officer Smart was attempting to check-in two (2) visitors, later identified as the parents of [REDACTED], but find them on the list for visitors. Officer Smart mentions as she was attempting to speak with the guest, later identified as the step-father [REDACTED], [REDACTED] would not make eye contact or communicate with Officer Smart. This behavior alarms Officer Smart and she requested immediate assistance. The rest of what Officer Smart relays is exactly what all other TESLA Security Officers previously mentioned.

See attached statements for both (2) TESLA Security Officers: Liquidano-Cortez and Smart.

After speaking with both [REDACTED] (separated employee) and his step-father [REDACTED], the message was similar. [REDACTED] mentioned knowing he was being separated today, and had brought his parents with him to TESLA to speak with his now ex-boss about a possible resolution. [REDACTED] stated his boss mentioned meeting him in the main lobby but never showed. [REDACTED] indicated he had gone outside to phone his boss and upon attempting to return inside with his family he was denied access. [REDACTED] stated he was being told to leave the premises as he was no longer an employee. [REDACTED] mentioned he had come with his parents together and only wanted back inside to where they were located, and obviously they were watching the whole incident taking place outside the main lobby doors.

[REDACTED] indicated after witnessing his stepson being thrown to the concrete, that he then went outside to

prevent any further harm to his son, [REDACTED].

I noted [REDACTED]'s mother walk away in disbelief and never return. I never caught her name or had the chance to really speak with mom about what she had witnessed.

See attached statements for both (2) [REDACTED] and [REDACTED].

I noticed a small redness on the forehead of [REDACTED]. [REDACTED] indicated that it was from the takedown. I had Storey County Fire Department (SCFD) provide a patient evaluation. [REDACTED] was compliant with SCFD and refused any transportation via ambulance, stating he would go with his parents to the hospital.

Later, I spoke with TESLA Global Security Officer, Jeff Jones, located in the Sacramento area of California via telephone. Officer Jones indicated that the best solution now would be to officially trespass [REDACTED] and be done with the incident.

I had all parties involved fill out a voluntary statement. I officially Trespassed [REDACTED] advising that he not return to TESLA unwanted or he could be taken into custody. [REDACTED] indicated he understood the terms. I also advised [REDACTED] that if anything were to come about after seeing the doctor to bring all paperwork to the Lockwood Substation and I would add it to the case.

Nothing further

NARRATIVE

Case 18-983

10.24.2018

On October 23, 2018, at 0516 hours, I was dispatched to a reported verbal altercation at the Tesla Giga-Factory; located in the area of TRI McCarran, Storey County Nevada. Per dispatch, Tesla Security had two Panasonic employees separated on scene.

Upon making contact with Panasonic management, I was advised that the two employees involved were identified as [REDACTED], and [REDACTED]. I was advised that both subjects had gotten into a verbal argument and had threatened each other. Panasonic supervisor identified as [REDACTED] advised me that as the argument became heated, the following verbal exchanged occurred:

"[REDACTED] replied "okay let's go" then [REDACTED] said "I will kill you" and [REDACTED] replied to that "I have my CCW and if you threaten me I will shoot you" they then got broken up and [REDACTED] tried to apologize and [REDACTED] didn't want to talk to him."

[REDACTED] indicated that the incident was verbal in nature and both employees were separated before it became a physical altercation. After gathering the initial assessment of the incident, I made contact with [REDACTED].

[REDACTED] indicated that the argument was a misunderstanding that got out of hand. He stated that after [REDACTED] threatened him, he had advised him that he has a CCW and would defend himself. [REDACTED] did not wish to disclose [REDACTED]'s exact phrase said to him, and indicated that he realized it was more of heated argument and he had no imminent fear for his life. [REDACTED] wished to settle the matter as is, and did not wish to complete a statement.

When talking to [REDACTED] about the incident, he indicated that the argument happened due to a misunderstanding. He stated that [REDACTED] had his service cart temporarily blocking a passageway. He attempted to get his attention several times. When it appeared that [REDACTED] was ignoring him, he started to move the cart. As [REDACTED] notices him, he tells him to leave the cart. As they start to yell at each other, [REDACTED] indicated that it "just a bunch of blah blah blah smack talking" He later realized that [REDACTED] had earphones in, and was not purposely ignoring him. [REDACTED] also wished to settle the matter as is, and did not wish to complete a statement.

Based on the nature of the incident and no actual intent to cause harm or malice, no action was taken on scene. Panasonic management indicated that both employees were suspended for the day and only wanted the incident to be document. Case number 18-983 was assigned to the incident and my business card was given to management. [REDACTED] indicated that she would email me a voluntary statement upon conclusion of their review of the incident. Both employees would be leaving the area shortly, and I was able to clear the scene without incident.

Nothing further.

18-995

On 10/27/2018, I was patrolling the Lockwood area of Storey County, NV.

At approximately 0947 hrs, I was notified by SCSO Dispatch of a walk-in report at the substation. When I arrived on scene, I spoke to RP- [REDACTED] who told me the following in summary:

[REDACTED] said he and W-[REDACTED] work together at the Tesla Gigafactory for Panasonic. He said another co-worker (S-[REDACTED]) used to be in a dating relationship with [REDACTED]. [REDACTED] said [REDACTED] has confronted [REDACTED] and [REDACTED] accusing them of being in a dating relationship. [REDACTED] denies dating [REDACTED] and states he is married. [REDACTED] said he has notified Panasonic management of these confrontations, but they keep occurring.

[REDACTED] said today, he was walking with [REDACTED] to her car because she has been having mechanical difficulties with it. [REDACTED] said he was going to look at it to see if there was anything he could do. [REDACTED] said as they walked towards [REDACTED]'s car, [REDACTED] again confronted them in the parking lot. [REDACTED] said [REDACTED] "shoved" him in the chest and told him to stay away from [REDACTED]. [REDACTED] said [REDACTED] told him if he ever caught [REDACTED] with [REDACTED] again, he would "see what happens".

[REDACTED] said he got in the passenger seat of [REDACTED]'s car and drove away. [REDACTED] said [REDACTED] chased them in his car to the gas station at 500 USA Parkway. [REDACTED] and [REDACTED] changed seating positions and [REDACTED] drove onto I-80. [REDACTED] said as they drove West on I-80, [REDACTED] continued to follow them. [REDACTED] said he had to speed to 120 MPH to get away from [REDACTED]. [REDACTED] and [REDACTED] went to the Sparks Police Station to report what had happened, but they were closed. They then returned to the Lockwood substation to report the incident.

I asked [REDACTED] if [REDACTED] had made any threats to physically harm him and he said "not this time". [REDACTED] said [REDACTED] had made threats to batter him on prior confrontations. [REDACTED] said he wanted a report taken and planned on going to Virginia City to get a restraining order against [REDACTED].

I spoke to [REDACTED] and her story was consistent with [REDACTED]'s. Both [REDACTED] and [REDACTED] filled out SCSO Statement Forms which I attached to this report.

I attempted to contact [REDACTED] by phone, but did not get an answer. I left a message asking him to contact me concerning this incident. As of 1510 hrs, I have not spoken to

Statement from Fortuna

Narrative:

On October 29, 2018 at approximately 1430 hours, I was dispatched to Tesla, located at 1 Electric Avenue in the Tahoe/Reno Industrial Center area of Storey County in reference to a past tense motor vehicle crash.

Upon arrival, I spoke with the reporting party, identified by his Nevada Driver's License as [REDACTED]. [REDACTED] stated that on the 26th at approximately 1730 hours he went to his vehicle at the end of his shift to return to his residence and discovered that his vehicle had been struck. The vehicle is a white 2008 Toyota 4Runner bearing Nevada [REDACTED]. [REDACTED] stated that he reported the incident to Tesla Security, however, they refused to provide him with any information on the striking vehicle. He was requesting that a report be completed.

I advised [REDACTED] that since the incident had occurred in a parking lot on private property, it is not considered a traffic crash, but rather a traffic incident. I advised him that I would be happy to complete a report on the incident for him.

I inspected his vehicle and observed visible scratching and paint transfer on the driver side area of the rear bumper and tail light. I photographed the area and had [REDACTED] complete a statement form and I photographed the vehicle.

Driver and witness statements
NHP Form 5

Narrative:

On October 29, 2018 at approximately 1500 hours, I was dispatched to an unknown injury motor vehicle crash near the north gate of the Tesla Gigafactory located at #1 Electric Avenue in the Tahoe/Reno Industrial Center area of Storey County.

Upon arrival, I observed a silver 2 door hatchback in a ditch in off the westbound shoulder of the roadway. The vehicle was bearing Nevada [REDACTED] and appeared to have minor damage to the front and rear of the vehicle, however, was unable to be removed from the ditch without a tow.

The second vehicle was parked along the driveway entrance to 700 Milan Drive. The vehicle was bearing Nevada [REDACTED] and had moderate damage to the front end.

I then began my investigation. I located the drivers of the vehicle. The driver of the vehicle that was parked in the driveway, a 2017 Dodge Journey, was identified as [REDACTED] by her Nevada Driver's License. [REDACTED] stated that she was traveling westbound on Electric Avenue leaving Tesla property. She stated that she looked down briefly at her navigation screen and when she looked up, she noticed a line of cars stopped in front of her. She hit her brakes but was unable to avoid hitting the car in front of her. She stated after she struck the vehicle, it veered off into the ditch.

I then located the driver of the vehicle in the ditch, a 2006 Toyota Scion, identified as [REDACTED] by his Nevada Driver's License. [REDACTED] stated that he was stopped for a line of cars and was struck from behind by [REDACTED].

I also located an independent witness, identified as Anthony Carter, a security officer for Tesla that was assigned to the north gate. Carter stated that he heard a bang and observed that the SUV had struck the car and the car then went into the ditch. [REDACTED], [REDACTED] and Carter completed written statements and I photographed the vehicles. The #2 lane was blocked temporarily by Tesla Security until I advised them that both vehicles were safely off the road and it could be reopened.

Both drivers advised that they were wearing their seatbelts at the time of the crash and [REDACTED] advised that she was traveling approximately 30 mph. I did not locate any skid marks, which would be consistent with a low impact crash and that the Dodge Journey was equipped with anti-lock braking. I further observed that when [REDACTED]'s vehicle went into the ditch, it struck a metal road marker post belonging to Storey County.

I then concluded my investigation and concluded that [REDACTED] was stopped in the #2 travel lane of Electric Avenue. [REDACTED] was leaving Tesla and was distracted by an electronic device within the vehicle. Upon seeing that the vehicles in front of her had stopped, she applied braking but was unable to avoid a collision and struck [REDACTED]'s vehicle which caused it to go into the ditch. I determined that [REDACTED] was the at fault vehicle in this crash and she will be issued a citation for following too closely.

[REDACTED] was able to remove her vehicle from the scene. Milne Towing arrived and removed [REDACTED]'s vehicle from the ditch and towed it to their yard for storage.

NARRATIVE

Page 1

18-1011

On October 31, 2018 at approximately 1530 hours I responded to Renown Main located at 75 Pringle Way in Reno, NV to meet with a female victim involved in an unknown assault. The assault was reported as taking place inside Panasonic located at 1 Electric Ave in Storey County, NV. The nurse reporting the incident was uncertain as to the exact circumstances involving the assault, but referred the incident to the Sheriff's Office.

Upon arrival I met with a nurse and doctor in the purple area rooms 70 - 81. They indicated that nothing was determined and they had not spoke with the victim about specifics in regards to the assault. I walked to room 70 and made contact with [REDACTED]. Her significant other was inside the room as well. I asked him if he could wait outside while I spoke with [REDACTED]. [REDACTED] stated she is an employee of Panasonic and has been since July of this year. She indicated she was working on this day.

[REDACTED] stated she walked into the waste-room to get trash bags and thought she was alone. [REDACTED] stated her Lead (supervisor) [REDACTED] came up from behind her and placed his hands on her breasts. [REDACTED] stated she turned around and asked [REDACTED] what he was doing. [REDACTED] stated he responded by saying "whatever I want." [REDACTED] stated [REDACTED] told her if she wanted to keep her job she needed to do whatever he wanted. [REDACTED] stated [REDACTED] then told her to get on her knees. [REDACTED] stated she refused and tried to step around him. [REDACTED] stated [REDACTED] blocked her path and reached for her zipper on her work gown. [REDACTED] stated she hit him in the gut and ran out of the room.

[REDACTED] stated she left work and contacted the temp agency that employs her through Panasonic. [REDACTED] stated she spoke with human resources and advised them of the incident. [REDACTED] indicated she was placed on paid leave for a week pending the outcome of the investigation. [REDACTED] stated she did not know [REDACTED]'s last name, but knew he was employed through Panasonic.

[REDACTED] indicated there was no penetration of her vaginal area and that only her breasts were touched without her consent. She reported no injuries and was evaluated by a nurse involving her vitals.

[REDACTED] indicated she did not want to pursue the incident and did not want to press charges against [REDACTED]. She stated she was in fear of retaliation from work and worried that she would be harassed by [REDACTED] as he has access to her address and phone records. [REDACTED] indicated [REDACTED] has in the past harassed her about her ethnicity in regards to where she use to live. [REDACTED] was adamant in not taking any legal action.

I provided [REDACTED] with my business card and case number. I advised her that she has the ability to reopen the investigation should she change her mind. I then made contact with the doctor and provided him with the outcome of my investigation. He indicated that he was going to release her without an evaluation.

At this time, I request this case be closed as the victim wishes to not press charges.

Nothing Further.

SUPPLEMENT 1

Page 1

18-1011

On November 5, 2018 at approximately 1530 hours I spoke with Andrew Goble head of Panasonic Security. He was able to provide information in regards to [REDACTED] (suspect) and indicated his last name was [REDACTED] (DOB [REDACTED]). He confirmed [REDACTED] to be an employee of Panasonic and a Lead (supervisor). Goble indicated [REDACTED] was involved in a recent harassment that human resources was currently investigating. Goble stated [REDACTED] was suspended pending the outcome of the investigation involving the harassment which he believed would potentially lead to a termination. Goble indicated he was unfamiliar with the details of the harassment.

As for Goble not being familiar with the details involving the assault, [REDACTED] made it very clear during my interview that she was not giving specifics to human resources as she wished to keep the incident on the down low in fear of retaliation by her employer and [REDACTED].

Goble indicated he would review video surveillance leading in and out of the waste room where the alleged sexual assault took place as there are no cameras inside the room itself. He stated he would provide video if he is able to identify both [REDACTED] and [REDACTED] entering the waste room.

At this time [REDACTED] has not made contact with the Sheriff's Office requesting the case be reopened for potential charges however [REDACTED]'s information has been entered into Rims for later identification should she later request otherwise.

Nothing Further.

NARRATIVE

Page 1

18-1022

On 11/03/2018, I was patrolling the Tahoe Reno Industrial Park in McCarran, Storey County, NV.

At approximately 0826 hrs, I was dispatched to the report of a past tense accident involving a vehicle and pedestrian. RP- [REDACTED] arrived at the Lockwood substation and told me the following in summary:

[REDACTED] said on the previous evening (11/02/2018) at approximately 1810 hrs, he was getting off from work at the Tesla Gigafactory. He said as he was walking through the parking lot towards his vehicle, he was struck from behind by a car. [REDACTED] said the impact knocked him to the ground. When [REDACTED] stood up, the driver angrily asked "What are you doing". [REDACTED] said he told the driver that accidents involving vehicles and pedestrians are automatically the driver's fault. The driver then denied hitting [REDACTED]. When [REDACTED] mentioned calling for law enforcement, the driver again became angrily asked if [REDACTED] wanted them called.

[REDACTED] said both he and the driver were angry and yelling. [REDACTED] said he was possibly in "shock" or "concussed" so he did not think to ask the driver for his license and insurance information. [REDACTED] said he told the driver that if [REDACTED] ended up noticing injuries, he would "get in touch". [REDACTED] said he took one digital photo of the vehicle's license plate ([REDACTED]). [REDACTED] also saw a passenger in the car and thinks it was a female. [REDACTED] described the vehicle as a black colored sedan (unknown make and model).

[REDACTED] said as he walked to his car after the incident, he began feeling pain to his back, neck, shoulders and knees. [REDACTED] said when he returned to work on 11/03/2018, he notified Tesla security of the incident. He was instructed by [REDACTED] to go to the doctor. [REDACTED] said he was going to the hospital in Reno after he finished making this report.

I asked [REDACTED] if he called SCSO last night after the incident and he said "no". He again claimed he might have been "concussed" and did not think of getting the driver's information. [REDACTED] described the driver as a HMA, 20's to 30's and about 5'10". [REDACTED] said he could not give further details. He said the passenger never got out of the car so he could not give a description other than he thinks it was a female. [REDACTED] said when he reported the incident to Tesla security this morning, they told him they would review video surveillance to see if the incident was recorded.

I asked [REDACTED] if he had any visible injuries and he said "no". [REDACTED] again complained of pain to his neck, back, shoulder and knees. [REDACTED] declined medical attention and said

18-1022

he was on his way to the hospital. [REDACTED] filled out a SCSO Statement Form which I scanned and attached to this report.

A records check of the plate provided by [REDACTED] ([REDACTED]) came back to PS-[REDACTED] [REDACTED] (referred to as [REDACTED] for the remaining of this report or supplements) and PW-[REDACTED]. SCSO Dispatch did not have any contact information for [REDACTED] or [REDACTED].

At approximately 1030 hrs, I went to Tesla and spoke to security. I requested any contact information for the license plate given by [REDACTED] (all vehicles with access to Tesla must have the vehicles information as well as contact information for the RO on file). I also requested any video surveillance of the parking lot where the incident took place. I was told that Tesla has not reviewed surveillance video yet, and the department handling vehicle data entry was "backed up". I was told I would be contacted when the information was available.

I am suspending this investigation until I am able to get the necessary information to contact [REDACTED]. When I am able to contact him, I will write a supplement. I will attach any video surveillance that Tesla provides to this report.

18-1022

On 11/04/2018, I received an email from Richard Clark (a Tesla Security Supervisor). The email was in regards to my request for contact information for the registered owner of the vehicle involved in the incident. Clark's email did not provide contact information as I requested. Clark's email provided me with information which I already knew (name of the RO, vehicle description and license plate).

On 11/10/2018, I sent an email back to Clark asking for contact information for [REDACTED] (RO of the vehicle) or for Clark to have [REDACTED] contact me. When I speak to [REDACTED], I will write an addition supplement to this report.

SUPPLEMENT 3

Page 1

18-1022

This is a supplement to my original dated 11/03/2018.

On 12/14/2018, I spoke to [REDACTED] while at Tesla on an unrelated case. I informed [REDACTED] that I have left several messages for [REDACTED], but have yet to speak to him. [REDACTED] became upset with me stating [REDACTED] had committed a felony crime. I informed [REDACTED] that [REDACTED] had not committed a crime at all. Since [REDACTED] had told [REDACTED] that he ([REDACTED]) would "get in touch" with [REDACTED] if he experienced any pain or injury at a later time/date of the accident, this was a civil matter.

[REDACTED] began to argue with me stating he had gone to law school. He claimed [REDACTED] had committed a felony crime because he refused to provide insurance information. I explained to [REDACTED] that by his verbal and written statement, he did not ask [REDACTED] for his insurance information. [REDACTED] stopped after the incident and spoke to [REDACTED]. Both [REDACTED] and [REDACTED] argued over who was at fault. Law enforcement was mentioned, but never called. [REDACTED] made an agreement to contact [REDACTED] at a later date if he noticed injuries or experienced pain.

[REDACTED] then requested I give him [REDACTED]'s personal information which I refused to do. I explained to [REDACTED] that I am not allowed to give out personal information. I told [REDACTED] that he could attempt to obtain a copy of the report and that the report was not being written as a criminal case, but rather a civil matter.

I am closing this report and have been unable to speak to [REDACTED].

This is a civil matter between [REDACTED] and [REDACTED] and this report is for informational purposes only.

Nothing further.

NARRATIVE

Page 1

18-1034

On 11/07/2018, I was patrolling the Lockwood area of Storey County, NV.

At approximately 0930 hrs, I was dispatched to the report of a road rage incident. When I contacted RP- [REDACTED], she told me the following in summary:

[REDACTED] said yesterday (11/06/2018) at approximately 0610 hrs, she dropped her husband off to work at the Tesla Gigafactory. [REDACTED] said there are numerous cars coming into and going out of the Tesla parking lots. While [REDACTED] was waiting for an opening in the line of cars, she said the car behind her went around her car and entered into the line of cars. [REDACTED] rolled her window down and told the two occupants (described as two BMA's) that she was trying to get out, and that they took her spot.

[REDACTED] said the driver motioned for her to go ahead of him which she did. [REDACTED] said once she passed the guard shack on Electric Ave, the vehicle with the two BMA's pulled up next to her and motioned for her to roll her window down. [REDACTED] said she rolled her window down and both BMA's began yelling obscenities at her. [REDACTED] said she had her two children with her and she became scared. The two BMA's drove away and she did not see them again.

[REDACTED] said today (11/07/2018) she again dropped her husband off at work. [REDACTED] said as she was traveling down Electric Ave, the same car from yesterday pulled up next to her again and the same two BMA's began yelling obscenities at her. She said the driver accelerated forward then cut her off by pulling quickly in front of her. She said the driver "slammed" on his brakes for no reason causing [REDACTED] to have to brake hard in order to avoid colliding with the car. [REDACTED] said the car then accelerated quickly down Electric Ave turning right onto USA Parkway. [REDACTED] had her two children in the car again and is scared the two BMA's will continue to harass her.

[REDACTED] described the car as a white Toyota, possibly a Prius with the first three numbers on the Nevada license plate being [REDACTED]. She wasn't able to describe the two BMA's other than the driver had short hair. [REDACTED] said no direct threats were made but she is fearful because of how the two BMA's have harassed her and the aggressive driving towards her with her children inside.

A records check with the partial plate and vehicle description had no results. [REDACTED] said her husband will attempt to get the full plate when he is at work.

I will notify the graveyard Deputy to provide extra patrol in the morning if possible. If

18-1034

This is a supplement to my original report dated 11/07/2018.

On 11/10/2018, I called [REDACTED] to see if she had any additional information to try and identify the two BMA's listed in this report. [REDACTED] did not answer and I left a message telling her to call if she had any identifying information.

As of now, I am suspending this report due to no known suspects and all leads have been exhausted.

18-1056

Narrative:

On November 15, 2018 at approximately 0855 hours, I was dispatched to #1 Electric Avenue, Tesla Motors, in reference to a suicidal subject.

Upon arrival, I observed an African/American male sitting on the curb near the guard shack. I exited my patrol unit and made contact with the subject. I identified the subject as [REDACTED] by a photo of his California Identification Card. I advised [REDACTED] that I was called to the location because of a threat he had made to harm himself.

[REDACTED] advised that he had no intention of harming himself. He stated that he had just moved to the area and was staying at the mens shelter on Record Street in Reno. He thought that he was starting his job at Tesla today, but had forgot his identification card at the shelter and was denied entrance to the property by security. When he was denied entry, he contacted his mother via text message which resulted in an argument. He advised his mother that if she was going to continue acting hostile towards him, perhaps it would be better if he never returned back to Sacramento. [REDACTED] advised that he has no intention of harming himself.

I had Storey County Fire Protection District personnel check [REDACTED] and they stated that they did not believe him to be a threat to himself or others. [REDACTED] stated that he took the shuttle to Tesla and had no way to get back to the shelter. I advised him that I would provide a ride to him back to the shelter, which I did.

NARRATIVE

Page 1

18-1059

On November 15, 2018 at approximately 1400 hours, I responded to a walk in report at the Storey County Sheriff's Office located at 205 South C Street in Virginia City, located in Storey County, Nevada for a report of harassment. I arrived and made contact with the reporting party and victim identified as [REDACTED]. [REDACTED] was accompanied by her husband and two small children.

[REDACTED] stated that she worked with an independent contracting company at the Tesla Factory located at 1 Electric Avenue located in Storey County, Nevada. [REDACTED] stated that a male subject, identified as [REDACTED], also works at the Tesla complex with a separate independent contractor.

[REDACTED] stated that [REDACTED] has repeatedly made unwanted sexual advances towards her, calls [REDACTED] "his bitch", and has made threats against [REDACTED] after seeing her speak to other male employees at the work location. [REDACTED] stated that she resides in [REDACTED] in [REDACTED], and [REDACTED] knows where [REDACTED] lives. [REDACTED] stated that she is very fearful for her safety and the safety of her family. [REDACTED] stated that she has repeatedly seen [REDACTED] drive by her home. [REDACTED] stated that [REDACTED] informed [REDACTED] that he was driving by her home to verify [REDACTED] was not "fucking other men". [REDACTED] stated that she has notified her human resources department and was advised that she should contact the Sheriff's Office and get a protection order against [REDACTED].

[REDACTED] did not have any text messages, voice mail, or other form of communication from [REDACTED]. I informed [REDACTED] that she would be able to file a temporary protection order through the courthouse and that applications for the protection order were available at the courthouse. I informed [REDACTED] that after completing the application, it would be the decision of the judge on whether or not to issue a protection order. I provided [REDACTED] with a voluntary statement form and informed her that I could also open a case on the incident so that it would be documented through our office as well. [REDACTED] and her family traveled to the courthouse to pursue the protection order.

On November 16, 2018, upon my return to duty, I received the voluntary statement form from [REDACTED] that she had completed and returned to the Sheriff's Office. [REDACTED] indicated that she had completed the protection order application and a protection order had been issued against [REDACTED]. On November 16 at approximately 0950 hours, I contacted [REDACTED] by telephone and provided her with Case Number 18-1059 for future reference if needed.

This case is closed as cleared by other means with the reporting party successfully obtaining a protection order against the suspect.

NARRATIVE

Page 1

18-1074

On November 22, 2018 at approximately 0111 hours, I was dispatched to 1 Electric ave (Tesla) an area of Storey County, Nevada for a male subject threatening suicide.

Upon arrival to the above location, I met a Tesla shift security manager by the name of Chris. Chris stated there was a Panasonic employee who was threatening suicide. Chris also stated this Panasonic employee was being drug tested due to some recent behavior while at work tonight.

I entered the Tesla security office and observed a male subject later identified by his Nevada driver's license as [REDACTED]. I began speaking with [REDACTED] to build rapport and to see if his threats were serious in nature. [REDACTED] stated he did tell his manager he was going to shoot himself when he got home. I asked [REDACTED] if he owned any firearms and he stated no. I asked [REDACTED] how he planned on killing himself if he had no firearm. [REDACTED] stated he would cut his wrists. [REDACTED] indicated several times he had depression since he was young and was on medication prescribed by a doctor. [REDACTED] indicated he was living with his brother and mother.

Storey County Fire Department arrived on scene and began accessing [REDACTED]. As SCFD spoke with [REDACTED] he now indicated he did not want to kill himself but just wanted to talk to someone as he was upset about being drug tested.

After speaking with SCFD, I felt [REDACTED] was not going to harm himself and was making empty threats as to delay his drug test from his employer. I contacted his brother at [REDACTED] and confirmed [REDACTED] was living with them. [REDACTED]'s brother stated yes and he stated he would watch his brother for the rest of the night once he arrived home. I left Tesla and [REDACTED] and told him to call 911 if he felt like harming himself again.

I later received a call from Telsa security manager Chris. Chris stated [REDACTED] was texting his manager and describing in graphic detail the way he was going to kill himself. I contacted [REDACTED]'s brother at the above phone number and asked him if [REDACTED] was in the room with him. [REDACTED]'s brother stated yes and that he was safe. I told [REDACTED]'s brother to tell [REDACTED] to stop sending text messages to his manager. [REDACTED]'s brother also stated they had no weapons in the residence.

Nothing Further.

NARRATIVE

Page 1

18-1118

On December 03, 2018 at approximately 1952 hours I was dispatched to Tesla's Parking Lot located at 1 Electric Ave in the Tahoe Regional Industrial area of Storey County, Nevada for a report of a hit and run vehicle accident.

Upon arrival I observed a vehicle bearing NV License plate [REDACTED] facing to the south just off the road way near a rock ditch. The vehicle was on the edge of the ditch and unstable. The passenger side had major damage to its lower rocker panel and rear drive- train. The driver was standing next to her vehicle with the passenger. The driver was identified as [REDACTED] and the passenger identified as [REDACTED]. Just south of the vehicle was the other involved vehicles front bumper bearing NV license plate [REDACTED].

Both [REDACTED] and [REDACTED] reported no injuries.

[REDACTED] stated she was driving to work and traveling down the straight way when another vehicle pulled out into her lane from the right. [REDACTED] stated she tried to slow down and swerve away to miss the other vehicle, but it struck her right side. [REDACTED] stated after being hit they spun out into the ditch.

[REDACTED] provided [REDACTED].

[REDACTED] stated he was sitting in the passenger side of [REDACTED]'s vehicle when the accident occurred. [REDACTED] stated they were heading down the road going the speed limit when they were hit in the passenger rear by another vehicle pulling out from the parking lot.

While conducting my investigation a female walked up to my location and indicated she was the other driver involved in the accident. She was identified as [REDACTED]. [REDACTED] indicated she left the scene because her vehicle started smoking, so she parked next to the building. [REDACTED] indicated she did not have a driver's license.

[REDACTED] reported no injuries.

[REDACTED] returned the vehicle back to the scene. The vehicle had moderate damage to it's front and was registered to her parents. She provided insurance from [REDACTED].

[REDACTED] stated she was waiting for a vehicle to pass in front of her so she could pull out and as she was turning she hit the right side of it with the front of her vehicle.

Upon conclusion of my investigation, I determined that [REDACTED] while attempting to turn left from the parking lot into the travel lane, failed to yield to [REDACTED]'s vehicle that had the right of way going straight while traveling northbound. [REDACTED] did not have adequate time to avoid the collision thus placing [REDACTED] at fault.

[REDACTED] removed her vehicle from the scene. [REDACTED] subsequently had her vehicle towed. Tesla Security stood by for traffic control until the vehicle was towed.

NARRATIVE

Page 1

18-1144

On December 13, 2018 at approximately 1711 hours, I was dispatched to 1 Electric Avenue (TESLA) in the TRI McCarran area of Storey County for the report of found evidence of paraphernalia. Storey County Dispatch (SCD) advised the reporting party is TESLA Security and that they would like to meet at their main office.

Upon arrival, I met with TESLA Security Officer identified as Lane Shipley. Shipley stated an employee () had come across the evidence/paraphernalia (homemade smoking pipe) in the parking lot. Shipley mentioned he had another TESLA Security Officer identified as Mark Girgis meet and secure the paraphernalia using their (TESLA) evidence bag. Shipley had no suspects.

I had Shipley fill out a voluntary statement concerning the discovery of the paraphernalia.

Later; at the Lockwood substation, I would remove the evidence from the TESLA evidence bag taking several photographs of the homemade paraphernalia. The paraphernalia appeared to be made from the bottom side of a mechanical pen + a plastic handle affixed to the side for holding + tin foil applied for smoking purposes. I was not able to identify any obvious odors, which may indicate what the homemade pipe was being used for. I would then place the homemade item into a Storey County Sheriff's Office provided evidence bag and place said item into the Lockwood Temp-Locker #19.

Nothing further.

Attachments: Statement from Shipley, TESLA Chain of Custody form and the TESLA Evidence bag the paraphernalia was initially placed into.

18-1151

Narrative:

On December 15, 2018 at approximately 0217 hours, I was dispatched to a report of a possible active shooter situation at 1 Electric Avenue (Tesla) in McCarran, Storey County, Nevada.

Prior to arrival, I attempted to make contact with my shift supervisor; I received no answer and a voicemail was left.

Upon arrival, I was greeted by a Panasonic employee identified as [REDACTED]. [REDACTED] had me re-locate to a secure location with him where I was met by the reporting party identified as [REDACTED]. [REDACTED] stated he's a Panasonic Safety Technician which requires him to carry a cell phone for emergency situations. Potsabay stated on December 14, 2018 at approximately 2345 hours he received a phone call from a subject stating, "I would like to place an order for two AR's (rifles)." [REDACTED] stated he advised the caller he was with Panasonic safety and further asked what the caller intended on doing with the AR's. [REDACTED] stated the caller replied with, "I'm going to blow up two mother F-er's." [REDACTED] stated he asked for the callers name in which [REDACTED] stated the reply was "Gamer G." [REDACTED] stated the caller laughed and hung up soon after.

I asked [REDACTED] if he new who the caller was; [REDACTED] stated "no" and "hr was given the phone number and traced it to a cell phone in Reno." [REDACTED] displayed the phone number to me ([REDACTED] - [REDACTED] and stated Panasonic didn't know who it belongs to. I asked [REDACTED] if anyone had been disciplined, fired or become hostile recently that may make these threats; [REDACTED] stated "day to day." [REDACTED] stated the laugh gave him the chills but further stated the threat didn't seem credible. I questioned [REDACTED] as to why; [REDACTED] stated the threat was used in the same manner as a character in a video game called "Fortnite." [REDACTED] further stated the name given by the caller, Gamer G, is a character affiliated with the game. I asked [REDACTED] if he would like to complete a voluntary statement; [REDACTED] stated "no."

I turned my attention to [REDACTED]. [REDACTED] stated upon receiving the threat, he notified Tesla security and attempted to trace the phone number prior to calling the Sheriff's Office. [REDACTED] stated after advising security, he didn't believe the threats were credible. I questioned [REDACTED] as to why; [REDACTED] stated he felt it was more of a prank call partially in fact to a lot of young "kids" being employed with Tesla and Panasonic. [REDACTED] stated as a precaution, Tesla security posted additional officers at every entrance and made sure each employee uses there key card to obtain access into the building. [REDACTED] stated Tesla security is going to remain at a heightened awareness throughout the evening and into the next day. I asked [REDACTED] if he would complete a voluntary statement; [REDACTED] stated "no." [REDACTED] stated he called Storey County Communications (SCC) to have a deputy respond so he could "make deputies aware" of the situation.

I cleared from the above mentioned location and advised SCC of my findings. SCC advised Sheriff Antinoro was contacted and to brief him on the situation once I cleared. SCC further advised the phone number from which the threats were made from came back to a land-line out of Reno. I made contact with Sheriff Antinoro via telephone. Sheriff Antinoro advised to document this incident in an information only case and to keep him informed of any new information obtained.

Nothing further.

NARRATIVE
CASE 18-1164
12.19.2018

On December 19, 2018 at 0426 hours, I was dispatched to a reported traffic incident at the Tesla Giga-Factory located at 1 Electric Avenue; Storey County, Nevada. Per dispatch Tesla Security indicated that a Silver Dodge Durango bearing Nevada plates [REDACTED] was located off the roadway in a ditch that may have been involved in damaging several vehicles in the parking lot.

Upon arriving on scene, Tesla Security Supervisor Chris Milburn indicated that the driver of the vehicle, later identified as [REDACTED] was uninjured and with other security staff. As medics arrived on scene to assess [REDACTED] for injuries, Milburn indicated that they strongly suspected [REDACTED] had damaged two vehicles in the main parking lot. Milburn advised me that the front of [REDACTED]'s Durango had visible signs of damage and paint transfer matching one of the damaged vehicles. Milburn stated that there were no active video surveillance in the area of the damaged vehicles and no current witnesses to the incident. Based on the information received by Milburn, I initiated my field interview with [REDACTED] after being cleared by FD.

[REDACTED] indicated that she was leaving work early due to a family emergency. While leaving the round-about, she drifted onto the shoulder of the road, and over-corrected into the ditch. As she was attempting to move back onto the roadway, her vehicle became stuck in the side embankment. When questioned about the damaged vehicles in the parking lot, Sutton stated that "She did not remember" hitting anything. [REDACTED] indicated that she had parked in front by the dirt lot near the outside Vendor stations and had left the parking lot without incident. During my initial interview with [REDACTED], she did not show any physical signs of impairment. I had [REDACTED] fill out a statement and continued my investigation of her vehicle. The front end of [REDACTED]'s vehicle showed damaged to the front bumper and middle of the front portion of the hood. There were green paint transfer located on the bumper and hood (see photos). After taking photos of [REDACTED]'s vehicle, I followed Tesla Security to the vehicles damaged in the parking area.

At the parking lot, I observed a parked 2003 Green Toyota Tacoma bearing Nevada plates [REDACTED] pushed into a parked 2017 Blue Subaru sedan bearing Nevada license plate [REDACTED]. The rear bed of the Tacoma was pushed into the Subaru's parking stall, coming to rest next to the passenger side rear quarter panel. Moderate damage was observed on the rear bumper and passenger side rear quarter panel. The Tacoma had moderate damage to the driver side rear of the bed and also passenger side rear bed where there was indication of first point of contact damage from an outside vehicle. Photos were taken of the vehicles, and statements were collected from on-scene Tesla security personal. After completing my initial findings at the parking lot, I returned to [REDACTED]'s Location for additional follow up.

[REDACTED] again stated that she did not "remember hitting any vehicle in the parking lot" and stated "No." [REDACTED] advised me that she had been upset from a family emergency and had hurriedly left the area. When asked about the damages to the front of her vehicle, [REDACTED] stated that it must have been from her veering off the road when entering the ditch.

Note: When investigating the ditch and embankment prior to the resting area of her vehicle, there were

no rocks or obstructions in the area. The damage to [REDACTED]'s vehicle did not match up to [REDACTED]'s statement on how she incurred the damage when compared to the area in question.

Based on the information given by [REDACTED] and a lack of witness(s) and surveillance of the incident, no action was taken against [REDACTED]. Tesla Security advised me that a tow was en-route and that a taxi was on the way for [REDACTED]. Milburn indicated that the incident will be submitted to Tesla internal security and that any possible information found in the future would be forwarded to our office. Case number 18-1164 was assigned to the traffic incident. If additional evidence is found at a later date to identify the party(s) involved in the incident, NRS 484E.020: Misdemeanor Hit & Run -- Involving property damage will be charged accordingly.

Nothing Further at this time.

18-1172

On 12/22/2018, I was patrolling the Tahoe Reno Industrial Park in McCarran, Storey County, NV.

At approximately 0942 hrs, I was dispatched to the report of found property. When I arrived on scene, I spoke to a member of Tesla security who told me the following in summary:

One of the Tesla security employees found a folded paper towel outside a restroom area. Inside the folded paper towel, the security guard found a small zip lock plastic bag containing a very small amount of a white crystalline substance. Tesla security suspected the substance to be methamphetamine.

I was then handed an evidence bag which Tesla uses. Inside the evidence bag I could see a folded paper towel. Tesla security requested I take the suspected methamphetamine as found property and log it for destruction.

I took possession of the evidence bag and returned to the SCSO Lockwood substation. I opened the Tesla evidence bag and unfolded the paper towel. Inside I found a small plastic bag with a blue stripe on one side. The bag contained a very small amount of white residue (possibly methamphetamine or cocaine). Based on the small amount, I did not test the substance. I placed the plastic bag and paper towel back inside the Tesla evidence bag. I then placed the Tesla evidence bag inside a SCSO evidence bag. I logged the evidence into Lockwood evidence for destruction.

There are no known suspects.

Narrative:

On December 27, 2018 at approximately 0256 hours I was dispatched to a report of a found prescription bottle located at 1 Electric Avenue (Tesla) in McCarran, Storey County, Nevada.

Upon arrival, I was greeted by a subject identified by his Nevada driver's license as Kevin Raymond Swindle Jr. Swindle, Tesla Security employee, stated at approximately 0215 hours he was in his Tesla Security vehicle and began to reach to the passenger side. Swindle stated he observed a clear bottle and proceeded to pick it up. Swindle stated he realized it was a prescription medication bottle and further stated he brought the bottle to the attention of his supervisor.

Swindle stated he and his supervisor located a name on the bottle () and searched for contact information in their computer system. Swindle stated a phone number for was found, called, and received no answer. Swindle stated after receiving no answer, it is "per our policy" to call the Sheriff's Office in regards to found medication. Swindle stated is an employee with Panasonic and she () last "clocked" in at approximately 0537 hours on December 26, 2018.

I took custody of the said bottle and noted it was a single dose prescription for Methadone (Roxane) at 18mgs. The bottle bared the name mentioned above by Swindle and the safety seal was still in place.

I obtained the contact information for and cleared the scene.

I re-located to the Lockwood substation and attempted to contact at approximately 0401 hours. I received no answer and left a message. I photographed the bottle and placed it in a property bag, labeled it accordingly, and placed in Lockwood Substation locker 27 for safekeeping.

Nothing further.

NARRATIVE

18-1195

On 12/28/2018, I was patrolling the Tahoe Reno Industrial Park in McCarran, Storey County, NV.

At approximately 1400 hrs, I was dispatched to the report of found property at the Tesla Gigafactory. When I arrived on scene, I went to the Tesla security office where I was given a sealed plastic Tesla evidence bag. Inside the bag, I could see a small zipper pouch and a small plastic bag. The plastic bag contained a white crystalline substance which I recognized as suspected methamphetamine. I could also feel a bulbous cylindrical object inside the zipper pouch which I recognized as a glass pipe used to smoke methamphetamine.

Tesla security said the zipper pouch containing the suspected methamphetamine and pipe was found inside a restroom. Tesla security does not know who the zipper pouch belongs to. I took possession of the evidence bag. Due to there not being any evidentiary value, I did not test the suspected methamphetamine. I placed the Tesla evidence bag inside a SCSO evidence bag and logged it into Lockwood evidence as property for destruction.

There are no known suspects.

18-1200

Narrative:

On December 30, 2018 at approximately 0714 hours, I was dispatched to the north gate of Tesla for an injured horse. Upon arrival on scene, I observed a horse that was laying in the ditch with an injured front leg. The horse had labored breathing and could not stand up on its own.

After traffic cleared, I dispatched the horse by discharging a slug from my Remington 870 12 gage shotgun into his head, thus ending its life. I advised dispatch to advise the Nevada Department of Agriculture so they could collect the remains.

Attachments: Williams stated, Misquez statement

Narrative:

On January 3, 2019 at approximately 1806 hours I was dispatched to a report of a hit and run within Tesla property on Electric Avenue located in McCarran, Storey County, Nevada.

Upon arrival, I observed a white Panasonic bus with its hazard lights on approximately one quarter mile north of the round about. Tesla security advised of a white Honda sedan parked to the east of the bus was involved as well as the bus. Storey County Paramedics (SCP) were on scene treating the female passenger of the sedan later identified as [REDACTED].

I made contact with the driver of the sedan identified as [REDACTED]. [REDACTED] stated he and his girlfriend, [REDACTED], were exiting the round about traveling north when Williams observed a "red old car" slow down in front of him. [REDACTED] stated he passed said car in the number one lane and was subsequently "rear-ended" by the red car after it entered his lane. [REDACTED] stated he stopped, got out of his vehicle, and proceeded to yell at the driver of the car as it went around him. [REDACTED] stated he got back into his vehicle and was hit again this time by the Panasonic bus. I asked [REDACTED] if he was able to get a license plate and make of the vehicle; [REDACTED] stated "no." I asked [REDACTED] if he would complete a voluntary statement form; [REDACTED] stated "yes."

SCP advised they were transporting [REDACTED] to the hospital with unknown injuries. I attempted to question [REDACTED] as to what occurred, but was advised by SCP she needed to be transported. I left [REDACTED] with a blank voluntary statement form and my business card and advised her to contact me when the statement was ready for pickup.

I observed the sedan and noted it was a white Honda Civic bearing Nevada license plate [REDACTED]. The Civic had what appeared to be minimal damage to the passenger side paint below the rear light housing. No damage was observed to the rear of the Civic where [REDACTED] stated he was hit by the red car.

I made contact with the driver of the Panasonic bus identified as [REDACTED]. [REDACTED] stated as she proceeded to exit the round about heading north, she observed a white sedan and a red car in a possible "road rage" incident." [REDACTED] stated she observed both vehicles pass each other several times, then observed the driver of the sedan, [REDACTED], stop in the number 1 lane and exit his vehicle. [REDACTED] stated she observed the red car continue to travel north and [REDACTED] re-entered his vehicle. [REDACTED] stated she attempted to pass [REDACTED] but [REDACTED] placed his vehicle in reverse and hit backed into the bus. I asked [REDACTED] if anyone else saw the incident; [REDACTED] stated she had approximately 28 passengers on the bus at the time, none were on prior to my arrival, but they all went inside for work. I asked [REDACTED] if she would fill out a voluntary statement form; [REDACTED] stated "yes." [REDACTED] requested additional statements for witnesses that were on the bus; I complied and provided [REDACTED] with blank statement forms.

I observed the bus where [REDACTED] stated she was struck. I observed what appeared to be minimal damage to the drivers side approximately halfway between the front to the end of the bus. The bus, bearing Nevada license plate [REDACTED], was white in color with the word Panasonic written on both sides.

NARRATIVE

Page 2

19-8

I collected statements from [REDACTED] and [REDACTED] and met with Tesla Security. I asked if any surveillance footage was available; Tesla Security advised I could view tapes in the monitor room. In the monitor room, I was advised there was no video footage available as there were no cameras in the immediate area.

I cleared from the monitor room and proceeded to drive the Tesla parking lot attempting to locate the red car involved. I was unsuccessful in attempting to locate said vehicle.

This case is currently pending-under investigation until statements from [REDACTED] and witnesses from the bus are turned in.

Photographs were obtained and are included in this report.

Nothing further.

Supplement (01/04/2019):

On January 4, 2019 at approximately 2200 hours I met with fellow Deputies and asked if any statements were turned in pertaining to this incident. I was informed no statements were turned in and no messages were left for me.

I re-located to Tesla to meet with security about any new details regarding this case. Tesla I questioned security if they received any news leads regarding the "red car" mentioned; security stated "no." Tesla security stated they haven't heard from any parties involved.

Due to a lack of evidence, conflicting statements, and statements not received; this case is now closed. If new details emerge, this case will be re-opened.

Nothing further.

Attachments: Moon Statement

Supplement:

On January 9, 2019 at approximately 2330 hours I received a written statement from [REDACTED] in regards to this case.

I noted [REDACTED] wrote she was the passenger in the vehicle [REDACTED] was driving. [REDACTED] wrote as they were driving to work, a vehicle hit them in the back followed by a Panasonic bus. [REDACTED] wrote the incident happened "all of a sudden."

[REDACTED]'s statement was scanned and added to this case.

Nothing further.

Statement (V / W) - Lopez-Diez, E.

Narrative:

On 01/09/2019 at approximately 1111 hours, I was dispatched to a report of harassment at 1 Electric Avenue 'Tesla', located in the TRI-McCarran area of Storey County, Nevada.

Dispatch advised that a male subject, later identified as [REDACTED] (NV OLN: # [REDACTED]), had been terminated as an employee, and had threatened to shoot the security officers while being escorted from the property. They also stated that [REDACTED] had left the area in a Gold or Grey Chevy Sedan (unknown license plate).

Upon arriving, I made contact with several members of Tesla's security detail. One of the security detail, LOPEZ-DIEZ, ENRIQUE advised that [REDACTED] had made the threats to him directly.

When questioned, LOPEZ-DIEZ indicated that at approximately 1030 hours, he had been instructed to meet with [REDACTED], who had just been terminated as an employee, and to escort him from the property. LOPEZ-DIEZ stated that he made contact with [REDACTED], who allegedly became very agitated and refused to surrender his employee access badge. [REDACTED] then proceeded to head towards a building exit with LOPEZ-DIEZ following him.

As they got out into the parking lot outside the building, LOPEZ-DIEZ stated that [REDACTED] threatened to "shoot you [LOPEZ-DIEZ] dead" if LOPEZ-DIEZ continued to follow him. According to LOPEZ-DIEZ, [REDACTED] started running towards his car, at which time LOPEZ-DIEZ ceased to follow him and advised other security personnel that [REDACTED] may have a firearm. LOPEZ-DIEZ indicated that [REDACTED] got into his car and left at high rate of speed.

At no time did LOPEZ-DIEZ observe any weapon on or about the person of [REDACTED]. LOPEZ-DIEZ later provided a written statement that re-iterated his verbal statement to me (see attachments).

After speaking with LOPEZ-DIEZ, I spoke with one of the security managers, a white adult male who identified himself as [REDACTED].

[REDACTED] advised that there had not been any prior incidents at Tesla involving [REDACTED] that he was aware of. He stated that they did not wish to pursue any charges against [REDACTED], but did want him trespasses from the property. [REDACTED] was unable to provide a license plate number for [REDACTED], but did provide a contact number for him ([REDACTED]).

I notified Storey County Dispatch that [REDACTED] was being trespasses from the property. After several attempts, I was later able to contact [REDACTED] via telephone on 01/12/2019 and advise him that he was trespasses from the property at 1 Electric Avenue.

NARRATIVE

Page 1

19-25

On 01/09/2018, I was patrolling the Tahoe Reno Industrial Park in McCarran, Storey County, NV.

At approximately 1601 hrs, I was dispatched to the report of found property. When I arrived on scene, Tesla Security gave me a plastic Tesla evidence bag. Inside the bag I could see a round hard plastic container. I could also see two small pieces of plastic (one inside a small piece of a rubber balloon). Tesla Security said the plastic container was found in the parking lot. When Tesla Security opened the container, they saw two small pieces of plastic and suspected they contained illegal drugs. Tesla Security said there are no cameras covering that portion of the parking lot.

I took possession of the Tesla evidence bag. I opened the bag and removed the contents. I found a small round plastic case with a lid. Inside the plastic container I found a small piece of plastic. Inside the plastic, I saw a brown/black substance which smelled like vinegar. Another piece of plastic was wrapped inside a rubber balloon. Inside that piece of plastic I found more of the brown/black with the smell of vinegar. I know from my training and experience that the brown/black substance was suspected tar heroin. A NIK test had a positive result for heroin. The scale at the Lockwood substation would not provide a weight but I estimate the combined weight was approximately 1/2 gram.

I placed the items back into the Tesla evidence bag, and placed the evidence bag into a SCSO evidence bag. I logged the suspected heroin and plastic container into Lockwood evidence for destruction.

There are no known suspects.

On January 15, 2019 at approximately 0947 hours, I responded to the Storey County Sheriff's Substation located at 420 Canyon Way Sparks, Nevada 89434 in reference to a past tense traffic accident on the Tesla Property (Storey County, Nevada).

Upon my arrival I met with the registered owner who was identified as [REDACTED]. [REDACTED] stated he was on shift at Tesla, which is located at 1 Electric Drive Sparks, Nevada (Storey County), the day of January 11, 2019. [REDACTED] stated he worked from 0600 until 0030 hours. [REDACTED] stated his vehicle, which is a black Toyota Tacoma bearing Nevada [REDACTED], was parked in the southwest parking lot the entire time while he worked.

The next day (1/12/19) [REDACTED] noticed damage to the right rear area of his bumper and fender on his Toyota Tacoma. [REDACTED] stated the way he parked his truck there was no way the damage could have been caused at home. [REDACTED] assumed his vehicle was a victim of a hit and run while working at Tesla on January 11, 2019. [REDACTED] stated he had no idea how the vehicle got damaged. [REDACTED] stated the vehicle was unoccupied when the damage took place. I obtained a voluntary statement from [REDACTED]. I photographed the damage on [REDACTED]'s Toyota Tacoma.

At approximately 1204 hours I contacted Tesla Security via telephone and I spoke with Officer Misty Gardner. Gardner informed me she was aware of the situation with Mr. [REDACTED], and she was looking into the matter. I provided my email address to Gardner, and I requested any information found on security footage involving this case be forwarded to me for further investigation.

At this time this case is closed pending any information leading to the identity of persons committing the alleged offense. All leads are exhausted.

End of Initial Report.

Driver Statement

Narrative:*Past tense crash not investigated at the scene.*

On January 21, 2019 at approximately 1710 hours, I was dispatched to the Tesla Gigafactory, located at #1 Electric Avenue in the Tahoe/Reno Industrial Center area of Storey County in reference to a past tense hit and run crash. I was advised to meet the reporting party at the north gate in a silver Tesla sedan.

I met with the reporting party, later identified as [REDACTED] by his Nevada drivers license. [REDACTED] stated that he was leaving work at the Tesla Gigafactory at approximately 0615 hours. He had left the north gate area and began driving westbound on Electric Avenue. [REDACTED] stated that the roads were slippery.

[REDACTED] stated that a red sedan traveling east lost control and spun through the median. The vehicle continued through the median and struck his car on the left rear causing minor damage. [REDACTED] stated that when he stopped, he observed the vehicle leave the scene towards the Gigafactory.

I observed the damage on [REDACTED]'s vehicle and noticed that it was minor. It is unknown if the driver of the red sedan knew they stuck [REDACTED]. I took photos of the damage and had [REDACTED] fill out a written statement.

Nothing Further.

NARRATIVE:

Case #19-79

01.27.2019

On January 27, 2019 at 0608 hours, I was advised by dispatch on a possible rolling physical domestic near 1 Electric Avenue (Tesla); located in the area of TRI McCarran, Storey County Nevada.

Dispatch advised me that a female subject later identified as [REDACTED], indirectly made contact and stated that she was punched in the face by her boyfriend and was dropped off near Tesla. Upon hearing the information, Deputy Hammond and I attempted to locate [REDACTED] around the above mentioned area. Deputy Hammond was searching the immediate area near Tesla's South gate and East Sydney, while I searched the immediate area around Tesla's North gate, 700 Milan, and Electric Avenue. After making several attempts to canvass the area, Deputy Hammond and I were unable to locate [REDACTED]. After being informed that [REDACTED] was an active employee at Tesla, Deputy Hammond and I made contact with Tesla Security to obtain additional information on [REDACTED].

Acting Security Supervisor Kevin Swindel advised us that [REDACTED] was currently an active employee, but did not log on to work. Swindel made several attempts to give us [REDACTED]'s basic information, but was only able to provide us with a listed phone number and photo identification of [REDACTED]. Dispatch advised us that they had made multiple attempts to remake contact with [REDACTED], but were unsuccessful. Dispatch also indicated that [REDACTED] had a Texas license associated with her info, but no known local address. Based on the negative contact and no physical location given, we were unable to provide a welfare check at [REDACTED]'s physical address. I advised Tesla security of the incident and they indicated that they will notify the office upon her next work-shift. I also made attempts to contact [REDACTED] with the number provided, but was unable to make contact. Deputy Hamblin will be able to conduct any follow up as needed and Sergeant Gaunt were advised of the incident.

Nothing Further at this time.

Narrative
Case # 19-102
02.03.2019

On February 3, 2019 at 0541 hours, I was dispatched to a reported found drug paraphernalia at the Tesla Giga-Factory located at 1 Electric Avenue; in the area of TRI McCarran, Storey County Nevada. Per dispatch, Tesla Security had the paraphernalia secured.

Upon arrival, I made contact with the acting supervisor Kevin Swindle. Swindle indicated that staff cleaners had found a glass pipe while servicing the female's bathroom on the first floor. Swindle then handed me a small bag containing a glass pipe with burnt residue inside. Swindle indicated that there were no information on the owner of the paraphernalia.

After securing the item from Tesla Security, case number 19-102 was assigned to the incident. I packaged the item for evidence safe keeping and secured the item in LW temp #21. Without any pertinent leads or identity of the owner, I will be closing the case as leads exhausted at this time. Additional investigation and follow up will be conducted if the owner of the drug paraphernalia is established in the future.

Nothing Further.

NARRATIVE

Page 1

19-110

On February 5, 2019 at approximately 0635 hours I was dispatched to a non-injury motor vehicle accident on Electric Ave in the Tahoe Regional Industrial area of Storey County, Nevada. Conditions on the road way were extremely icy due to heavy snow.

Upon arrival I observed multiple vehicles off the road way. Two vehicles were parked in the center median facing to the west. One of the vehicles was a blue Honda bearing NV license plate [REDACTED] and operated by [REDACTED]. It had major damage to it's passenger door and rear end. The other vehicle was a silver Chevy suburban bearing NV license plate [REDACTED] and operated by [REDACTED]. It had minor damage to it's front spoiler and bumper. There was another vehicle involved parked on the edge of the number two lane. It was a white Ford truck bearing NV license plate [REDACTED] and operated by [REDACTED] an employee of Tesla security. It had minor damage to it's driver's side rear bumper. The truck was registered to Tesla and was being utilized for traffic control with it's lights on when it was struck.

While speaking with all three driver's, none complained of any injuries. [REDACTED] the driver of the suburban refused to fill out a statement. [REDACTED] indicated that the statement was voluntary and she had already explained what happened.

[REDACTED] stated she was driving behind a truck and it suddenly switched lanes over to the left lane. [REDACTED] stated she then observed a Tesla security truck without it's hazards on and just it's brakes lights on. [REDACTED] stated she tried to change lanes and her vehicle started to turn sideways. [REDACTED] stated she struck the rear driver's side of the truck. [REDACTED] stated she turned into the center median and stopped to exchange insurance. [REDACTED] stated approximately 10 minutes later a gold Chevy suburban rear ended her at a high rate of speed. [REDACTED] stated she had to run out of the way.

[REDACTED] stated he was dispatched to investigate why traffic had come to a stop. [REDACTED] stated he observed multiple vehicles stopped in the opposite lanes of travel. [REDACTED] stated he pulled his security vehicle off the side of the road and turned on his hazards. [REDACTED] stated he walked away from his vehicle to check with the other vehicles and see if anyone was hurt. [REDACTED] stated at approximately 0545 hours he heard a loud sound behind his location and was told by a gentleman he was talking to that his vehicle had been struck. [REDACTED] stated he approached the vehicle that struck him and asked the driver [REDACTED] if she was hurt. [REDACTED] stated Nicholson indicated she was not hurt. [REDACTED] stated his supervisor arrived on the scene and he exchanged insurance with [REDACTED].

[REDACTED] indicated she was driving westbound on Electric Ave when her vehicle started to slide due to the icy conditions. [REDACTED] stated she was unable to gain control and struck the rear end of [REDACTED]'s vehicle.

Upon concluding my investigation I determined that [REDACTED] was traveling westbound on Electric Ave in the number two lane. [REDACTED] lost control of her vehicle trying to avoid another vehicle changing lanes. [REDACTED] then struck [REDACTED] vehicle that was parked partially in the number two lane. [REDACTED] struck the driver's side rear bumper of [REDACTED] vehicle with her passenger side door. [REDACTED] came to a rest facing west in the center median. While sitting in the center median [REDACTED]'s vehicle was struck in it's rear end by [REDACTED]'s vehicle. [REDACTED] was traveling westbound on Electric Ave in the number one lane. [REDACTED]'s vehicle had major damage to it's rear and passenger

NARRATIVE

Page 1

19-130

On February 11, 2019 at approximately 0605 hours I was dispatched to the Tesla Parking Lot located at 1 Electric Ave in the Tahoe Regional Industrial area of Storey County, Nevada for a report of a none-injury motor vehicle accident.

Upon arrival I observed two involved vehicles. One vehicle was facing to the south and bearing NV license plate [REDACTED]. It was a gray Chevrolet sedan with minor damage to it's passenger front grill and bumper. The driver was identified by his NV driver's license as [REDACTED]. [REDACTED] claimed no injuries and provided Insurance from [REDACTED]

The other vehicle was facing to the north and bearing NV license plate [REDACTED]. It was a gray SUV with moderate damage to it's passenger right rear. There was damage to the passenger rear drive train as well. The driver was identified by his NV driver's license as [REDACTED]. [REDACTED] claimed no injuries and provided Insurance from [REDACTED].

[REDACTED] stated he was getting off shift and turning out of the parking area onto the roadway to head south when he observed a vehicle coming from the same direction. [REDACTED] stated he thought the vehicle was going to turn right where he was coming out. [REDACTED] stated as he proceeded forward the vehicle did not turn right and continued straight. [REDACTED] stated he struck the vehicle with his right front.

[REDACTED] stated while coming to work and traveling straight in the right hand lane in the Parking Lot he was struck by a Chevrolet attempting to turn left.

Upon concluding my accident investigation I determined that [REDACTED] while attempting to turn left out of the parking area into the travel lane assumed [REDACTED] was going to turn right. [REDACTED] was facing to the west stopped as [REDACTED] was traveling north. As [REDACTED] proceeded forward he struck the right rear of [REDACTED]'s vehicle with his right front.

Warden removed his vehicle off the scene as he only had minor damage. [REDACTED] needed to remain on the scene to have his vehicle towed. Both [REDACTED] and [REDACTED] exchanged Insurance.

Nothing Further.

NARRATIVE

Page 1

19-131

Narrative:

On February 11, 2019 at approximately 1845 hours, I was conducting a property check of #1 Electric avenue, the Tesla Gigafactory in the Tahoe/Reno Industrial Center area of Storey County. I observed a blue 4 door sedan traveling eastbound on Electric Avenue in excess of the posted 35 mph limit. I visually estimated the vehicle speed at 50 mph and confirmed the speed with my front moving radar at 47 mph.

I made a stop on the vehicle, bearing Nevada [REDACTED]. I contacted the driver, who I identified as [REDACTED] by his Nevada Driver's License. A routine wants and warrants check on [REDACTED] showed a valid warrant out of East Fork Township Justice Court, which was confirmed.

[REDACTED] was cooperative, so I allowed him to park and secure the vehicle in the parking lot of the Gigafactory. He was taken into custody on authority of the warrant. I placed him in my Peerless hinged handcuffs, checking for tightness and double-locking the mechanism. He was then searched and placed in the rear seat of my patrol unit. I then transported him to the bottom of Geiger grade where he was turned over to Deputy Myles Foutz for transport to the Storey County Detention Facility.

Statement_(V) Loux, C.
Statement_(D1) Chang, E.
Panasonic incident report

Narrative:

On 02/14/2019 at approximately 0857 hours I was dispatched to a report of a past-tense vehicle versus pedestrian crash at the Tesla Gigafactory, 1 Electric Avenue, located in the TRI-McCarran area of Storey County, Nevada.

Upon arriving, I was escorted to the Panasonic HR room, where I made contact with a white adult male, identified by his Nevada driver's License as (V) - [REDACTED] (NV OLN: [REDACTED]). [REDACTED] was applying an ice pack to his right knee. Storey County Fire Department (SCFD) personnel arrived approximately two minutes after I made contact with [REDACTED].

When questioned, [REDACTED] advised that he had been walking eastbound through the parking lot at the Gigafactory at approximately 0620 hours. He stated he had been walking along the end caps of the parking lot, in one the center rows. He observed a vehicle approaching on his right, from the south, traveling northbound between a row of parked cars. [REDACTED] described the vehicle (V1) as a dark blue Subaru coupe, which he stated was traveling too fast for the conditions. [REDACTED] indicated that it was dark out and raining.

[REDACTED] advised that as V1 prepared to make a left hand turn, the left front corner of the vehicle struck him on his right knee. After the collision, [REDACTED] was able to obtain insurance information from the driver (D1) who had stopped. He was also able to take a picture of the driver's license plate, and employee badge.

[REDACTED] provided a written statement (see attachments), and indicated that he did not want to pursue charges against D1.

[REDACTED] refused medical treatment from SCFD. I provided [REDACTED] with my business card and a copy of the case number. I then made contact with D1, an Asian adult male identified by his Nevada Driver's license as [REDACTED] (NV OLN: [REDACTED]). D1 been brought to Panasonic HR by a member of the security team.

When questioned, [REDACTED] stated that he had been driving northbound through a row of parked cars at approximately 0620-0625 hours. He described it as being dark and raining. [REDACTED] indicated that as he approached the end of the row, he came to a stop as a vehicle in front of him moved to allow him to turn left (westbound) into the center row. [REDACTED] stated that as he began to accelerate, a male ([REDACTED]) suddenly fell on the front left part of his hood.

NARRATIVE

Page 2

19-140

After the collision, [REDACTED] indicated that [REDACTED] began cursing and yelling at him and requesting his insurance information, which [REDACTED] provided.

I provided [REDACTED] with a written statement which he completed but did not sign (see attachments). [REDACTED] then showed me where the incident took place in the parking lot, and his vehicle.

I did not observe any damage to [REDACTED] vehicle's, which I documented (see photos). At the location where [REDACTED] indicated the collision had occurred, I noted that there were no traffic control devices; that vehicles were illegally parked in painted no parking zones leading into the central through-way where the collision occurred; and that there were no marked pedestrian crossing zones in the area. According to both [REDACTED] and [REDACTED], there were no witnesses to the incident who remained in the area, or that could be identified.

After speaking with [REDACTED], I spoke with Tesla security, who advised that they would review their security footage. Video footage will be added to this case if available.

At approximately 1318 hours on 02/14/2019 I returned to the Gigafactory and reviewed the video footage. I was able to record the video footage on my department issued body camera as I watched it. The footage, from the rooftop camera from time points 06:20:00 - 06:22:18. It showed V1 attempting to park in an east facing spot, before backing up, starting to proceed northbound between a row of parked cars, then coming to a stop before the end of the row. Leading into a central through-way. A row of cars are seen moving westbound through the center through-way. As V1 began to initiate a left turn to head westbound, a pedestrian (presumed to be [REDACTED]), dressed in dark clothing, appears moving eastbound along the south side of the central through-way. The pedestrian appears to make contact with the left front of V1. V1 then stops, and D1 is seen speaking with the pedestrian.

Based upon my investigation, it appears that the collision between [REDACTED] and V1 was primarily due to environmental factors, and reduced visibility due to illegally parked vehicles. Due care on the part of D1 does not appear to be a factor. Impairment is not suspected to be a factor.

A citation was not issued to D1.

Nothing Further.

Statement from Fine

Narrative:

On February 19, 2019 at approximately 2100 hours, I was dispatched to the Tesla Gigafactory, located at #1 Electric Avenue in the Tahoe/Reno Industrial Center area of Storey County in reference to some found drugs.

Upon arrival, I spoke with security officer Joshua Fine. Fine advised that he was called to a men's restroom on the Panasonic side of the building due to a cleaning crew finding a suspicious substance on the floor in one of the stalls. Fine stated that he photographed the substance and placed it in an evidence bag. He then took the substance to the badging office where it was placed in a safe until my arrival.

I took custody of the substance and collected a statement from Fine. Fine identified the workers who reported the incident as [REDACTED] and [REDACTED] of CCS. I noted that the substance was a small brown square in a greenish cellophane bag. I asked Fine if anyone was seen entering or leaving the restroom area and he stated that there was no one reported. I also inquired about the possibility of surveillance footage in the area around the time the incident occurred, and was told there was no surveillance in the area of the incident.

I took the item to the Lockwood Substation, photographed it, and placed it into evidence. There are no suspects at this time.

[REDACTED] Statement

Photos

Narrative:

On 02/28/2019 at approximately 0824 hours while on patrol in the Jurisdiction of Storey County, Nevada I was dispatched to 1 Electric Avenue for a report of a vehicle being vandalized.

When I arrived on scene I met with white adult male identified as [REDACTED] the owner of a 2002 Dodge ram 1500 pickup truck. [REDACTED] stated that when he got off from work and returned to his truck in the parking lot he observed that someone had scratched the words "Fuck You" on the driver's side doors of the Dodge. [REDACTED] stated that someone must have been mad about the close parking in the parking lot. When asked if [REDACTED] knew who could have done this or if he has had any disagreements, [REDACTED] stated that he had no idea who could have done it and did not know of anyone that was upset with him at Tesla his workplace.

After being told by [REDACTED] where he was parked though his work shift I met with Tesla security to review video recording of the parking lot. Tesla security only has one camera that faces the direction [REDACTED] Dodge was parked. The video was taken from so far away from [REDACTED]'s Dodge that you could not positively make out other vehicles parked around [REDACTED]'s Dodge. I did observe several people passing by location where [REDACTED]'s dodge was parked but could not make out any evidence of tampering due to how pixelated video footage was.

I obtained voluntary statement from [REDACTED] and photographed damage sustained to Dodge.

Nothing Further.

NARRATIVE

On 03/06/2019, I was patrolling the Tahoe Reno Industrial Park in McCarran, Storey County, NV.

At approximately 1756 hrs, I was dispatched to the report of a hit and run, non injury accident on the Telsa property. When I arrived on scene, I spoke to RP- [REDACTED] who told me the following in summary:

[REDACTED] works for Clean Harbors Environmental and was at Tesla conducting work. [REDACTED] said he was driving a Clean Harbors Environmental company truck ([REDACTED] NV) and parked the truck at the North East portion of the parking lot at approximately 1330 hrs. When [REDACTED] returned to the truck at approximately 1756 hrs, he saw the truck had been hit by an unknown vehicle. [REDACTED] then called SCSO Dispatch and waited for my arrival.

When I looked at the truck, I saw the rear driver's side quarter panel had been struck causing slight damage. I saw white paint transfer from the unknown vehicle as well as several small pieces of red and clear plastic from the unknown vehicle's rear tail light and reverse light. The plastic pieces were located directly beneath where the truck had been struck.

[REDACTED] said there wasn't a vehicle parked next to him when he parked the truck at 1330 hrs. I know from prior incidents at Tesla, that this portion of the parking lot is not covered by surveillance cameras.

I gave [REDACTED] a SCSO Statement which he filled out. I took two digital photos of the damage and plastic pieces and attached the photos to this report. I collected the plastic pieces and attempted to locate a parts number to help identify the make and model of the unknown car. I was unable to find any information to help identify the vehicle.

From 03/06/2019 through 03/09/2019, I drove through Tesla's parking lot several times trying to locate the vehicle by it's broken tail light. I was unable to locate any vehicle with the same type of tail light lens.

I am suspending this report due to all leads exhausted.

On 03/07/2019, I was patrolling the Tahoe Reno Industrial Park in McCarran, Storey County, NV.

At approximately 1656 hrs, I was dispatched to the report of possible threats. When I arrived at the Tesla security office, I met with RP- [REDACTED] who told me the following in summary:

[REDACTED] said her husband (M-[REDACTED]) thinks she is having an affair with one of her co-workers. She said [REDACTED] called her cell phone and told her he was driving to Tesla to confront this co-worker and the co-worker would "need an ambulance". [REDACTED] notified Tesla Security and was brought to the Security office. Tesla Security notified me that [REDACTED]'s description and make/model of his car ([REDACTED]) had already been given to each of the properties access gates.

[REDACTED] said [REDACTED] had seen some Venmo (electronic money transfer app) transactions from [REDACTED] and assumed they were to a male co-worker. He accused her of having an affair with this co-worker. [REDACTED] said [REDACTED] is a military veteran and suffers from Post Traumatic Stress Disorder (PTSD). [REDACTED] said they have a 1 yr old daughter named [REDACTED]. I asked [REDACTED] if she thought [REDACTED] would dive to Tesla and she said "yes". I asked her if she was in fear of her safety and she said she did not know. She said [REDACTED] has made comments about hurting himself in the past.

While speaking to [REDACTED], her cell phone rang. [REDACTED] said it was [REDACTED] and answered. I could hear very loud screaming coming from the cell phone. [REDACTED] handed me the cell phone and I attempted to speak to [REDACTED]. [REDACTED] screamed at me for several minutes as I tried to calm him down. [REDACTED] admitted to being on I-80 and was traveling to Tesla to confront [REDACTED]'s co-worker. [REDACTED] told me he was veteran and when I told him I was a veteran too, he calmed down. I told [REDACTED] that he would not be allowed on Tesla's property and I asked him if there was some place I could meet with him to speak with him. [REDACTED] said he was approaching a rest stop on I-80 near the Patrick Exit. [REDACTED] said he would pull over and wait for me there.

I told [REDACTED] that I would meet with [REDACTED] and try and Calm him down. I told [REDACTED] that if she felt like she was in danger, she would have to obtain a protective order from Washoe County.

I left and drove to the rest stop where I saw [REDACTED] parked in the previously described vehicle. When I approached the vehicle, I saw [REDACTED] had [REDACTED] with him. [REDACTED] was very upset and believes [REDACTED] is having an affair on him. I questioned his decision to bring [REDACTED] with him. I told him that based on the way he was acting with me on the phone, I'm sure [REDACTED] was frightened too. [REDACTED] agreed that his actions were based on emotions and without thinking. I convinced [REDACTED] to return home and think about what he wanted to do to rectify the situation.

When I left, I contacted Tesla Security and told them [REDACTED] was no longer going there. I asked that [REDACTED] be told of what had happed as well..

This report is for informational purposes only.

19-231

Narrative:

On March 11, 2019 at approximately 1840 hours, I was dispatched to the Tesla Gigafactory located at #1 Electric Avenue in the Tahoe/Reno Industrial center area of Storey County in reference to a possible suicidal subject.

Upon arrival with Storey County Fire Protection District personnel from Station 75, we were briefed by security that a possible suicidal threat was reported to them. An employee for Panasonic, later identified as [REDACTED], had told a coworker that he wished to harm himself. We were given a brief background on [REDACTED], including that he spent time in prison, was once a heavy drug user, and had recently lost his wife to suicide.

We then spoke with [REDACTED], who was cooperative. [REDACTED] seemed in good spirits while speaking with him. He stated that he was once a heavy methamphetamine user and had been clean for nearly a year, that his wife did in fact commit suicide, and that he battles depression. [REDACTED] admitted to wanting to harm himself in the past, but also stated that on December 23, he voluntarily committed himself to the hospital for a 72 hour hold after being depressed and having thoughts of harming himself.

I advised [REDACTED] that we were present because a coworker had made a report to security and safety staff about a comment he had made about wanting to harm himself. [REDACTED] demanded to know who the employee was. I advised him that I didn't know. [REDACTED] stated that he had made the comment about wanting to quit his job because he felt as though it wasn't stimulating him any longer, but he had no intention of harming himself. I asked him that if he was having thoughts of harming himself would he tell me and he stated that he would. He stated that he has someone at home he could talk to if he gets depressed and is seeking mental help as needed.

I spoke with SCFPD staff on scene and we determined that there was not sufficient evidence to place a Legal 2000 hold on [REDACTED].

Case # 19-271

On March 22, 2019 at 0414 hours, I was dispatched to a reported past-tense vehicle vs. animal accident that occurred on Electric Avenue; located in the area of TRI McCarran, Storey County Nevada. Per dispatch, there were no injuries and the struck coyote was deceased and off the roadway. The reporting party was identified as [REDACTED], and he was currently at Tesla.

Upon arriving at [REDACTED]'s location, He advised me that while driving to work, he had seen the coyote off of his peripheral vision near the street. He stated that he slowed down and changes to the number one lane, but the coyote darted in front of his vehicle. Although he attempted to avoid the animal, he still made contact with it. I gave [REDACTED] a statement to complete and checked his vehicle for damage.

[REDACTED]'s silver 2014 Ford Focus (bearing Nevada personalized plates [REDACTED]) had minor damage to the driver side front bumper. There was an observable crack near the bottom valance and the driver side lower valance insert was missing. The front license plate was also missing. Multiple photos were taken of the damage. I collected [REDACTED]'s report and case number 19-271 was issued to the incident. Due to single vehicle damage, non-injury, and vehicle moved from area of original impact, no scene diagram was needed.

Nothing Further.

NARRATIVE

19-329

On April 2, 2019 at approximately 2319 hours I responded to Tesla located at 1 Electric Ave in the Tahoe Regional Industrial area of Storey County, Nevada for a report of found paraphernalia. Upon arrival I met with Tesla security who escorted me to their office. They handed me an evidence bag containing a used clear glass smoking pipe with no residue/drugs. I took custody of the smoking pipe. I placed the smoking pipe into a fresh evidence bag and secured it in Lockwood locker #28. The smoking pipe is not part of any ongoing investigation.

Nothing Further.

None.

Narrative:

On 04/05/2019 at approximately 1107 hours, I was conducting a property check at 1 Electric Avenue, located in the TRI-McCarran area of Storey County, Nevada. I was flagged down by a white adult male, who later identified himself the Tesla head of security (RP) - SPROTT, MARSHALL.

SPROTT indicated that Tesla security had in their possession numerous items believed to be controlled substances, as well as several improvised knives. SPROTT advised that the items had been recovered by cleaning crews on numerous dates and it was not known whom the items belonged to. SPROTT was requesting to surrender the items to the Storey County Sheriff's Office for destruction.

I proceeded to the Tesla security office with SPROTT, where he provided me with a total of eight (8) evidence bags (see property) and two paper envelopes. The envelopes were labeled as containing ammunition, but were later found to contain empty shell casings; these were deposited in a waste bin.

At approximately 1125 hours, I secured the property provided by SPROTT and transported it to the Lockwood Sub-station. The property was marked for destruction and secured in temporary evidence locker twenty-one (21).

Nothing Further.

NARRATIVE

Page 1

19-348

On April 09, 2019 at approximately 0017 hours I responded to Tesla located at 1 Electric Ave in the Tahoe Regional Industrial area of Storey County, Nevada for a report of a motor vehicle verses pedestrian.

Upon arrival I was escorted by security to the main parking area on the northwest side of the building. I observed a silver dodge pickup bearing NV license plate [REDACTED], parked facing to the south behind a Tesla security vehicle. Inside the security vehicle was a male subject identified by his NV driver's license as Dean Ming. Ming was being attended to by a Tesla medical employee. Ming was disoriented and appeared to be in pain. Ming was wearing dark clothing underneath an orange reflective vest. Ming was wearing the vest because he works security for Tesla.

Ming indicated he was walking east towards the building and was struck by a vehicle coming from the north. Ming stated he was thrown, but was not exactly sure how far. Ming stated his right knee and neck were bothering him.

Ming was subsequently transported to Renown by REMSA after being evaluated by Storey County Paramedics. The Paramedics indicated Ming had some redness on his right knee and a hematoma on the back of his head. The Paramedics indicated Ming had blood on the back of his head as well.

Located feet from where Ming was sitting inside the security vehicle was a three inch circle of fresh blood on the asphalt, which is where he was laying after being struck. The mentioned pickup was parked approximately 12 feet behind the blood stain. The area in the parking lot where the accident took place was identified as section (B) between parking spots 2 and 3.

I made contact with the driver of the pickup identified as [REDACTED]. There were two passengers in the vehicle identified as [REDACTED] and [REDACTED]. The exterior of the pickup showed no damage as a result of the impact.

[REDACTED] stated they were on a break and driving towards the food truck for something to eat at the south end of the building. [REDACTED] stated it started raining so he turned on his wiper blades which left a light film across the windshield. [REDACTED] stated he couldn't see where he was going and struck Ming who walking across the parking lot in front of his pickup.

[REDACTED] provided insurance from [REDACTED].

[REDACTED] stated they were headed to lunch at Panasonic so they drove. [REDACTED] stated it started raining so [REDACTED] turned on his wiper blades which ended up kinda blinding them do to the smudge left behind. [REDACTED] stated they heard a light bump on the truck. [REDACTED] stated they though they hit something so they stopped. [REDACTED] stated they noticed a security guard laying on the asphalt so they called 911. [REDACTED] indicated they were traveling at approximately 3 to 5 mph.

[REDACTED] stated they were heading south towards the food truck for lunch. [REDACTED] stated it started to rain and the wipers blades were not working well. [REDACTED] stated they slowed down to approximately 3 to 5 mph to try and clear the windshield. [REDACTED] stated they felt a big bump and realized that they had

hit someone. [REDACTED] stated they instantly stopped and ran out to attend to Ming.

Upon conclusion of my investigation I determined that [REDACTED] while traveling southbound through the parking lot in section (B) struck Ming with his front end. As a result of the impact Ming was thrown south approximately 12.5 feet. Ming suffered an abrasion to his right knee and a hematoma to the back of his head. Due to rainy conditions, obstructed view, and low lighting in the parking lot [REDACTED] was unable to see Ming walk in front of him. As a result of the obstructed view and lack of damage I am unable to determine where contact was made on the pickup.

Deputy Francone assisted with the accident investigation and completed a scene diagram which is attached to this case.

Nothing Further.

Scene Diagram

Narrative:

On April 9, 2019 at approximately 0015 hours, I responded to the Tesla Gigafactory located at #1 Electric Avenue in the Tahoe/Reno Industrial Center area of Storey County in reference to a vehicle vs pedestrian crash.

I arrived on scene at 0033 hours, and met with Deputy Lance Andres who was the primary investigator on the crash. Deputy Andres advised that a male subject was walking through the parking lot towards the Gigafactory and was struck by a silver Ram 1500 pickup. The subject that was struck was being attended to by Tesla medical personnel.

I examined the pickup truck, bearing Nevada [REDACTED]. I found no damage on the truck. Deputy Andres pointed out a small circle of blood south of the vehicle. I measured the distance from where the vehicle came to rest to where the blood was located, which measured out to be 13.6 feet. All measurements were taken with my ProLaser LIDAR unit.

I then marked the location of all 4 wheels of the vehicle with orange spraypaint so the vehicle could be moved. I utilized a pole marked "Muster Point #4" as a reference point for all measurements (see diagram).

I then attached a finished diagram (not to scale) to the case.

Statement_RV-Mercado, L.

Narrative:

On 04/24/2019 at approximately 0651 hours I was dispatched to a report of vehicle vandalism at 1 Electric Avenue, 'Tesla Gigafactory,', located in the TRO-McCarran area of Storey County, Nevada.

Upon arriving, I made contact with Tesla security, who first showed me security footage indicating the vehicle was parked in view of security cameras. The then place me in contact with the reporting party / vehicle owner, identified by her California Driver's License as (RV) - [REDACTED] (CA OLN # [REDACTED]).

[REDACTED] escorted me to her vehicle, a black 2010 Mercedes-Benz GLK 350 4-Mmatic, bearing NV/[REDACTED]. I noted that the vehicle appeared to have been "keyed," with multiple scratches in the paint to the hood; all four doors; all quarter panels / fenders; and the rear of the vehicle. No damage / scratches were observed on the front grill or roof. I also noted that many of the scratches were in a "pig-tail" pattern of concentric connecting circles. Additionally, the gas door on the passenger rear of the vehicle had allegedly been pried open, according to [REDACTED].

While inspecting the vehicle, I noted a hand print on the hood that appeared small in size. This was later dusted and collected as evidence (see property).

Upon questioning, [REDACTED] advised that she was unmarried and been single for at least the last six (6) to twelve (12) months. [REDACTED] denied knowledge of any specific person who wished her harm, or with whom she had an argument with recently, to include co-workers.

[REDACTED] did indicate that she received a great deal of attention from male co-workers, but advised that she made a point to not entertain these advances. She also stated that she did not know of any other women, specifically wives or girlfriends of co-workers who may be upset and/or jealous with her for any reason.

[REDACTED] advised that a similar incident had occurred on 03/22/2019, though only one small scratch was made on the left front wheel well at that time. This was reported to Tesla Security (Tesla incident #VR19-0135), but an investigation was inconclusive due to a lack of security surveillance footage.

After taking [REDACTED]'s verbal statement, I provided her with a written statement form which she completed (see attachments). While [REDACTED] completed this, I documented the damage (see photos) and attempted to collect the prints on the hood.

[REDACTED] was provided with my business card and a copy of the case number prior to departing. She was also instructed to contact the Sheriff's Office if additional similar incidents transpired, or if she heard anyone talking / gloating in a manner that suggested they may have knowledge of the damage.

NARRATIVE

Page 2

19-401

After departing from the area, I made contact with the Tesla Security. They advised that it would take several days to review the twelve hours of footage during which [REDACTED]'s vehicle had been parked on the property. They provided me with the contact for their legal team, and instructed me to follow up the following week with a request to obtain surveillance footage and the outcome / findings of their internal investigation. A request will be filed on 05/01/2019.

At this time, I am listing this case as open, pending further investigation.

Nothing Further.

190507_Emails - surveillance request
190503-10_Emails - surveillance request

Narrative:

On 05/15/2019 at approximately 1002 hours, I responded to Tesla Security Office, at 1 electric Ave, located in the TRI-McCarran area of Storey County, Nevada, to collect previously requested video surveillance (see attachments - emails).

The footage was collected from the Tesla Security team. When questioned, they advised that they had reviewed the available footage, but had not been able to identify any suspects.

I proceeded to review the provided footage, including a reference file showing the location of (RV) - [REDACTED]'s vehicle. The provided footage covered the time period from approximately 1750 hours on 04/23/2019 through 0350 hours on 04/24/2019. The following observations were noted:

On 04/23/19 at approximately 1751:46, [REDACTED]'s vehicle is seen parking her vehicle in the location indicated in the reference photo (see photos). [REDACTED] is then seen exiting her vehicle at approximately 1752:11 hours, and walking east into the gigafactory building, which she enters at approximately 1753:10 hours.

Between approximately 1750 and 1815 hours, of persons are seen leaving the gigafactory. Although a number of persons pass near [REDACTED]'s vehicle, none are observed pausing near, hesitating at, circling around, or otherwise interacting with [REDACTED]'s vehicle.

At approximately 1803 hours it has become dusk. At approximately 2027:53 hours, it is fully dark, and [REDACTED]'s vehicle is no longer readily visible due to being parked in an area that is not artificially illuminated.

From approximately 2027:53 hours until the provided footage ends at approximately 0349:59 hours, [REDACTED]'s vehicle remains effectively unobservable due to lack of illumination. During this time period, a persons are occasionally observed walking through the parking lot and near [REDACTED]'s vehicle. Again however, no person or persons are observed pausing near, hesitating at, circling around, or otherwise interacting with [REDACTED]'s vehicle / the immediate area where the vehicle was parked.

A possible suspect or suspects was not able to be identified based on the surveillance footage provided by Tesla.

After reviewing the provided footage, I placed all nine (9) silver Verbatim Discs into Lockwood Temporary Evidence, Locker #19 (see property). The total size of the files, exceeding 30GB, was to large to directly attach to this case.

NARRATIVE:

05.09.2019

Case Number 19-456

On May 09, 2019 at 0208 hours, I was dispatched to a reported traffic incident at the Tesla Giga-Factory located at 1 Electric Avenue; in the area of TRI McCarran, Storey County Nevada. Per Dispatch, the incident involved two parked vehicles and negative injuries. The reporting party was identified as [REDACTED].

Upon arriving on scene, I observed a 2016 white Jeep Cherokee bearing Nevada license plate number [REDACTED] and a 2015 gray Ford F250 bearing Nevada license plate number [REDACTED] parked, with their respective front bumpers touching. [REDACTED] indicated that she arrived to work around 1820 hours and had parked her Jeep without incident. At that time, there was a car parked in front of her respective parking spot. At around 2130 hours she observed the F250 in the parking spot in front of her vehicle with its front bumper touching her vehicle. The owner of the F250 identified by his Nevada driver's license as [REDACTED] was unaware of the vehicles making contact, and was notified later on about the incident. Statements were given to both individuals to complete.

After statements were collected, I had [REDACTED] move his vehicle to assess damages. I did not observe any paint transfer or indentation to the front bumper of the Jeep. There were no visible signs of paint damage or signs of impact. The portion of the bumper on the F250 that made contact also did not show any indications of damage or scuffing on the chrome metal finish. There was visible damage to the lower section of the F250's bumper, but [REDACTED] indicated that was from a previous incident, and that section of the bumper did not make contact with the Jeep.

Photos were taking of both vehicles and statements were collected. Case number 19-456 was assigned to the incident and given to [REDACTED] and [REDACTED]. Both parties exchanged insurance information and Tesla Security was informed of the conclusion of the incident.

Nothing Further.

NARRATIVE

Page 1

19-467

On May 12, 2019 at approximately 0704 hours, I received a Walk-in report at the Lockwood Substation for a past tense report of a vehicle incident (no injuries) located in the parking lot of #1 Electric Avenue (TESLA) in the TRI McCarran area of Storey County which occurred on the evening of May 11, 2019.

Be advised, due to the past tense nature of the incident, I was not on scene the day prior (May 11, 2019) to investigate the incident or speak to the adverse party, identified by [REDACTED] as [REDACTED]. This is an office and courtesy report for [REDACTED].

The reporting party, identified as [REDACTED] via his NV driver's license, and his vehicle, identified as a black colored 2003 BMW X5 bearing NV 914F11, stated the incident took place the evening before at about 6:45 p.m. on TESLA property. [REDACTED] indicated that yesterday (May 11, 2019); as he came onto the TESLA property, he decided to park his vehicle just after the roundabout using the first isle to the right (towards the main building). [REDACTED] stated he noticed another vehicle "stationary" at the end of a parking lane, and all of a sudden "accelerated" her vehicle towards [REDACTED] which ultimately T-boned his vehicle. [REDACTED] stated he quickly stopped and that [REDACTED] said she saw a spot open, but didn't see him. [REDACTED] stated the speeds were about 10-15 mph and that no injuries were noted or reported. [REDACTED] mentioned they both exchange insurance information.

The other vehicle was identified (by [REDACTED]) as being a white colored 2014 Jeep Compass bearing NV 473G43. The driver of the Jeep and registered owner was identified (by [REDACTED]) as being [REDACTED]. [REDACTED] exchanged information with [REDACTED], taking a photograph of her NV DL, and vehicle insurance form.

D1 - ([REDACTED]):

[REDACTED]
[REDACTED]
[REDACTED]

D2 - ([REDACTED]):

[REDACTED]
[REDACTED]
[REDACTED]

I had [REDACTED] fill out a voluntary statement concerning the past tense vehicle incident, and I took several photographs of [REDACTED]'s BMW passenger side where he reported the damage and of the photographs he took of [REDACTED].

At 0745 hours on May 13, 2019, I discovered [REDACTED] in our (SCSO RIMS Data Base) system, but the contact numbers listed no longer work or don't belong to [REDACTED]. I failed in my attempts to contact [REDACTED] by calling ([REDACTED] which gave me a automated tone indicating it is no longer in service, and the only other number provided was [REDACTED] which belongs to a Geothermal Company DBA ORMAT in Reno.

Narrative:

05-16-2019

Case Number 19-475

Tesla IR # 19-0349

On May 16, 2019 at 2320 hours I was dispatched to a reported found suspicious property call at the Tesla Giga-Factory located at 1 Electric Avenue; in the area of TRI McCarran, Storey County Nevada. Per Dispatch, Tesla Security had a small plastic pouch with an unknown white powder for retrieval.

Upon arriving on scene, Tesla Security advised me that one of their female employees found the bag near one of the work stations. They did not have any other information or footage to provide a possible lead in ownership.

After securing the item from Tesla Security, case number 19-475 was assigned to the incident. The contents of the bag were weighed at .05 grams, and a NIK test of the white powdery substance tested positive as cocaine. I packaged the item for evidentiary safe keeping and secured the item in LW temp # 19. Without any pertinent leads or identity of the owner, I will be closing the case as leads exhausted at this time.

Additional investigation and follow up will be conducted if the owner of the drug paraphernalia is established in the future.

Nothing Further.

NARRATIVE

Page 1

19-491

On May 21, 2019 at approximately 0937 hours, I was dispatched to #1 Electric Avenue (TESLA) in the TRI McCarran area of Storey County, Nevada to assist OSHA with a civil standby as they serve TESLA Office of Health and Safety (OHS) with a Warrant signed by a District Judge from Carson City, Nevada.

Upon arrival I met with my reporting party, identified as Alberto M. Garcia via his OSHA credentials. Garcia explained that they (OSHA) had been there earlier this year (2019) doing a safety inspection. Garcia mentioned that at some point during the inspection, TESLA kicked them off the property stating they needed a warrant to continue. Garcia showed me the signed document (Warrant - Case #19 SW00001 1E).

Shortly after, a representative for TESLA OHS, identified as Ian Langtry, arrived on scene. Langtry spoke with Garcia. It appeared to me that Langtry and Garcia knew one another and that Langtry understood why Garcia was here. Langtry asked to see the warrant and asked for 10 minutes in order to converse with their (TESLA) legal team. Garcia granted the 10 minute request, and noted nearly 20 minutes later, when Langtry came back to our location with the legal teams' ultimate decision to block/deny entry.

I contacted Deputy Chief Dozen and Storey County District Attorney Ann Langer for assistance. Their advice was to have OSHA leave the premise and return to the District Judge who signed the warrant and allow him to formulate a plan. I was given clear instructions to stand down and take no action.

Nothing further

19-514

On May 29, 2019 at approximately 0258 hours I was dispatched to Tesla located at 1 Electric Ave in the Tahoe Regional Industrial area of Storey County, Nevada for a report of a suicidal subject later identified as [REDACTED]. [REDACTED]' former girl friend [REDACTED] contacted dispatch and indicated he had sent her some text messages with suicidal threats. She further indicated [REDACTED] was admitted into Saint Mary's Hospital on 05/28/2019 for a self induced overdose.

I made contact with security and was informed that they were attempting to locate [REDACTED]. I advised security to escort [REDACTED] to their office once located. Shortly thereafter security located [REDACTED] and sat him down in their office. I walked up to [REDACTED] and he asked if we could speak outside. We walked out of the building and met near my patrol unit. [REDACTED] was very emotional and clearly wanted someone to talk to.

[REDACTED] immediately indicated he was depressed and very unhappy with his life. [REDACTED] stated [REDACTED] left him for another guy and that she was all he had. [REDACTED] stated his family lives in Sacramento and he has no one. [REDACTED] admitted to sending the suicidal texts to [REDACTED] and overdosing. [REDACTED] stated on 05/28/2019 he ingested a percocet along with a large amount of vodka. [REDACTED] stated he later woke up in a hospital bed at Saint Mary's and walked out without telling any of the nurses. [REDACTED] stated he has had bad luck for the last 10 years.

I asked [REDACTED] if he wanted to harm himself, he stated " yes." I asked [REDACTED] if he was willing to seek help by seeing a health professional at a Hospital, he stated " yes." [REDACTED] inquired about talking to someone to get some help with his depression. I explained to him that the Hospital would be able to provide those resources that would assist with his situation.

Storey County Fire arrived on the scene. I explained to them that [REDACTED] was willing to voluntarily admit himself into a Hospital for an evaluation. [REDACTED] was transported by SCFD to Renown Medical Facility without incident.

Nothing Further.

NARRATIVE

Page 1

19-536

On 06/01/2019, I was patrolling the Tahoe Reno industrial Park in McCarran, Storey County NV.

At approximately 1849 hrs, I was dispatched to the report of a traffic incident which had occurred on the Tesla property. When I arrived on scene, SCFD Rescue 75 was already there and preparing to depart. Rescue 75 had assessed and cleared the driver (later identified as D1- [REDACTED]) of injuries.

I saw a lime green colored Kawasaki motorcycle with damage to its right side. I spoke to [REDACTED] who told me the following in summary:

[REDACTED] said he had entered the Tesla property and was approaching the round-about just West of the parking lot. [REDACTED] said as he approached the round-about, he felt the motorcycle loose traction on some dirt and he lost control. [REDACTED] said the motorcycle fell to the ground on the right side. [REDACTED] said he struck his right shoulder and right leg on the ground. [REDACTED] complained of slight pain, but declined medical attention.

A records check showed [REDACTED] did not have a Class M (motorcycle) endorsement on his NV driver's license. An inspection of the motorcycle also showed both the front and rear tires being severely worn down. Both tires were bald (no tread) and had several areas where the steel belt was showing.

Because the incident occurred on private property, I admonished [REDACTED] about driving a motorcycle without the proper endorsement and for the condition of the tires. I believe both [REDACTED]' lack of proper knowledge and training on operating a motorcycle and the lack of tread on the motorcycle's tires caused [REDACTED] to loose control and crash.

This report is for informational purposes only.

On June 13, 2019 at approximately 1315 hours I was dispatched to a report of fraud at 1 Electric Ave McCarran Nevada (Storey County). To the report of Credit Card fraud by the reporting party identified as [REDACTED].

Upon arrival I met with [REDACTED] in the lobby located inside the Tesla Giga-Factory. [REDACTED] stated that his bank sent him a text message alerting him to card activity in Des Moines Iowa. [REDACTED] than stated that he got a copy of his bank records finding six charges from various establishments located in Des Moines, Iowa.

[REDACTED] stated that he had tried to report this to the Lyon County Sheriffs Office but was unable to meet with Deputies due to his work schedule. [REDACTED] was directed by Lyon County Sheriff's Office to complete a courtesy report with Storey County Sheriff's Office. I asked [REDACTED] to complete a statement form and would forward it to the Lyon County Sheriffs Office.

I request that this statement be forwarded to the Lyon County Sheriffs Office for further investigation:

19-598

On June 19 at approximately 1849 hours I was dispatched to a report on an injured horse at Tesla's B Security gate, located on Sydney Drive McCarran Nevada (Storey County).

Upon arrival I met with a representative of the Norther Nevada Mustang Fertility Control Program who identified As [REDACTED]. [REDACTED] stated that she had located a horse who had injured it's front left leg. I observed the horse to be standing in a empty field that did appear to be injured. I made my way closer to the horse and could see an obvious injury that appeared to be a compound fracture to the front left leg of the horse.

I used Deputy Hamblin's service shotgun to dispatch the horse, making sure I had a clear and unobstructed backdrop behind the horse. I fired three shots in order to dispatch the animal. [REDACTED] stayed on scene in order to notify her party of the horse being dispatched and to make arrangements to have the horse removed from the scene.

19-728

On July 27, 2019, at approximately 1945 hours, I was dispatched to 1 Electric Avenue (Tesla Giga-Factory) located in Storey County, Nevada for a report of a white rock substance possibly believed to be cocaine.

Prior to my arrival, Storey County Communications advised Tesla Security had the substance secured.

Upon arrival, I made contact with the Supervisor Kevin Swindle. Swindle advised me that [REDACTED] an off-site supervisor notified him, that one of his employees located the white rock substance in a clear plastic container on the warehouse floor next to some pallets. Swindle advised that there was no further information on the owner of the clear plastic container with the white rock substance. Swindle then handed me a piece of a blue latex glove with a container and white rock substance. After securing the item for Swindle, I cleared the scene to test the substance at the lock wood substation.

At 2101 hours, At the Lock Wood substation, I tested the white rock substance for cocaine. The test indicated the substance is cocaine; I took pictures of the test indicating the white rock substance is cocaine weighed it, and properly sealed it in an evidence bag. The weight of the cocaine and the container came out to be 2grams.

I package the mentioned items, placed them in the Lock Wood evidence locker Number # 24 for proper disposal.

Without any potential leads or identity of the owner and the cocaine being moved from the original location, I will be closing this case due to leads exhausted at this time.

Statement_(RP) - Collins, D.

Narrative:

On 08/08/2019 at approximately 1308 hours, I was dispatched to a report of theft at 1 Electric Ave., 'Tesla Gigafactory,' located in the TRI-McCarran area of Storey County, Nevada.

Upon arriving I met with the reporting party, identified by his Arizona Driver's License as (RP)- [REDACTED] (AZ OLN: # [REDACTED]).

When questioned, [REDACTED] advised that on 08/01/2019 between approximately 1830 - 1930 hours, he had accidentally left a backpack containing two laptops in the Tesla employee parking lot. He indicated that the backpack was left at a the second (2nd) light pole heading east, in the second row of parking, and was not there upon his return at a later time.

[REDACTED] S described the backpack as being black in color, with a white stripe on each should strap, and bearing the marking 'F.ü.L'. He stated that inside the backpack where two laptops, property of (PO) - Tesla, which he described as follows:

Item #1 - HP 'Elitebook' laptop. Silver in color with 'Production 03' sticker on top. Value: approximately \$999. S/N: Unknown.

Item #2 - HP Tablet (model unknown). Black in color with a large Arizona sticker on the back. Value: approximately \$1,200. S/N: 5CG8051FN2.

I provided [REDACTED] with a written statement which he completed (See attached). After collecting the statement, I made contact with (M)-Tesla Security.

Tesla Security confirmed that they were aware of the incident. They advised that they had already pulled security footage from the area, and that their internal investigations team was working to identify a person seen taking the backpack and leaving the area. Tesla Security was not able to provide information about a possible subject at that time, and video surveillance was not available for me to review.

I requested a copy of the findings of Tesla Security's internal investigation, and was advised to return the following week.

At this time this case is open, pending further investigation.

Nothing Further.

None.

Narrative:

On 08/15/2019 at approximately 0910 hours, I made contact with Tesla Security. They advised that they did not have any information to provide regarding the case, and had not identified any suspects from their surveillance footage and/or key entry system.

I am listing this case as closed, suspended (leads exhausted). This case will be re-opened if new information is obtained or becomes available.

Nothing Further.

NARRATIVE

Page 1

19-801

On 08/21/2019, I was patrolling the Tahoe Reno Industrial Park in McCarran, Storey County, NV.

At approximately 0053 hrs, I was dispatched to the report of a single commercial truck/trailer accident involving a horse. When I arrived on scene, I saw a commercial truck/trailer () with minor damage to the front and front passenger side of the truck. I spoke to the driver (D1-) who told me the following in summary:

said he was exiting the Tesla property traveling approximately 35 MPH. Approximately 100 yards from the gate, he saw several dark colored horses crossing the road in front of him. said he was unable to stop in time and struck on of the horses. saw the horse on the North side of the road lying down and severely injured. notified the Tesla security guard who then called SCSO Dispatch. said he was uninjured and refused medical attention.

I went to the North side of the road and saw a young female adult horse laying on her right side. The horse's rear left leg was broken exposing the bone. The horse had labored breathing and I believed it had sustained internal injuries as well. The horse's abdomen was swollen and I believed it to be pregnant. Because of its injuries, I dispatched the horse using my department issued shotgun. I contacted SCSO Dispatch and requested they notify the Department of Agriculture. I took four digital photos of the horse and its injuries.

filled out a SCSO Statement Form telling what had happened. I took two digital photos of 's truck.

Goble Statement

Field Notes

Photo of Rivera

Copy of Instagram post

On October 8, 2019 at approximately 0941 hours I was dispatched to the Tesla Gigafactory located at 1 Electric Way Sparks, Nevada (Storey County) in reference to an employee involved in a suspicious circumstance.

Upon my arrival I met with Panasonic Security Manager, Andrew Goble. Goble informed me an employee of Panasonic, [REDACTED], identified an unauthorized person, [REDACTED], in the Phase 2 Cathode area of Panasonic. [REDACTED] reported [REDACTED] is a previous employee who had made threats of violence on the Instagram social media platform around July 1st of 2019. At the time [REDACTED] confronted [REDACTED] in the Phase 2 Cathode area, [REDACTED] stated he was looking for someone, but [REDACTED] did not specify as to who.

Goble felt this was suspicious as [REDACTED] is now a temp employee for Tesla, and he should not be in the Panasonic area. Goble fears [REDACTED]'s intentions was to cause harm to a Panasonic employee. Goble stated this post gives us cause for concern. Goble provided me with a copy of the Instagram post which generated an employee complaint. I noted the Instagram account name is [REDACTED] which also has a photo associated with the account name. This photo on Instagram matched a photo Goble provided me with of [REDACTED].

The post is a photograph of a CZ P-10 semi-automatic pistol in which someone has a finger on the trigger. The photograph has a caption: "He got mad because Panasonic fired him now I'm scared". In the post notes the following is stated: "[REDACTED] ([REDACTED]'s account name) [REDACTED], [REDACTED], [REDACTED], [REDACTED], chubby [REDACTED] fuck RIP IM COMING FOR ALL OF YOU".

Goble provided me with some notes of the pertinent people involved with this incident. [REDACTED] discovered [REDACTED] in the Panasonic area on Oct. 8, 2019. [REDACTED] filed a complaint regarding the threatening Instagram post around July 1, 2019. [REDACTED] is the supervisor who took the complaint. [REDACTED] is the contact at the temp employee agency. I was also provided with a picture of [REDACTED], and a statement from Goble.

At approximately 1029 hours, I left the Tesla Gigafactory. I returned to the Lockwood Sheriff's Office Substation. I made contact with [REDACTED]. [REDACTED] provided me with basic identifying information for [REDACTED]. I then attempted to contact [REDACTED] by telephone. [REDACTED] did not answer. I left a message for [REDACTED] requesting he give me a phone call. By end of day October 8th, 2019 I had not received any call back from [REDACTED].

End of Initial Report.

19-929

On October 9, 2019 at approximately 1000 hours, I contacted [REDACTED] by telephone. [REDACTED] informed me she had observed the post on Instagram and she made a complaint. [REDACTED] stated she advised her supervisor, [REDACTED]. I asked [REDACTED] if she was a target in the Instagram post, and she stated she was not. [REDACTED] further stated she did not know any of the people who were listed in the post. I informed [REDACTED] I did not have any other questions at this time but I may re-contact her if anything came up. I then hung up with her.

End of Supp Report.
