

SAN FRANCISCO'S CORRUPTION, CRONYISM AND FAKE WOKE POLICIES KILLED THE CITY

Tourist Jeremy Bernier, a software engineer from San Francisco, who had just arrived in the Tenderloin district claimed drug addicts gathered outside his Airbnb.

A tourist visiting San Francisco's Tenderloin district was aghast after seeing 'drug addicts' gathered outside his rental.

[Jeremy Bernier, a software engineer](#), who just arrived in the neighborhood on Saturday, posted a picture on X, formerly [Twitter](#), of a group he claimed to be drug addicts gathered outside his [Airbnb](#).

Bernier described the city as the 'most depressing place I've ever seen' and went on to ask 'wtf is this and who the hell is in charge of this city?'

'So many drugged out people standing up while fully bent over with their head to the ground, taking what appears to be fentanyl,' he added.

'Tents everywhere, people passed out on sidewalks. This is worse than 3rd world countries. Such an embarrassment.'

The [progressive Tenderloin downtown district](#), once known for its rich cultural history, trendy restaurants, galleries, museums, and nightlife, has deteriorated as homelessness and drug use ramp up in the Democratic-led city.

Though it wasn't clear what brought Bernier to the gritty city, he tried to see the silver lining after his first day travelling: 'Happy to be here though, and looking forward to experiencing the tech capital!'

[San Francisco faces private school construction boom as parents refuse to send their kids to public school because 'they have been driven into the ground by the extreme left'](#)

Expensive San Francisco private schools have plans to renovate their campuses and increase the number of students as parents grow outraged with the public school system.

The progressive Tenderloin downtown district, once known for its rich cultural history has deteriorated as homelessness and drug use ramp up in the Democratic-led city

The Tenderloin district is in the heart of San Francisco and near the Asian Art museum.

It's just a few blocks from City Hall and the area includes part of the Compton Transgender Cultural District.

Robberies are up 14 percent so far this year in the Golden Gate City where mayor London Breed last month demanded cuts of 18 percent from next year's police budget.

Reported deaths from drug overdoses reached 620 in the first nine months of the year, according to the Office of the Chief Medical Examiner, up from 540 for the same period in 2020.

And the city stands to lose \$200 million a year in revenue through its business exodus - which has seen major hotels and retailers flee the city center.

Retail stalwart Old Navy announced it would be shuttering its flagship store in the area last month, becoming the latest chain to exit the city.

Nordstrom also announced it would be closing all of its locations in the city.

In April, Whole Foods announced it was closing all their locations, with Anthropologie and Office Depot having also made the same decisions leading some analysts to predict that the city has entered a 'doom-loop' of permanent decline.

Dozens of homeless people gathered on the city streets as civilians walk by

•

•

A homeless woman is seen bent over on the concrete appearing strung out on the streets of the downtown Tenderloin district

As crippling drug issues and widespread homeless problems continue to cause problems for the city, names like 'garbage city,' 'ruined city,' and 'fallen city' have surfaced.

Earlier this month, Britain's Home Secretary Suella Braverman held up the city as an example of what could happen in the UK as she outlined plans to prevent charities handing tents to homeless people.

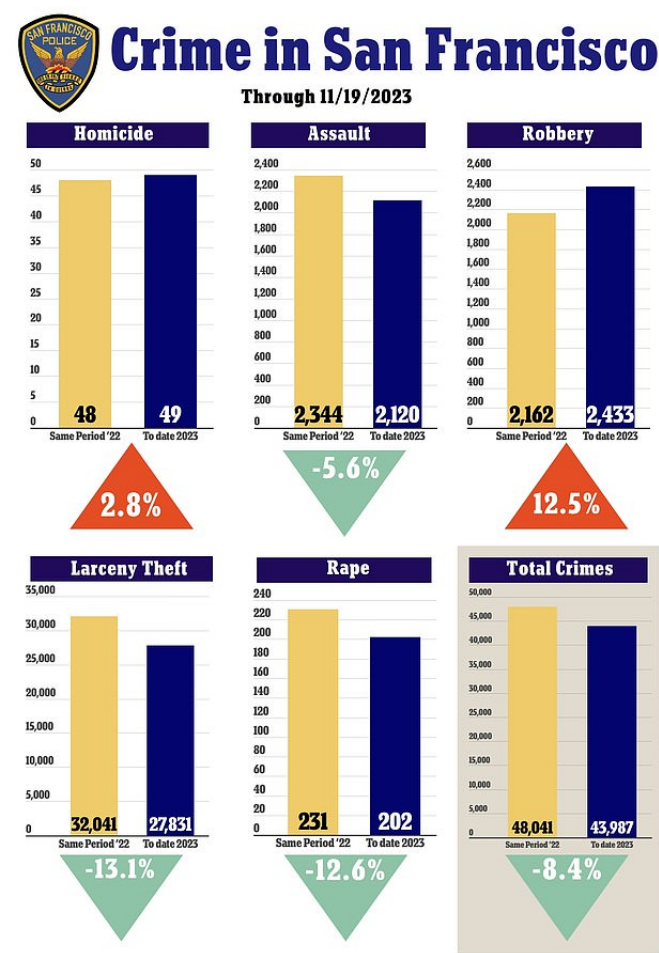

'Unless we step in now to stop this, British cities will go the way of places in the US like San Francisco and Los Angeles, where weak policies have led to an explosion of crime, drug taking, and squalor,' she wrote.

[The city's US attorney Ismail Ramsey](#) announced a multi-agency 'All Hand on Deck' project on Thursday to tackle drug dealing in Tenderloin, admitting it had become 'ground zero for drug tourism'.

He revealed that 50 kilograms of fentanyl have been seized from the district's streets in the last four months, nearly double the amount in the same period last year and enough to create 20 million lethal overdoses.

'Our drug crisis has been fueled in part because selling fentanyl has become a lucrative vocation for people who have found our neighborhoods, and principally the Tenderloin District, to be a convenient and risk-free marketplace,' he said.

It is a reality all too apparent to residents who have to live and work in the city.

A homeless encampment is lined up along the streets of the Tenderloin district in June

Tents and homeless encampments line the streets of downtown Tenderloin. One TikTok wrote: 'The tenderloin was rough but it was never like this, never, and I was born and raised here so this is not the same scene pre-pandemic'

Earlier this year a homeless woman was pictured giving birth on a sidewalk in Tenderloin as pedestrians wandered past.

The baby lay on the sidewalk, crying, covered in the mess of its birth until its mother reached out to scoop it up with a piece of fabric.

'This is overwhelming and mentally draining,' wrote the TikTok.

'Not to mention the dangers of the unpredictable nature of this environment.

'The tenderloin was rough but it was never like this, never, and I was born and raised here so this is not the same scene pre-pandemic.

'Imagine the children and senior population having to navigate this, it's definitely terrifying.'

TikToker 'Freqmeek,' a life-long resident, [filmed her walk to work through last month through the drug-ravaged streets](#) that have made the city an international symbol for squalor and despair.

'The anxiety we experience just traveling to work daily in the Tenderloin is unbelievable,' she wrote.

'There are so many concerns and protections in place for drug users and homeless people but what about the working class that have to pray that they make it to and from work in this environment.

'These are real dangers faced every single day just to be able to provide for your family.'

[China's white lung syndrome now spreads to SECOND US state: Massachusetts follows Ohio in reporting wave of mystery pneumonia in children - as Europe sees surge in cases and hospitalizations](#)

Dr John Kelley, from western Massachusetts, said his practice was seeing a lot of children coming in with pneumonia or suffering from a combination of RSV and other respiratory illnesses. Health officials in an Ohio county 30 miles outside Cincinnati said there had been 142 pediatric cases of pneumonia recorded in their area since August. An 'ongoing investigation' is underway into what triggered the wave of illnesses, but officials do not think it is a new respiratory disease. Patients have so far tested positive for mycoplasma pneumonia, a bacterial lung infection resistant to some antibiotics, strep and adenovirus, which are normally benign respiratory infections. Dr Clint Koenig, the county's medical director (pictured), said: 'We have seen hospitalizations [for child pneumonia] tick up in the last couple of weeks so we do ask parents to be vigilant. Our school districts have called in the outbreak starting roughly in August, but really picking up in mid to late October. We've also been noticing a lot of cases of kids being absent and the resulting diagnosis being pneumonia.'

The thrillingly scandalous lives of the 300 American heiresses who paid to wed impecunious Dukes, Earls and Viscounts and saved the aristocracy

One entry reads: 'Lord Arthur's mother is a gorgon.' 'The dowager Marchioness has a liquor cabinet in her bed chamber, of which she takes full advantage before breakfast,' reads another; while a third declares: 'Lord Robert is rumoured to enjoy le vice Anglais' - sadomasochism, to you and me. And so the entries go on, all contained within the New York subscription periodical, The Heiresses's Guide. Launched in the 1870s, the Guide not only listed every member of the British peerage and their marital status, but titillating information about their sexual proclivities, and the characters and foibles of their relatives. Why? Because as the new hit TV series, The Buccaneers - based on Edith Wharton's unfinished classic novel - shows in decadent detail, this was a time when English aristocrats were in high demand as marriage material for wealthy American girls and their socially ambitious families. So much so that a guidebook like this was essential reading for any young lady wanting to bag a blue blood.

SCOBIE BOOK BOMBHELLS

Omid who? Kate ignores fallout from Endgame race row as she puts on dazzling display in teal gown at London's Royal Albert Hall with Prince William

The Princess of Wales glowed as she arrived at the Royal Albert Hall in Kensington, following the release of Omid Scobie's Endgame earlier this week. Terrifying footage shows Mia Schem surrounded by a screaming crowd and guarded by Hamas gunmen as she was walked from a car and handed over to Red Cross operatives this afternoon. The French-Israeli hostage had been held captive for 54 days since October 7 when she was dragged away in to Gaza. In that time she was forced to film a propaganda video which showed the captive receiving treatment for injuries she sustained in her kidnapping. But today she was finally released alongside 40-year-old Amit Soussana in Palestine Square in the centre of Gaza City in a very public hostage exchange. It's not clear why the two women were released before another eight were expected to be released tonight.

'That has to be the angriest Xmas message ever': Canadian Prime Minister Justin Trudeau is labelled a Scrooge for accusing conservative climate deniers of 'putting future white Christmases at risk'

The spirited exchange prompted laughter from both sides of the House of Commons during question period on Wednesday, where the two politicians laid out their opposing views on climate policy. Pierre Poilievre, the Tory leader who hopes to replace Trudeau in the next elections, fired a holiday salvo at the Liberal PM, saying that all he had to offer Canadians for Christmas was a 'carbon tax lump of coal.' 'I'm pleased to point out that we're the Government that's phasing out coal!' fired back Trudeau, adding: 'The climate denialism of the Conservative Party of Canada is putting future white Christmases at risk. And that's why on this side of the House, we stand for Christmas.'

Is there a chance TRUMP might attend the fourth Republican debate? Organizers set up a lectern for the former president and his campaign asks when they can make the 'final decision' with less than a week to go

Organizers of next week's presidential debate at the University of Alabama are building a set with five lecterns, raising the possibility Donald Trump could make a surprise appearance. A photo obtained by DailyMail.com reveals there is plenty of room for the former president should he choose to cast aside his prior policy of skipping the smackdowns. A Trump rep. also held a call with debate organizers on logistics, according to a source.
